Exopolitics: Politics, Government and Law in the Universe Alfred Lambremont Webre, Jd Med Alfred Lambremont Webre, 2005 EXOPOLITICS is the evolution of Alfred Lambremont Webre's groundbreaking work as a futurist at the Stanford Research Institute, where in 1977 he directed a proposed extraterrestrial communication study project for the Carter White House. Exopolitics may turn the dominant view of our Universe upside down. It reveals that we live on an isolated planet in the midst of a populated, evolving, and highly organized inter-planetary, inter-galactic, and multi-dimensional Universe society. It explores why Earth seems to have been quarantined for eons from a more evolved Universe society. Exopolitics suggests specific steps to end our isolation, by reaching out to the technologically and spiritually advanced civilizations that are engaging our world at this unique, challenging time in human history.

Rochelle Carol Hegberg, 2007-01-17 The Lincoln Highway through Rochelle was originally a Potawatomi Indian trail. In 1853, Robert P. Lane purchased land from Charlotte Bartholomew, Sheldon Bartholomew's widow, near the settlement known as Hickory Grove, and the community became officially known as Lane. After a hanging scandal, the citizens renamed their village Rochelle. From then, the town grew to the largest city in Ogle County. Rochelle's famous railroad park and the diamond (crossing of the Burlington Northern and Santa

Fe Railroad and the Union Pacific Railroad) attract visitors throughout the year. The park's tourist center is located in a refurbished Standard Oil gas station. The Flagg Township Historical Museum offers times gone by in many forms in the 1884 city hall, which is on the National Register of Historic Places. Rochelle offers suburban amenities with the healthy atmosphere of the small town where actress Joan Allen grew up.

Women Pulitzer Playwrights Carolyn Casey Craig, 2004-10-22 In the first century of the coveted Pulitzer Prizes, only 11 women have won the prize for drama: Zona Gale (1921), Susan Glaspell (1931), Zoe Akins (1935), Mary Coyle Chase (1945), Ketti Frings (1958), Beth Henley (1981), Marsha Norma (1983), Wendy Wasserstein (1989), Paula Vogel (1998), Margaret Edson (1999), and Suzan-Lori Parks (2002). This book is about them and their landmark plays, beginning with Gale's *Miss Lulu Bett*, which championed the unmarried woman forced to work in the home of a married relative, and closing with Parks' controversial *Topdog/Underdog*, which made her the first black woman to win the prize. Drawn from personal interviews with the playwrights and research from archives and unpublished material, this work shows how the stage art of women has reflected life in the American family and traces a strong thread of feminist history in our culture. Overview chapters set the stage for each playwright and play with sketches of the time period, highlighting the major points of women's experiences in culture, society and the family. Other chapters analyze each play in detail and discuss the playwright's life and opinions. The book also includes a quick history of the Pulitzer Prize and a chapter honoring black female playwrights.

The Omniverse Alfred Lambremont Webre, 2015-11-17 A tour through the new science of the Omniverse, its spiritual and physical dimensions, and its incalculable intelligent civilizations • Reveals the key travel and communication technologies of the Omniverse: time travel, teleportation, and telepathy • Unveils newly disclosed state secrets about these technologies, about the findings of the NASA Mars rover missions, and about a secret colony and life on Mars • Explains through science how souls are holographic fragments of God and how they help create planets, solar systems, galaxies, and universes in the multiverse We are all citizens of the Omniverse, the overarching matrix of energy, spirit, and intelligence that encompasses all that exists: all universes within the multiverse as well as the spiritual dimensions centered on the divine Source that many call God. In this scientific guide to the Omniverse, Alfred Lambremont Webre reveals startling replicable evidence about extraterrestrial and extra-universal life, the intelligent civilizations created by souls in the afterlife, top-secret alien technology, and the existence of a secret base as well as life on Mars. The author explains how our souls are holographic fragments of God/Source and how souls and Source are co-creating planets and galaxies as virtual realities for soul development. He addresses Grey alien control over soul reincarnation and also sheds light on the presence of invisible hyperdimensional controllers known as the Archons, who feed off negative energy. Revealing the key technologies of the Omniverse, the author explains how hyperdimensional civilizations communicate telepathically, teleport interdimensionally, and travel through time. He unveils newly disclosed state secrets about government possession of these technologies, the findings of the NASA Mars rover missions, and the secret Mars colony whose permanent security personnel

is age-reversed and shot back through time to their specific space-time origin points--with their memories blocked. Integrating science and spirituality, this map of the dimensions of the Omniverse sounds the call for scientific inquiry into the holographic origins of the soul, the potential of time travel, and our role as divine co-creators with Source.

Connectives as Discourse Landmarks Agnès Celle, Ruth Huart, 2007 This set of eleven articles, by linguists from four different European countries and a variety of theoretical backgrounds, takes a new look at the discourse functions of a number of English connectives, from simple coordinators (and, but) to phrases of varying complexity (after all, the fact is that). Using authentic spoken and written data from varied sources, the authors explore the ways in which current uses of connectives result from the interaction of syntax, semantics and prosody, both over time and through diversity of discourse situations. Most adopt an integrative approach in which speaker-listener or writer-reader relationships are viewed as part and parcel of the linguistic properties of each marker. Because it combines functional, generative and enunciative approaches into a coherent whole with a common explanatory aim, this book will be of interest to linguists, corpus-linguists and all those who investigate the semantics-pragmatics interface.

