Genres of Digital Documents , 2005 The study of genres the fusion of content, purpose and form of communicative actions stretches back hundreds of years to the beginnings of self-reflective human communication. Greek philosophers and orators recognized that the content of the message is not always its most important aspect; rather, the delivery, the context, and the rhetorical structure all play complementary roles in the subtle but profound act of one human being transferring information to another and thereby creating meaning from that transfer.

Contemporary Urban Youth Culture in China Jing Sun, 2019-12-01 In Contemporary Urban Youth Culture in China: A Multiperspectival Cultural Studies of Internet Subcultures, Jing Sun explores contemporary Chinese urban youth culture through analyses of three Chinese Internet subcultural artifacts--A Bloody Case of a Steamed Bun, Cao Ni Ma, and Du Fu Is Busy. Using Douglas Kellner's (1995) multiperspectival cultural studies (i.e., critical theory and critical media literacy) as the theoretical framework, and diagnostic critique and semiotics as the analytical method, Sun examines three general themes--resistance, power relations, and consumerism. The power of multiperspectival cultural studies, an interdisciplinary inquiry, lies in its potentials to explore contemporary Chinese urban youth culture from multiple perspectives; explore historical backgrounds and complexity of cultural artifacts to understand contradictions and trajectories of contemporary Chinese urban youth culture; recognize alternative medias as a space for contemporary urban Chinese youth to express frustrations and dissatisfactions, to challenge social inequalities and injustices, and to create dreams and hopes for their future; recognize that the intertextuality among cultural artifacts and subcultures creates possibilities for Chinese urban youth to invent more alternative media cultures that empower them to challenge dominations, perform their identities, and release their imagination for the future; invite Chinese youth to be the change agents for the era but not to be imprisoned by the era; and overcome misunderstanding, misrepresentation, or underrepresentation of contemporary Chinese urban youth cultural texts to promote linguistic and cultural diversity in a multicultural, multilingual, and multiracial world. Sun argues that contemporary urban youth need to obtain critical media literacy to become the change agents in contemporary China. They need to be the medium of cultural exchanges in the multicultural, multilingual, and multiracial world. In order to best assist contemporary Chinese urban youth in expressing their voices, portraying their hopes, and performing their historical responsibilities as change agents, Sun sincerely hopes more research will be done on the contemporary Chinese urban youth culture, especially on its contradictions and trajectories, with the intent to shed light on more richly textured, nuanced, and inspiring insights into the interconnection between contemporary Chinese urban youth and media power in an increasingly multicultural, multilingual, and multiracial world.

Industrial Chemistry of Oxides for Emerging Applications Lech Pawlowski, Philippe Blanchart, 2018-03-14 Valuable insights into the extraction, production, and properties of a large number of natural and synthetic oxides utilized in applications worldwide from ceramics, electronic components, and coatings This handbook describes each of the major oxides chronologically--starting from the processes of extraction of ores containing oxides, their purification and transformations into pure alloyed powders, and their appropriate characterization up to the processes of formation of 2D films by such methods as PVD, CVD, and coatings by thermal spraying or complicated 3D objects by sintering and rapid prototyping. The selection of oxides has been guided by the current context of industrial applications. An important point that is considered in the book concerns the strategic aspects of oxides. Some oxides (e.g. rare earth ones) become more expensive due to the growing demand for them, others, because of the strategic importance of countries producing raw materials and the countries that are using them. Industrial Chemistry of Oxides for Emerging Applications provides readers with everything they need to know in 7 chapters that cover: technical and economical importance of oxides in present and future; fundamentals of oxides manufacturing; extraction, properties, and applications of Al₂O₃; extraction, properties, and applications of ZrO₂; synthesis, properties, and applications of YBaCu₂O_{7-x}; extraction, properties, and applications of TiO₂; and synthesis, properties, and application of hydroxyapatite. Presents the extraction, production, and properties of a large fraction of oxides applications worldwide, both natural as well as synthetic multi-oxides Covers a very important segment of many industrial processes, such as refractories and piezoelectric oxides--both applications constituting very large market segments Developed from a lecture course given by the authors for over a decade Industrial Chemistry of Oxides for Emerging Applications is an excellent text for university professors and teachers, and graduate and postgraduate students with a solid background in physics and chemistry.

