Carbon-free and Nuclear-free Arjun Makhijani,2007 In a world confronting global climate change, political turmoil among oil exporting nations, nuclear weapons proliferation, nuclear plant safety and waste disposal issues, the United States must assume a leadership role in moving to a zero-CO2-emissions energy economy. At the same time America needs to take the lead in reducing the world's reliance on nuclear power. This breakthrough joint study by the Institute for Energy and Environmental Research and the Nuclear Policy Research Institute shows how our energy needs can be met by alternative sources, as wind, solar, hydrogen, biomass, microalgae, geothermal and wave power are all part of the solution. Must reading for everyone concerned with energy politics and the planet's future, Carbon-Free is already making headlines.

Capacidade Contributiva e Igualdade Tributária sob a Perspectiva da Fraternidade no Imposto sobre a Renda da Pessoa Física Fabiano Pires Castagna,2024-03-26 De que forma o valor-princípio da fraternidade pode contribuir para a concretização dos princípios constitucionais da capacidade contributiva e da igualdade tributária no Imposto sobre a Renda da Pessoa Física (IRPF)? Esse é o problema que a obra pretende discutir, uma vez que o Brasil está entre os países com a maior carga tributária do mundo e, paralelamente, ocupa a octogésima sétima colocação no Índice de Desenvolvimento Humano. Há visível disparidade entre a maneira como se exigem os tributos e a contraprestação oferecida pelo Estado. Assim, a resolução do problema passa, primeiro, pelo estabelecimento dos principais conceitos e características dos princípios da capacidade contributiva e da igualdade tributária. O segundo capítulo explica, nos aspectos histórico e jurídico, o valor-princípio da fraternidade, reconstruindo seu sentido propositalmente esquecido no curso da História. No terceiro capítulo, o IRPF será analisado, determinando critérios próprios, características, história do tributo no Brasil e aspectos do fato gerador. O quarto capítulo discute o problema central: o valor-princípio da fraternidade constitui-se marco teórico seguro, capaz de legitimar os princípios da capacidade contributiva e da igualdade tributária na realidade do IRPF? Por fim, o último capítulo proporá soluções na perspectiva da fraternidade e conforme os princípios da capacidade contributiva e da igualdade tributária, para a resolução específica de problemas relacionados ao IRPF. Data Protection and Data Transfers Law Paul Lambert,2023-02-13 This title brings together the different aspects of the transfer landscape and outlines the separate rules, all in one accessible place. Data transfers (under data protection rules) are one of the most discussed areas of data protection, and are currently undergoing significant change. Data transfers are relied on as an essential function of national and international trade, business, and internet use. It is essential for practitioners to keep abreast of the new data transfer rules and changes for their clients. Following on from Brexit, professionals now have more than one set of transfer rules to comply with, including: - The different data transfer channels - New Adequacy Decision - New Standard Contract rules - New UK Contract rules - Consultation process on future laws - New proposed UK data laws - Data law and data transfer changes - Practical and commercial considerations There are more UK data transfer channels and rules to consider now than at any time previously. The UK data transfer regime is now more complex than the EU data transfer regime, necessitating significant extra diligence by commercial entities. This book is designed to assist UK and international law professionals, in-house data protection professionals and a wide range of other interested readers on the increasingly complex area of data rules.