Hunting in the Shadows: The Pursuit of al Qa'ida since 9/11 Seth G. Jones, 2012-05-01 From one of our most trusted counterterrorism experts, a sweeping, insider's account of the decade-long chase for America's deadliest enemy. This landmark history chronicles the dramatic, decade-long war against al Qa'ida and provides a model for understanding the ebb and flow of terrorist activity. Tracing intricately orchestrated terrorist plots and the elaborate, multiyear investigations to disrupt them, Seth G. Jones identifies

three distinct “waves” of al Qaeda violence. As Jonathan Mahler wrote in the New York Times Book Review, “studying these waves and the counterwaves that repelled them can tell us a lot about what works and what doesn’t when it comes to fighting terrorism.” The result is a sweeping, insider’s account of what the war has been and what it might become.

They Also Serve Jane P. Ives, 2020-03-31 Stories from the women and men who have served alongside Methodist and United Methodist bishops. When a bishop is elected in The United Methodist Church, it is not only the one elected who is asked to serve but his or her spouse and family as well. Hear the stories of how Methodist and United Methodist episcopal spouses have adjusted to and navigated this life-changing journey. While dealing with the full range of human experience—births, deaths, relationship struggles, and illness—they also travel the world, participate in mission and ceremonies, meet

interesting people, and stand up for justice. Through hardships, celebrations, and everyday struggles, these spouses find their own paths of ministry, answering the calls that are also placed upon their lives. In these ways and many others, they also serve. Praise for They Also Served A meticulous labor of love by Jane P. Ives, They Also Served remembers faithful unsung Christians by chronicling previously unrecorded details of the spouses of episcopal leaders. Sometimes in the spotlight, often in the shadows, the bishop's spouses struggled to fulfill unpaid roles and undefined responsibilities in the church, usually far from family and friends. Ives empathetically highlights how these persons, usually without voice or vote, helped shape the church's mission and ministry. - Dr. Donald E. Messer, Executive Director, Central for Health and Hope: Focusing on Global HIV and AIDS, Centennial Colorado. Bishops may ebb and flow in their popularity based on their decisions, but their spouses are almost universally loved and admired. Jane Ives helps readers understand why that is the case with her comprehensive story of the impressive, diverse, and thoroughly dedicated women and men who have contributed so much to God's work. -Lovett H. Weems, Jr., Distinguished Professor of Church Leadership Emeritus, Wesley Theological Seminary, Washington, DC In the gospel of Luke, Jesus sent the disciples out, two by two, to every town, and country, every charge and conference. Ives' book records the wisdom of sending two, and restores the names of those often forgotten in the story of the people called Methodists, the spouses. These are remarkable oral histories as well as timelines of social holiness and global service. This is not a book about survival in ministry and marriage; it's a testimony to those who thrived in their calling. -Heather Murray Elkins, Professor of Worship, Preaching, and the

Arts, The Theological School of Drew University, Madison, New Jersey This is a book about discipleship. It is also a book about ministry and itinerancy. It tells stories of how God sometimes calls two people to the work of episcopacy, people who happen to be married to each other. It is a book that will make you laugh and cry! This book is an important addition to the literature of Methodist episcopacy. And it is a hard book to put down!

—William Boyd Grove, Bishop (Ret.) of The United Methodist Church

Jane Ives has given the Methodist family a priceless treasure. Through an astonishing effort to collect memories and explore archival material, she has compiled a comprehensive record of episcopal spouses, their stories, accomplishments, and contributions to the church. But this book is more than a biographical dictionary. It offers a poignant, insightful account of the lives of bishops, their spouses and families, and the impact of the church's expectations on all of them. As a little boy, I knew firsthand the phone call: get on a train to New Orleans with your sister; your Daddy is going to be a bishop. Allow me to testify, then, that this book is the real deal -- genuine, human, and rich with faith and Spirit.

—Thomas E. Frank, Associate Dean for Continuing Studies, Graduate School of Arts and Science, Wake Forest University,

Winston-Salem, North Carolina

Laité and clergy active in United Methodist life and their spouses will want to immerse themselves in this corporate autobiography, which provides an overview of Methodism through almost 80 years of personal experiences and cultural change. Jane Ives, an episcopal spouse, has amassed here narratives, reports, and communications crafted by her spousal colleagues, living and dead, as well as by those who have known them. For page after page, the reader will relive Methodism's sometimes gradual, sometimes dramatic evolution and its struggles with race, gender,

inclusivity, and global relationships. The bishops' spouses have shown great creativity in making the most of their opportunities to be together during Council meetings: sharing ideas, establishing covenant and interest groups, and adjusting their organization to respond to changing needs. Ives has devoted the final third of the book to profiles of the spouses, some quite famous and others whose names are not even known. These vignettes illustrate how different episcopal spouses have lived out their own calling and how they have impacted the church and the world. —Russell E. Richey, Dean Emeritus of Candler School of Theology and William R. Cannon Distinguished Professor of Church History Emeritus, Durham, North Carolina

The Dunhuang Grottoes and Global Education Xu Di, 2019-05-15 This book analyzes the murals and texts of the Dunhuang Grottoes, one of the most famous sites of cultural heritage on the Silk Road in Northwest China, from an educational perspective. The Dunhuang Grottoes are well-known in the world for their stunning beauty and magnificence, but the teaching of Dunhuang advocates a philosophical perspective that cosmos, nature, and humanity are an interconnected whole, and that all elements function interactively according to universal and relational principles of continuity, cause-and-effect, spiritual connection, and enlightenment. Xu Di and volume contributors highlight the moral education and ethics found throughout the Dunhuang with numerous stories of the personal journeys and growth of the Buddha and bodhisattvas, discussing and analyzing these teachings, and their possible implications for modern education systems throughout China and the world today.
