Katherine Dillion

Wall Street and the Financial Crisis: The role of high risk home loans, April 13, 2010 United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs. Permanent Subcommittee on Investigations, 2010

Oncology Clinical Trials Susan Halabi, PhD, Wm. Kevin Kelly, DO, 2009-12-22 Clinical trials are the engine of progress in the development of new drugs and devices for the detection, monitoring, prevention and treatment of cancer. A well conceived, carefully designed and efficiently conducted clinical trial can produce results that change clinical practice overnight, deliver new oncology drugs and diagnostics to the marketplace, and expand the horizon of contemporary thinking about cancer biology. A poorly done trial does little to advance the field or guide clinical practice, consumes precious clinical and financial resources and challenges the validity of the ethical contract between investigators and the volunteers who willingly give their time and effort to benefit future patients. With chapters written by oncologists, researchers, biostatisticians, clinical research administrators, and industry and FDA representatives, *Oncology Clinical Trials*, provides a comprehensive guide for both early-career and senior oncology investigators into the successful design, conduct and analysis of an oncology clinical trial. *Oncology Clinical Trials* covers how to formulate a study question, selecting a study population, study design of Phase I, II, and III trials, toxicity monitoring, data analysis and reporting, use of genomics, cost-effectiveness analysis, systemic review and meta-analysis, and many other issues. Many examples of real-life flaws in clinical trials that have been reported in the literature are included throughout. The book discusses clinical trials from start to finish focusing on real-life examples in the development, design and analysis of clinical trials. *Oncology Clinical Trials* features: A systematic guide to all aspects of the design, conduct, analysis, and reporting of clinical trials in oncology Contributions from oncologists, researchers, biostatisticians, clinical research administrators, and industry and FDA representatives Hot topics in oncology trials including multi-arm trials, meta-analysis and adaptive design, use of genomics, and cost-effectiveness analysis Real-life examples from reported clinical trials included throughout

Environmental Management Michael V. Russo, 2008-09-05 Increased concern about the natural environment has led to an urgent call for organizations to take action toward environmental stewardship. This Second Edition of the groundbreaking *Environmental Management: Readings and Cases* will inspire readers to find creative solutions to the challenges of maintaining sustainable enterprise while restoring our ecological community. Featuring a highly esteemed group of contributors with content from premier journals –including *Harvard Business Review* –this comprehensive reader fills a major gap in the teaching of business and the environment. New to the Second Edition: More than two-thirds of the book consists of new material, addressing emerging and timely topics like environmental regulation, green marketing, environmental strategy, and more The book features 11 new cases, providing a platform for lively classroom discussion This edition adds a stronger international component, highlighting the global nature of environmental management Accompanied by High-Quality Ancillaries! Instructor Resources on CD provide in-depth teaching notes for both the readings and the cases, course development guides including outlines, and helpful charts providing visual links between readings, cases that have been developed by the author, and popular topics. IRCDs are available to qualified instructors only by contacting Customer Care at 1-800-818-SAGE (7243) between 6 am – 5 pm, PT. Intended Audience This reader serves as a stand-alone or supplemental text for upper-level undergraduate or graduate courses such as *Environmental Management*, *Green Marketing*, *Clean Production*, *Environmental Policy and Strategy*, and other courses in business and environmental studies.

Eco-yards Laureen Rama, 2011-02-08 Provides urbanites and suburbanites with a way to design and maintain an eco-yard, detailing soil science, the best way to grow vegetables; making one's yard water-wise; and replacing one's lawn with trees, shrubs, flower beds and hardy, low-maintenance grass. Original.

Human Rights in the World Community Richard Pierre Claude, Burns H. Weston, 2006-10-04 This unique textbook seeks to promote students' critical and analytical skills and to provide a teacher-friendly resource featuring: in-depth scholarly introductions to each chapter, multiple questions for discussion and reflection, and an extensive bibliography and annotated filmography.

