**Iranian Music and Popular Entertainment** GJ Breyley, Sasan Fatemi, 2015-11-19 The word motreb finds its roots in the Arabic verb taraba, meaning 'to make happy.' Originally denoting all musicians in Iran, motrebi came to be associated, pejoratively, with the cheerful vulgarity of the lowbrow entertainer. In Iranian Music and Popular Entertainment, GJ Breyley and Sasan Fatemi examine the historically overlooked motrebi milieu, with its marginalized characters, from luti to gardan kolof and mashti, as well as the tenacity of motreb who continued their careers against all odds. They then turn to losanjelesi, the most pervasive form of Iranian popular music that developed as motrebi declined, and related musical forms in Iran and its diasporic popular cultural centre, Los Angeles. For the first time in English, the book makes available musical transcriptions, analysis and lyrics that illustrate the complexities of this history. As it presents the findings of the authors' years of ethnographic work with the history's protagonists, from senior motreb to pop-rock stars, the book reveals parallels between the decline of motrebi and the rise of 'modernity.' In the twentieth century, the fate of Tehran's motrebi music was shaped by the social and urban polarization that ensued from the modern market economy, and losanjelesi would be similarly affected by transnational relations, revolution, war and migration. Through its detailed and informed examination of Iranian popular music, this study reveals much about the values and anxieties of Iranian society, and is a valuable resource for students and scholars of Iranian society and history.

**The Regulation of Corporate Disclosure** James Robert Brown, 1999-01-01 The Regulation of Corporate Disclosure, Third Edition is a complete and up-to-date handbook on the issue of corporate disclosure, covering the impact of the federal securities laws on both informal communications and the process of communicating with shareholders. Also addressed are: SEC reforms of the periodic reporting process; issues pertaining to stock research analysts and conflicts of interest; and various relevant corporate governance requirements and their disclosure implications. Critical areas analyzed include ;Disclosure requirements and anti-fraud provisions The duty to disclose Dissemination Issues involving materiality Disclosure of bad news Negotiations Dealing with analysts And much more!

**Physics and the Environment** Kyle Forinash, 2017-07-05 Physics and the Environment directly connects the physical world to environmental issues that the world is facing today and will face in the future. It shows how the first and second laws of thermodynamics limit the efficiencies of fossil fuel energy conversions to less than 100%, while also discussing how clever technologies can enhance overall performance. It also extensively discusses renewable forms of energy, their physical constraints and how we must use science and engineering as tools to solve problems instead of opinion and politics. Dr. Kyle Forinash takes you on a journey of understanding our mature and well developed technologies for using fossil fuel resources and how we are unlikely to see huge gains in their efficiency as well as why their role in climate change ought to be an argument for their replacement sooner rather than later. He also discusses the newest technologies in employing renewable resources and how it is important to understand their physical constraints in order to make a smooth transition to them. An entire chapter is dedicated to energy storage, a core question in renewable energy as well as another chapter on the technical issues of nuclear energy. The book ends with a discussion on how no environmental solution, no matter how clever from a technical aspect, will succeed if there are cheaper alternative, even if those alternatives have undesirable features associated with them.

**Report of the Expert Consultation on the Assessment of Socio-economic Impacts of Aquaculture** Food and Agriculture Organization of the United Nations, 2008 The Expert Consultation on the Assessment of Socio-economic Impacts of Aquaculture was held in Ankara, Turkey, from 4 to 8 February 2008. It identified the many positive and negative impacts of aquaculture with their far-reaching socio economic implications. While they agreed that multi-criteria decision-making (MCDM) framework using analytical hierarchy process (AHP) as a measurement technique is a suitable method for assessing socio-economic impacts of aquaculture, experts recognized that other methods such as the costs benefits analysis (CBA) could also be used depending on circumstances. They recommended that case studies be carried out in a certain number of developed and developing countries on assessing the socio-economic impacts of aquaculture using AHP, CBA and another technique in order to test and compare the applicability and results of these methods. They also suggested developing a user guide on the implementation of these methods and build capacity in developing countries in using them, and identified other needs for future work in socio-economics of aquaculture.

**Aquaculture zoning, site selection and area management under the ecosystem approach to aquaculture** Food and Agriculture Organization of the United Nations, 2018-11-19 The ecosystem approach to aquaculture provides the conceptual guideline to spatial planning and management. This publication describes the three major steps in spatial planning and management, namely, zoning, site selection and design of an aquaculture management area, or AMA. The rationale for and objectives of each step, the ways (methodologies) to implement it, and the means (tools) that are available to enable a methodology are described in a stepwise fashion. Recommendations to practitioners and policy-makers are provided. A separate policy brief accompanies this paper. The benefits from spatial planning and management are numerous and include higher productivity and returns for investors, and more effective mitigation of environmental, economic and social risks, the details of which are provided in this paper. This publication is organized in two parts. Part one is the "Guidance"; it is the main body of the document and describes the processes and steps for spatial planning, including aquaculture zoning, site selection and area management. Part two of the publication includes six annexes that present key topics, including: (i) binding and non-legally binding international instruments, which set the context for sustainable national aquaculture; (ii) biosecurity zoning; (iii) aquaculture certification and zonal management; (iv) an overview of key tools and models

that can be used to facilitate and inform the spatial planning process; (v) case studies from ten countries – Brazil, Chile, China, Indonesia, Mexico, Oman, the Philippines, Turkey, Uganda and the United Kingdom of Great Britain and Northern Ireland; and (vi) a workshop report. The country case studies illustrate key aspects of the implementation of spatial planning and management at the national level, but mostly within local contexts.

