**Malcolm Campbell** 

Ireland's New Worlds Malcolm Campbell,2008 In the century between the Napoleonic Wars and the Irish Civil War, more than seven million Irish men and women left their homeland to begin new lives abroad. While the majority settled in the United States, Irish emigrants dispersed across the globe, many of them finding their way to another "New World," Australia. Ireland's New Worlds is the first book to compare Irish immigrants in the United States and Australia. In a profound challenge to the national histories that frame most accounts of the Irish diaspora, Malcolm Campbell highlights the ways that economic, social, and cultural conditions shaped distinct experiences for Irish immigrants in each country, and sometimes in different parts of the same country. From differences in the level of hostility that Irish immigrants faced to the contrasting economies of the United States and Australia, Campbell finds that there was much more to the experiences of Irish immigrants than their essential "Irishness." America's Irish, for example, were primarily drawn into the population of unskilled laborers congregating in cities, while Australia's Irish, like their fellow colonialists, were more likely to engage in farming. Campbell shows how local conditions intersected with immigrants' Irish backgrounds and traditions to create surprisingly varied experiences in Ireland's new worlds. Outstanding Book, selected by the American Association of School Librarians, and Best Books for Special Interests, selected by the Public Library Association "Well conceived and thoroughly researched . . . . This clearly written, thought-provoking work fulfills the considerable ambitions of comparative migration studies."—Choice

Bureau of International Labor Affairs, 2004 The report describes the efforts of 144 countries and territories to meet their international commitments to eliminate the worst forms of child labor. ... Elaine L. Chao.

**Germany's Role in the Euro Crisis** Franz-Josef Meiers,2015-08-28 This book analyses Germany's role in the euro crisis. Based on the perception of Berlin as the emerging capital of the European Union, the author investigates three interrelated issues: Did the German policy approach of imposing austerity programs on countries in the middle of a deep recession contribute to the successful management of the euro crisis? Does Germany extend its sway over its European partners by forcing them to surrender to the German diktat of fiscal Disziplin and economic efficiency? Is the stubborn insistence on rigid fiscal adjustment another ominous sign of the Berlin Republic moving away from the country's traditional European vocation toward an imperial leadership role? The book's main argument is that Germany's role in and responses to the euro crisis can best be explained by different concepts of self, historical memory, and institutional practices.

Life After Residency Melissa T. Berhow, William W. Feaster, John G. Brock-Utne, MD, PhD, FFA(SA), 2009-04-20 Life After Residency: A Career Planning Guide is an insightful, step-by-step guide to achieving a successful and fulfilling career in medicine. As professors at Stanford University Medical Center, Drs. Melissa Berhow, William Feaster, and John Brock-Utne began running seminars to advise their residents not only on creating a curriculum vitae and landing a great job, but also on how to manage student loan payments and avoid pitfalls in the life of a physician. The immense success and ensuing demand for more seminars eventually gave rise to Life After Residency—a book which continues the seminar discussions in greater depth and magnitude, while maintaining a conversational writing style. Key topics covered include: preparing for a job interview, evaluating job offers and negotiating contracts, obtaining and maintaining the proper State license, applying for membership onto Medical Staffs, obtaining malpractice insurance, buying a house and investing for eventual retirement, and pursuing non-medical career options. Loaded with sage advice and practical wisdom, Life After Residency is an invaluable asset to every resident during the transition from residency to life thereafter.

Guidelines for the management of symptomatic sexually transmitted infections World Health Organization, 2021-07-15 The WHO global health sector strategy on sexually transmitted infections, 2016-2021, endorsed by the World Health Assembly in 2016, aims to eliminate STIs as a public health threat by 2030. In 2019, WHO published estimates of new cases of chlamydia, gonorrhoea, syphilis and trichomoniasis. Recent changes in the epidemiology of STIs and progress in prevention, diagnosis and treatment of STIs and HIV have necessitated changes in approaches to STI prevention and management. To address these STIs, the most widely used approach in clinical settings is the syndromic management of STIs. In most resource-limited settings, the syndromic management flow charts are still the standard of care where laboratory diagnosis is not available or is hard to access. The objectives of these guidelines are to provide updated, evidence-informed clinical and practical recommendations on the case management of people with symptoms of STIs; and to support countries in updating their national guidelines for the case management of people with symptoms of STIs. These guidelines include the management of symptomatic infections related to urethral discharge syndrome, including persistent urethral discharge syndrome; vaginal discharge syndrome, including persistent vaginal discharge; anorectal infection; genital ulcer disease syndrome; and lower abdominal pain syndrome. These guidelines are intended for programme managers for STI prevention and control at the national level and the health-care providers at the frontline – primary, secondary and tertiary health care.

