Doing Time Roger Matthews, 2016-03-11 The new edition of *Doing Time* brings this widely recognized book up-to-date and provides an accessible and informed discussion of current debates around prisons and penal policy. Library Scholarly Communication Programs Isaac Gilman, 2013-10-31 Libraries must negotiate a range of legal issues, policies and ethical guidelines when developing scholarly communication initiatives. *Library Scholarly Communication Programs* is a practical primer, covering these issues for institutional repository managers, library administrators, and other staff involved in library-based repository and publishing services. The title is composed of four parts. Part one describes the evolution of scholarly communication programs within academic libraries, part two explores institutional repositories and part three covers library publishing services. Part four concludes with strategies for creating an internal infrastructure, comprised of policy, best practices and education initiatives, which will support the legal and ethical practices discussed in the book. Demonstrates the importance of creating a policy infrastructure for scholarly communication initiatives Offers a novel combination of legal and ethical issues in a plain, approachable format Provides samples of policy and contract language, as well as several case studies, to illustrate the concepts presented

American Evangelicals and the 1960s Axel R. Schäfer, 2013-08-23 In the late 1970s, the New Christian Right emerged as a formidable political force, boldly announcing itself as a unified movement representing the views of a moral majority. But that movement did not spring fully formed from its predecessors. *American Evangelicals and the 1960s* refutes the thesis that evangelical politics were a purely inflammatory backlash against the cultural and political upheaval of the decade. Bringing together fresh research and innovative interpretations, this book demonstrates that evangelicals actually participated in broader American developments during the long 1960s, that the evangelical constituency was more diverse than often noted, and that the notion of right-wing evangelical politics as a backlash was a later creation serving the interests of both Republican-conservative alliances and their critics. Evangelicalism's involvement with—rather than its reaction against—the main social movements, public policy initiatives, and cultural transformations of the 1960s proved significant in its 1970s political ascendance. Twelve essays that range thematically from the oil industry to prison ministry and from American counterculture to the Second Vatican Council depict modern evangelicalism both as a religious movement with its own internal dynamics and as one fully integrated into general American history.

The Making of the West End Stage Jacky Bratton, 2011-10-13 All roads lead to London – and to the West End theatre. This book presents a new history of the beginnings of the modern world of London entertainment. Putting female-centred, gender-challenging managements and styles at the centre, it redraws the map of performance history in the Victorian capital of the world. Bratton argues for the importance in Victorian culture of venues like the little Strand Theatre and the Gallery of Illustration in Regent Street in the experience of mid-century London, and of plays drawn from the work of Charles Dickens as well as burlesques by the early writers of Punch. Discovering a

much more dynamic and often woman-led entertainment industry at the heart of the British Empire, this book seeks a new understanding of the work of women including Eliza Vestris, Mary Ann Keeley and Marie Wilton in creating the template for a magical new theatre of music, feeling and spectacle.

Routledge Handbook of Democracy and Security Leonard Weinberg, Elizabeth Francis, Eliot Assoudeh, 2020-12-22 This handbook explores how democracies around the world seek to balance democratic values with the requirement to protect their citizens from the threat of politically motivated violence. Over the past few decades, the majority of the world's democracies have had to confront serious security threats, and in many instances these challenges have not come from rival states but from violent groups. This volume offers readers an overview of how some democracies have responded to such threats. It examines the extent to which authorities have felt compelled to modify laws to evade what would ordinarily be regarded as protected rights, such as personal privacy, freedom of movement and freedom of speech. Grounded in historical analysis, each of the sections addresses past and emerging security threats; legal and legislative responses to them; successful and unsuccessful efforts to reconcile democracy and security; and a range of theoretical questions. The case studies provided vary in terms of the durability of their democratic systems, level of economic development and the severity of the threats with which they have been confronted. The volume is divided into three thematic parts: Strong democracies: United States, Great Britain, France, Germany, Italy, Spain, Australia, New Zealand and Israel Challenged democracies: India, South Africa, Brazil, Argentina and Romania Fragile democracies: the Philippines and Nigeria. This book will be of much interest to students of democracy, security studies, political philosophy, Asian politics, Middle Eastern politics, African politics, West European politics and IR in general.

Southeast Asia in Search of an ASEAN Community C. Rodolfo Severino, 2006 Talking about ASEAN, this volume reappraises the organization from the inside, through controversial or perplexing issues such as the ASEAN Way, the accession of the new members, including Myanmar, the principle of non-interference, regional security, regional economic integration, the haze and SARS, and ASEAN's future.

Thorp and Covich's Freshwater Invertebrates James H. Thorp, D. Christopher Rogers, 2014-09-06 Readers familiar with the first three editions of *Ecology and Classification of North American Freshwater Invertebrates* (edited by J.H. Thorp and A.P. Covich) will welcome the comprehensive revision and expansion of that trusted professional reference manual and educational textbook from a single North American tome into a developing multi-volume series covering inland water invertebrates of the world. The series entitled *Thorp and Covich's Freshwater Invertebrates* (edited by J.H. Thorp) begins with the current Volume I: *Ecology and General Biology* (edited by J.H. Thorp and D.C. Rogers), which is designed as a companion volume for the remaining books in the series. Those following volumes provide taxonomic coverage for specific zoogeographic regions of the world, starting with *Keys to Nearctic Fauna* (Vol. II) and *Keys to Palaearctic Fauna* (Vol. III). Volume I maintains the ecological and general biological focus of the previous editions but now expands coverage globally in all chapters, includes more taxonomic groups (e.g., chapters on individual insect orders), and covers additional functional topics such as invasive species, economic impacts, and functional ecology. As in previous editions, the 4th edition of *Ecology and Classification of North American Freshwater Invertebrates* is designed for use by professionals in universities, government agencies, and private companies as well as by undergraduate and graduate students. Global coverage of aquatic invertebrate ecology Discussions on invertebrate ecology, phylogeny, and general biology written by international experts for each group Separate chapters on invasive species and economic impacts and uses of invertebrates Eight additional chapters on insect orders and a chapter on freshwater

millipedes Four new chapters on collecting and culturing techniques, ecology of invasive species, economic impacts, and ecological function of invertebrates Overall expansion of ecology and general biology and a shift of the even more detailed taxonomic keys to other volumes in the projected 9-volume series Identification keys to lower taxonomic levels