Phoenix Rising Donald G. Lett, 2008-02 In an age when the supply of gasoline to feed this modern American society has become both more expensive and more scarce questions are being pondered. Inquires like, 'How can a modern society scale back its dependence on gasoline as a motive source?' 'Are there genuine alternative power sources?' 'Are they the answer to a growing crisis?' Recent announcements of hybrids like those from Honda, Toyota, and Ford have really brought attention to this issue. Hybrids that use both gasoline engines and electric motors. Really, though, alternative power sources have been around for as long as the automobile has been. The battle between and among the steam car, the electric and the gas car was fought out in the first couple of decades of the twentieth century. This book explores the ins and outs of that battle. A struggle from which the gasoline car emerged completely victorious. To such an extent that steam cars and electric cars virtually disappeared from the scene for many decades. We will look over all three alternatives, exploring their advantages and disadvantages. We will also look over the obstacles to the steamers and the electrics. Barriers that still exist to a certain extent. Handicaps that caused their disappearance in the first place.

Evidence-Based Outcome Research Arthur M. Nezu, Christine Maguth Nezu, 2008 This edited volume provides both conceptual and practical information for conducting and evaluating evidence-based outcome studies. It encompasses psychotherapy research for traditional mental health disorders (eg. depression, anxiety), as well as psychosocial-based treatments provided to medical patient populations to have impact either on the disease process itself (pain, cardiovascular risk) or to improve the quality of life of such individuals. This is a hands-on book, whose major emphasis is on the practical nuts-and-bolts implementation of psychosocial-based RCTs from conception to completion.

Ebook: Research Design and Methods: A Process Approach Kenneth Bordens, Bruce Barrington Abbott, 2014-10-16 *Research Design and Methods: A Process Approach* takes students through the research process, from getting and developing a research idea, to designing and conducting a study, through analyzing and reporting data. Information on the research process is presented in a lively and engaging way, highlighting the numerous decisions, both big and small, that must be made when designing and conducting successful research.

Psychosocial Conceptual Practice Models in Occupational Therapy Moses N. Ikiugu, Elizabeth A. Ciaravino, 2007-01-01 This book examines the occupational therapy paradigm (its focal viewpoint, core constructs, and values) as well as the role of complexity/chaos theory as a scientific framework for occupational therapy research and practice. Unlike other current OT texts, this book uses clinical case examples to illustrate

application of proposed changes to make procedures consistent with the latest Occupational Therapy Practice Framework. The reader walks away with a clear grasp of the theoretical principles guiding his or her treatment interventions, the explanations behind those principles, and the applicable intervention for said techniques and procedures. An emphasis on clinical-reasoning skills, including information on different types of reasoning skills as well as the MAPP model of teaching helps the student and clinician translate theoretical principles into practice. The section on specific interventions addresses each of the conceptual practice models according to a consistent chapter template, which enables the reader to apply conceptual practice models in real-world contexts. Preview questions at the beginning of each chapter alert the reader to important concepts in the upcoming text. Critical analysis of the theoretical core provides suggested modifications to increase consistency with the new occupational therapy paradigm.

The Normalization of War in Israeli Discourse, 1967-2008 Dalia Gavriely-Nuri, 2013 The Normalization of War in Israeli Discourse, 1967-2008, by Dalia Gavriely-Nuri opens a window to how Israelis talk, write, and think about war. In the post-World War II period, Israel has taken part in eight wars, more than almost any other western democracy. In addition to official wars, Israel has experienced two Intifadas and repetitive long periods of bombings of its border-settlements. This book argues that such an intensive involvement in military actions provides a natural arena for a uniquely fertile war discourse. Gavriely-Nuri identifies a special war discourse: a war-normalizing discourse (WND). WND as a set of linguistic, discursive, and cultural devices aims at blurring the anomalous character of war by transforming it into an event perceived as natural-- a normal part of life. Moreover, the WND is served as a unique rhetorical compass and illuminates one basic organizing principle underlying the Israeli war discourse. WND has been in use throughout Israel's history, in periods of war as well as in periods of relative peace. It has become a fundamental part of the Israeli public discourse concerning both peace and war and an integral part of Israeli identity. The Normalization of War in Israeli Discourse, 1967-2008, is an essential investigation into how nations use rhetoric and tactical discourse to normalize their conflicts.