*Biodiesel* Greg Pahl, 2008-09-15 For anyone who is trying to keep up with the extremely rapid developments in the biodiesel industry, the second edition of *Biodiesel: Growing a New Energy Economy* is an invaluable aid. The breathtaking speed with which biodiesel has gained acceptance in the marketplace in the past few years has been exceeded only by the proliferation of biodiesel production facilities around the United States--and the world--only to confront new social and environmental challenges and criticisms. The international survey of the biodiesel industry has been expanded from 40 to more than 80 countries, reflecting the spectacular growth of the industry around the world. This section also tracks the dramatic shifts in the fortunes of the industry that have taken place in some of these nations. The detailed chapters that cover the industry in the United States have also been substantially rewritten to keep abreast of its many new developments and explosive domestic growth. An expanded section on small-scale, local biodiesel production has been added to better represent this small but growing part of the industry. Another new section has been added to more fully explore the increasingly controversial issues of deforestation and food versus fuel, as well as GMO crops. The second edition concludes with updated views on where the industry is headed in the years to come from some of its key players.

*Marine Microbiology* Se-Kwon Kim, 2013-06-21 Deliberately breaking with the classical biology-centered description of marine organisms and their products, this reference emphasizes microbial technology over basic biology, setting it apart from its predecessors. As such, it systematically covers the technology behind high-value compounds for use as pharmaceuticals, nutraceuticals or cosmetics, from prospecting to production issues. Following a definition of the field, the book goes on to address all industrially important aspects of marine microbial biotechnology. The first main part contains a description of the major production organisms, from archaeobacteria to cyanobacteria to algae and symbionts, including their genetic engineering. The remaining four parts look at commercially important compounds produced by these microorganisms together with their applications. Throughout, the emphasis is on technological considerations, and the future potential of these organisms or compound classes is discussed. A valuable and forward-looking resource for innovative biotechnologists in industry as well as in academia.

**Towards Improving Global Information on Aquaculture** Food and Agriculture Organization of the United Nations. Fisheries Department, Food and Agriculture Organization of the United Nations, 2005 In recent years, the demand for reliable data and reporting on aquaculture has greatly increased, driven not only by the need to formulate and monitor sound policies and development plans, but also by the reporting requirements of international agreements and by increasing public demand for transparency and accountability. This document sets out the findings of a FAO expert consultation, held in January 2004, to discuss relevant issues including approval of a draft strategy and outline plan for improving information on status and trends of aquaculture.

Research Handbook on International Law and Natural Resources Elisa Morgera, Kati Kulovesi, 2016-11-25 Research Handbook on International Law and Natural Resources provides a systematic and comprehensive analysis of the role of international law in regulating the exploration and exploitation of natural resources. It illuminates interactions and tensions between international environmental law, human rights law and international economic law. It also discusses the relevance of soft law, international dispute settlement, as well as of various unilateral, bilateral, regional and transnational initiatives in the governance of natural resources. **Online Hate Speech in the European Union** Stavros Assimakopoulos, Fabienne H. Baider, Sharon Millar, 2017-12-20 This book is open access under a CC BY 4.0 license and reports on research carried out as part of the European Union co-funded C.O.N.T.A.C.T. project which targeted hate speech and hate crime across a number of EU member states. It showcases the bearing that discourse analytic research can have on our understanding of this phenomenon that is a growing global cause for concern. Although 'hate speech' is often incorporated in legal and policy documents, there is no universally accepted definition, which in itself warrants research into how hatred is both expressed and perceived. The research project synthesises discourse analytic and corpus linguistics techniques, and presents its key findings here. The focus is especially on online comments posted in reaction to news items that could trigger discrimination, as well as on the folk perception of online hate speech as revealed through semi-structured interviews with young individuals across the various partner countries.

*Cultural Diplomacy in Europe* Caterina Carta, Richard Higgott, 2019-06-24 This edited volume explores European cultural diplomacy, a topic of growing interest across the scholarly and applied public policy communities in recent years. The contributions focus on Europe, culture and diplomacy and the way they are interlinked in the contemporary international context. The European Union increasingly resorts to cultural assets and activity for

both internal and external purposes, to foster European cohesion and advancing integration, and to mitigate the demise of other foreign policy components, respectively. This calls for an analysis of the strategic role of culture, especially as it relates to the realm of EU external action. The chapters provide a conceptual discussion of culture in international relations and examine how this concept relates to cultural diplomacy and cultural strategy. The authors discuss roles and relationships with the EU's 2016 Global Strategy and current EU attempts to foster the EU's political and societal resilience.

**Cat's Cradle** Kurt Vonnegut, 2009-11-04 "A free-wheeling vehicle . . . an unforgettable ride!"—The New York Times Cat's Cradle is Kurt Vonnegut's satirical commentary on modern man and his madness. An apocalyptic tale of this planet's ultimate fate, it features a midget as the protagonist, a complete, original theology created by a calypso singer, and a vision of the future that is at once blackly fatalistic and hilariously funny. A book that left an indelible mark on an entire generation of readers, Cat's Cradle is one of the twentieth century's most important works—and Vonnegut at his very best. "[Vonnegut is] an unimitative and inimitable social satirist."—Harper's Magazine "Our finest black-humorist . . . We laugh in self-defense."—Atlantic Monthly

*Night of the Hawk* Victoria Leigh, 2014-05-01 All Hawk wanted was a little more time to prepare his move against a notorious drug dealer, complete restoration of his reputation, and a lot of revenge. When Angela Ferguson lifted the gun and pointed it at him, the timetable was no longer in his hands. He had to get back in the game and race ahead of his enemies before it was too late. And because he could, he took Angela with him.
