La lutte contre le terrorisme : ses acquis et ses défis / The fight against terrorism: achievements and challenges Christiane Höhn, Isabel Saavedra, Anne Weyembergh, 2021-07-28 Ce *Liber Amicorum*, qui rend hommage à Gilles de Kerchove, coordinateur de l'Union européenne pour la lutte contre le terrorisme de 2007 à 2021, dresse le bilan de ce qui a été mené dans ce secteur ces dernières années et se penche également sur les défis à venir. Après une introduction retraçant le parcours du récipiendaire, la première partie se penche sur différents aspects de la coopération au sein de l'Union européenne, allant du mandat d'arrêt européen, à la protection des droits fondamentaux en passant par le rôle de certaines institutions ou agences de l'UE. La deuxième partie traite de la coopération entre l'UE et le reste du monde, qu'il s'agisse d'organisations mondiales ou de certains États en particulier, comme les États-Unis. La troisième partie, plus transversale, rassemble des contributions diverses touchant notamment à l'État islamique, au financement du terrorisme, aux victimes et aux

nouvelles technologies. L'ouvrage se clôt par une quatrième partie relative à la prévention, à la lutte contre la radicalisation, aux valeurs, à la liberté de la presse et à la littérature. Les auteurs, issus de diverses parties du monde, présentent des profils très divers, parmi lesquels d'éminentes figures politiques, des fonctionnaires européens, des académiques, des magistrats et des journalistes. L'ouvrage a été coordonné par Dr. Christiane Höhn, Conseillère principale de Gilles de Kerchove, Isabel Saavedra, son Assistante personnelle et Prof. Anne Weyembergh, Professeur ordinaire à l'Université libre de Bruxelles (ULB). * * * This *Liber Amicorum*, which pays tribute to Gilles de Kerchove, EU counter-terrorism coordinator from 2007 to 2021, takes stock of what has been achieved in this field in recent years and looks at the challenges ahead. After an introduction tracing the recipient's background, the first part looks at different aspects of cooperation within the European Union, ranging from the European arrest warrant, to the protection of fundamental rights and the role of certain EU institutions or agencies. The second part deals with cooperation between the EU and the rest of the world, both with global organisations and with specific States, such as the United States. The third, cross-cutting part brings together various

contributions relating to the Islamic State, the financing of terrorism, victims and new technologies. The book concludes with a fourth part on prevention, the fight against radicalisation, values, freedom of the press and literature. The authors come from various parts of the world and present a wide range of profiles, including prominent political figures, EU officials, academics, magistrates and journalists. The book was coordinated by Dr. Christiane Höhn, Principal Advisor to Gilles de Kerchove, Isabel Saavedra, his Personal Assistant and Prof. Anne Weyembergh, Professor at the Université libre de Bruxelles (ULB).

Unfunding Terror Jimmy Gurulé, 2010-01-01 Jimmy Gurulé knows how to bankrupt terrorists like few others do. As Undersecretary of the Treasury for Enforcement, he spearheaded the fight against al-Qaeda's global bank accounts, helping to earn the highest grade awarded on the 9/11 Commissioners report card. As an author, he performs once again. *Unfunding Terror* provides policymakers and laymen alike a clear roadmap on how to keep terrorists out of the global financial system. Timothy J. Roemer, Center for National Policy, former US Congressman and member of the National Commission on Terrorist Attacks Upon the United States (9/11 Commission) Jimmy Gurulé has given us a superbly

comprehensive and well-written assessment of why, regarding terrorism, Deep Throat's principle is bang on: follow the money. R. James Woolsey, venture partner, VantagePoint, and former Director of Central Intelligence, US A detailed study by a true scholar-practitioner, *Unfunding Terror* explains the legal response to terror finance in language accessible to both the expert and layman. Required reading. Matthew Levitt, Director, Stein Program on Counterterrorism and Intelligence, The Washington Institute for Near East Policy and former Deputy Assistant Secretary of the Treasury for Intelligence and Analysis, US Professor Gurulé is comprehensive: he describes the problem (terrorist funding by those in the free world), analyzes the legal responses (make it a crime, freeze terrorist assets, impose regulations on financial institutions), critiques the administration's and international community's efforts to unfund terrorists (political rhetoric, not in fact backed up with effective strategies or implementation), and outlines concrete legal and administrative remedies. Would that they to whom the recommendations are addressed act on them quickly. Too much is at stake to let terrorists, who condemn the West as corrupt, get their funding to attack the US and its allies from the West itself. That would be a form of social suicide. G. Robert

Blakey, Notre Dame Law School, US The September 11, 2001 terrorist attacks that claimed the lives of 2,973 innocent civilians required as much as \$500,000 to stage. At the time, al Qaeda was operating on an annual budget of between \$30 and \$50 million. However, despite the obvious fact that terrorists need money to terrorize, preventing the financing of terrorism was not a priority for the United States or the international community prior to 9/11. Jimmy Gurulé, former Under Secretary for Enforcement in the US Department of the Treasury, provides the first book-length, comprehensive analysis of the legal regime that evolved following the terrorist attacks. The book begins with a discussion of how shutting down the pipelines of funding is as important as dismantling the terrorist cells themselves. Next, the book covers the various means and methods used by terrorist groups to raise money, and examines how money is transferred globally to finance their lethal activities. The principal components of the legal strategy to disrupt the financing of terrorism are then discussed and evaluated. Unfortunately, the author concludes that the legal regime has met with mixed results, and finds that the sense of urgency to deprive terrorists of funding that existed following 9/11 has since dissipated. As a result, international efforts to freeze

terrorist assets have dramatically declined. Moreover, the US Department of Justice has suffered several embarrassing and disappointing legal defeats in prosecuting major terrorist financiers. The author provides numerous recommendations to Congress, the Executive Branch, and the UN Security Council for strengthening the legal regime to deny terrorists the money needed to wage global jihad, acquire weapons of mass destruction, and launch another terrorist attack on the scale of 9/11. *Unfunding Terror* fills an important gap in the literature and will be essential reading for counter-terrorism experts, law enforcement and national se