Foundations of Library Services Hali R. Keeler, 2021-03-12 Trained library support staff play a critical role in assisting the user in locating and interpreting the resources available in libraries. To do so requires the knowledge and practice of library missions and roles in different types of libraries and the delivery of that information to an increasingly diverse clientele. The plethora of resources available today requires that support staff understand and implement the basic principles of information services as well as the responsibility and relationships among library departments and functional areas. Foundations of Library Services is both a text for professors who teach in library support staff programs and an introductory reference manual for support staff who work in libraries. As part of the Library Support Staff Series, this updated edition will guide the LSS to be able to: Understand the mission and role of the library in its community Be familiar with the ethics and values of the profession, including those of the Library Bill of Rights, the ALA Code of Ethics, freedom of information, confidentiality of library records and privacy issues Know the responsibility and relationships among library departments Practice the basic principles of circulation, including interlibrary loan; current cataloging and classification systems; and acquisitions and collection development policies. Understand how libraries are governed and funded within their organizations or government structures Realize the value of cooperation to enhance services Practice quality customer service Communicate and promote the library's values and services Recognize and respond to diversity in user needs

The Kingdom of the Occult Walter Martin, Jill Martin Rische, Kurt Van Gorden, Kevin Rische, 2008-10-21 The Kingdom of the Occult delivers the timely followup to Dr. Martin's best-selling The Kingdom of the Cults This book takes Dr. Walter Martin's comprehensive knowledge and his dynamic teaching style and forges a strong weapon against the world of the Occult--a weapon of the same scope and power as his phenomenal thirty-five year bestseller, The Kingdom of the Cults (over 875,000 sold). Chapters include: Witchcraft and Wicca, Satanism, Pagan Religions, Tools of the Occult, Demon Possession and Exorcism, Spiritual Warfare, etc. Features include: Each chapter contains: Quick Facts; History; Case Studies; Theology; Resources

Urban Policy Reconsidered Charles C. Euchner, Stephen J. McGovern, 2003 First Published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

Understanding the Gift of Salvation Irpeel Ebenezer, 2012-02 What exactly did Jesus Christ save us from other than hell fire? That was the question a somewhat frustrated friend asked while going through a difficult period in his life. Many Christians have asked similar questions or wondered why the Christian life in reality is so different from what is usually professed. This book is a true seeker's manual on the Gift of Salvation. It is for those who are not satisfied with only doctrines and creeds handed down by parents or pastors. It is for those willing to build on what they've learnt, dig deeper and find out the fullness of what God in His mercy gave to mankind in Jesus Christ. It not a book to rush or breeze through, like the Berean Christians, readers are encouraged to carefully study the Scripture references and dig out the truth for themselves. The promise of God is: You will seek Me and find Me, when you seek Me with all your heart.

Boston University International Law Journal , 2007

Integrating Freight Facilities and Operations with Community Goals Anne Strauss-Wieder, National Cooperative Highway Research Program, 2003 TRB's National Cooperative Highway Research Program (NCHRP) Synthesis Report 320: Integrating Freight Facilities and Operations with Community Goals identifies practices that have been or are being used by private-sector freight companies and public transportation agencies in citing their facilities, modifying their operations, and managing their community relations. Good neighbor initiatives and balancing practices employed by metropolitan planning and economic development organizations, local governments, and others are also recognized. The report covers water, truck, rail, and air freight facilities and operations. Although the report does not include pipelines, several of the issues and practices discussed are relevant to pipeline facilities and operations.

The New "public" , 2002

Friends Watching Friends Katherine Dillion, 2009-10-02 Friends Watching Friends: American Television in Egypt is a media study on the impact and influence of American television in Egypt. Based on personal and small group interviews and research from 2004-2006, the work includes ways that Egyptian women view the influence of American television in their daily lives as well as showing ways that Egyptians use the media to develop their ideas about Americans. Using the sitcom Friends as a focal point, the study probes commonalities about humor between Egyptian and American women that make Friends particularly appealing as an international text. Additionally, using an ethnographic approach, the research examines relevant social trends in employment, relationships, and the economy.

It celebrates a diversity of opinions among Egyptian women and gives voice to those who want to share their views with others internationally and who have a strong tie to their own culture and heritage.

A Christmas Carol Charles Dickens,2015-09-15 From the bustling, snowy streets of 19th-century London to the ghostly apparitions of Christmases past and future, award-winning artist Roberto Innocenti vividly renders not only the authentic detail but also the emotional impact of Charles Dickens's beloved Christmas tale. In both crowded urban scenes and intimate portraits of familiar characters, we gain a sense of the timeless humanity of the tale and perhaps catch a glimpse of ourselves.

Raymond's Run Toni Cade Bambara,2014 A story about Squeaky, the fastest thing on two feet, and her brother Raymond.