Bate-Papos Educacionais na Internet: Uma Perspectiva Linguística Erisana Célia Sanches Victoriano, 2020-07-01 Bate-papos educacionais na internet: uma perspectiva linguística busca contribuir com o uso adequado das tecnologias de informação e comunicação (TIC) em contextos educacionais, mais especificamente de bate-papos on-line. Ele é destinado aos professores, coordenadores, designers de aprendizagem e todos aqueles interessados em compreender como, apesar de seu potencial positivo no apoio e enriquecimento de cursos presenciais e a distancia, o planejamento adequado das TIC é imperativo para o alcance de um ensino-aprendizagem significativo e que apoie a inclusão de pessoas em contextos sociais como o mundo acadêmico, científico e industrial. A origem das discussões apresentadas é um grande destaque, pois, além de frutos de investigações sobre práticas educacionais, são fundamentadas no entendimento da linguagem como principal meio de realização do ensino-aprendizagem. Um dos papéis fundamentais da educação é a ampliação dos recursos linguísticos necessários para o acesso a diferentes contextos sociais, e a linguagem é o principal meio de acesso a eles. Por isso, discute-se como linguagens de diferentes naturezas são trazidas para o contexto educacional e, assim, a qualidade do ensino-aprendizagem pode ser relacionada aos diferentes tipos de linguagem envolvidos nele e favorecidos por ele. Mais especificamente, discutem-se práticas discursivas e pedagógicas dentro de sessões de bate-papos on-line que se mostrem mais adequadas ao ensino-aprendizagem nesse contexto e a natureza dos conhecimentos estruturados nas interações investigadas. As discussões contribuem com a compreensão de como as TIC podem ser usadas em contexto educacional on-line de forma adequada e socialmente pertinente, pois indicam aspectos importantes que devem ser considerados durante o planejamento do uso das TIC em contexto de ensino-aprendizagem, especialmente durante o planejamento do uso de bate-papos on-line. Ao oferecer maior compreensão da linguagem envolvida no uso das TIC e contribuir com seu uso em contexto educacional, esta obra colabora com a ampliação do acesso a essas ferramentas digitais e com a inclusão de indivíduos a contextos sociais geralmente restritos a grupos mais privilegiados e, conseqüentemente, com uma educação a distância voltada à transformação cultural.

Myanmar und ASEAN: Die Rolle der ASEAN im politischen Wandel? Myanmars Johanna Grotendorst, 2013-06 Seit August 2011 überraschte die burmesische Regierung unter Staatspräsident Thein Sein internationale Beobachter mit einer ganzen Reihe demokratischer Reformen. Auch wenn es weiterhin zu schwerwiegenden Menschenrechtsverletzungen in Myanmar gerade gegen Angehörige ethnischer Minderheiten kommt, sind erstmals nach fünfzig Jahren Militärdiktatur – positive Veränderungen im Hinblick auf eine politische Liberalisierung des Landes und eine Verbesserung der Menschenrechtsslage feststellbar. Die vorliegende Untersuchung fragt, wie dieser politische Wandel Myanmars seit 2011 zu erklären ist und beleuchtet dabei insbesondere die Rolle der Association of Southeast Asian Nations (ASEAN), in die Myanmar 1997 eingetreten war. So zeichnet sie die Beziehung zwischen der ASEAN und Myanmar von 1997 bis 2012 in ihren verschiedenen Phasen nach und analysiert, inwieweit die ASEAN als teacher of norms angesehen werden kann, welche durch Sozialisation zum politischen Wandel in Myanmar beitragen.

Mobile Tagging im Marketing Niklaus Stadler, 2010-05-21 Über klassische Medien wie TV, Radio und Internet wird es immer schwieriger, noch von der Zielgruppe wahrgenommen zu werden. Erstaunlicherweise gibt es ein weit verbreitetes Medium, das kaum genutzt wird um mit Interessenten zu interagieren: Das Mobiltelefon. Es hat sich zu einem Allzweckcomputer gewandelt, über den man jederzeit auf das Internet zugreifen kann. Die umständliche Interaktion zwischen Handy und Umwelt erschwert jedoch den Einsatz des Mobile Marketing. Mobile Tagging bietet eine Lösung: Es ist wie eine gemeinsame Sprache für Handys und Objekte. Dieses Buch gibt einen Überblick über das Mobile Tagging im Marketing – über Begriff, Infrastruktur, Anwendungsmöglichkeiten und Problembereiche. Der Schwerpunkt liegt auf zwei Ausprägungen: Near Field Communication (NFC), eine Nahfunktechnik, die bereits in den kommenden Monaten Verbreitung finden könnte. Und QR-Codes, zweidimensionale Barcodes, die schon jetzt von zahlreichen Kamerahandys ausgelesen werden können.