Segurança Química e Saúde do(a) Trabalhador(a) na Comunidade Internacional Silvio Teixeira,2021-11-29 O livro discorre sobre a proteção jurídica à saúde dos(as) trabalhadores(as) diante de riscos químicos presentes no meio ambiente de trabalho. A preocupação com os efeitos dos riscos químicos na saúde humana ganhou impulso com a Revolução Industrial, apresentando-se as reivindicações laborais, sociais e ambientais numa constante histórica, como tentativas de emancipação do ser humano diante de riscos produzidos num ambiente cada vez mais hostil às aspirações de bem-estar. De forma nem sempre paralela, três grandes mecanismos de resposta se formaram na comunidade internacional: a legislação internacional do trabalho, o direito internacional do meio ambiente e a saúde global. Tais sistemas produziram diplomas relevantes para a regulamentação de questões gerais e específicas quanto à segurança química no plano global, ao passo que não se pode perder de vista a importância da cultura local no desenvolvimento de alternativas viáveis de práxis emancipatória, a exemplo do campo da saúde do trabalhador. No contexto de crise da concepção mecanicista a partir do último quarto do século XX, a necessidade de mudança de paradigma torna-se mais evidente. O trabalho conclui pela necessidade da adoção de um novo paradigma de segurança, baseado na dignidade da pessoa humana, na democracia socioambiental e numa cidadania laboral participativa, como instrumentos de transformação emancipatória da realidade.

Descendents of Sir Robert Crosse Harold Zane Cross,2000 Sir Robert Crosse was born in Charlinch, Somerset, England in about 1552. He married Olyve Turner in 1576 in London. They had eight children. A possible descendant, Silvester Crosse, son of John Crosse and Margaret Wright, was born in about 1638. He emigrated in about 1682 and settled in Charleston, South Carolina. Traces descendants of this and other Crosse and Cross families, primarily in Maryland, South Carolina, North Carolina, Tennessee, Louisiana, Indiana and Texas. The author believes these families are related but has not been able to prove it in every case.

The Sunna and Shi'a in History O. Bengio, Meir Litvak, 2014-12-16 Sunni-Shi'i relations have undergone significant transformations in recent decades. In order to understand these developments, the contributors to the present volume demonstrate the complexity of Sunni-Shi'i relations by analyzing political, ideological, and social encounters between the two communities from early Islamic history to the present.

**Healthcare Technology Management Systems** Luis Vilcahuamán,Rossana Rivas,2017-07-17 Healthcare Technology Management Systems provides a model for implementing an effective healthcare technology management (HTM) system in hospitals and healthcare provider settings, as well as promoting a new analysis of hospital organization for decision-making regarding technology. Despite healthcare complexity and challenges, current

models of management and organization of technology in hospitals still has evolved over those established 40-50 years ago, according to totally different circumstances and technologies available now. The current health context based on new technologies demands working with an updated model of management and organization, which requires a re-engineering perspective to achieve appropriate levels of clinical effectiveness, efficiency, safety and quality. Healthcare Technology Management Systems presents best practices for implementing procedures for effective technology management focused on human resources, as well as aspects related to liability, and the appropriate procedures for implementation. Presents a new model for hospital organization for Clinical Engineers and administrators to implement Healthcare Technology Management (HTM) Understand how to implement Healthcare Technology Management (HTM) and Health Technology Assessment (HTA) within all types of organizations, including Human Resource impact, Technology Policy and Regulations, Health Technology Planning (HTP) and Acquisition, as well as Asset and Risk Management Transfer of knowledge from applied research in CE, HTM, HTP and HTA, from award-winning authors who are active in international health organizations such as the World Health Organization (WHO), Pan American Health Organization (PAHO), American College of Clinical Engineering (ACCE) and International Federation for Medical and Biological Engineering (IFMBE)