Promoting Democracy and Human Rights in Russia Sinikukka

Saari, 2009-12-04 European regional organisations have spent significant amount of time, energy and money in supporting Russia's transition towards the western liberal-democratic model since the end of the cold war. This book explores the role the Council of Europe, European Union and Organisation for Security and Cooperation in Europe have played in Russia's post-Soviet transition in the field of human rights and democracy. The book argues that the organisations have played an important initial role in setting the reform agenda and in providing a general framework for interaction in the field of human rights and democracy.

However, since the mid-1990s the impact of regional organisations has been slipping. Lately Russia has challenged the European human rights and democracy norms and now it threatens the whole framework for regional normative cooperation. Russia's attitude towards western liberal order has become more assertive and its defiance increasingly concerted even internationally. The main finding is that democracy and human rights promotion is not a one-way transference of norms like much of the theoretical literature and European practices presume. The Russian case demonstrates that the so-called target state can influence the norm promoters and the interpretation of the norms in a fundamental way. This is a finding that has significant implications both for theory and practice.

Reconceptualising Power in Language Policy Abhimanyu

Sharma, 2022-08-12 This book aims to expand the theoretical framework of and counter the Eurocentric narratives in language policy research, by comparing policies of EU and India and demonstrating the importance of taking a comparative perspective while studying language policies. This book challenges the notion of macro-level power in language policy research and offers evidence that, in democratic frameworks, macro-level power is not

absolute. It is not uniform across policy domains, but rather susceptible to pressure, especially in the domains of healthcare and social welfare. This book makes three important contributions to the theory of language policy by: Arguing for the need to reconceptualise macro-level power Proposing ‘Categories of Differentiation’ as a new analytical tool for policy research Demonstrating that socio-political changes are reflected at the textual level This book is of interest to researchers working on language policies and those investigating language related legislation across different policy domains, to practitioners and policymakers in language policy, as well as to graduate students conducting comparative policy research. “This is a much valued and timely book making a strong case for the subject of language policy across Europe and India. The large comparative case studies of four distinctive states across Europe and India in a simple descriptive mode makes the reading of this book enjoyable. The domains of administration, legislation, healthcare and social welfare are undoubtedly novel ways to deal within the concept of language policy in a wider sense. The author uses discourse analysis to bring out the relationship between intention, explanation and interpretation of a phenomenon like language policy and its

implementation. The social diversity as expressed in linguistic mapping is well captured in the novel idea of “categories of differentiation” both as a normative methodological tool and its historical-empirical manifestation.” – Asha Sarangi, Jawaharlal Nehru University, New Delhi.

Terrorism Financing and State Responses Jeanne K. Giraldo, Harold A. Trinkunas, 2007 This book takes a broadly comparative approach to analyzing how the financing of global jihadi terrorist groups has evolved in response to government policies since September 11, 2001.

Technical Communication Michael H. Markel, Mike Markel, 2012-01-04 This volume provides students with accessible and easy-to-follow strategies for tackling the major types of documents, from writing reports to job applications. Contemporary Women Playwrights Penny Farfan, Lesley Ferris, 2014-01-23 Breaking new ground in this century, this wide-ranging collection of essays is the first of its kind to address the work of contemporary international women playwrights. The book considers the work of established playwrights such as Caryl

Churchill, Marie Clements, Lara Foot-Newton, Maria Irene Fornes, Sarah Kane, Lisa Kron, Young Jean Lee, Lynn Nottage, Suzan-Lori Parks, Djanet Sears, Caridad Svich, and Judith Thompson, but it also foregrounds important plays by many emerging writers. Divided into three sections-Histories, Conflicts, and Genres-the book explores such topics as the feminist history play, solo performance, transcultural dramaturgies, the identity play, the gendered terrain of war, and eco-drama, and encompasses work from the United States, Canada, Latin America, Oceania, South Africa, Egypt, and the United Kingdom. With contributions from leading international scholars and an introductory overview of the concerns and challenges facing women playwrights in this new century, *Contemporary Women Playwrights* explores the diversity and power of women's playwriting since 1990, highlighting key voices and examining crucial critical and theoretical developments within the field.

Exopolitics: Politics, Government and Law in the Universe
Alfred Lambremont Webre,Jd Med Alfred Lambremont Webre,2005

EXOPOLITICS is the evolution of Alfred Lambremont Webre's groundbreaking work as a futurist at the Stanford Research Institute, where in 1977 he directed a proposed extraterrestrial communication study project for the Carter White House.

Exopolitics may turn the dominant view of our Universe upside down. It reveals that we live on an isolated planet in the midst of a populated, evolving, and highly organized inter-planetary, inter-galactic, and multi-dimensional Universe society. It explores why Earth seems to have been quarantined for eons from a more evolved Universe society. Exopolitics suggests specific steps to end our isolation, by reaching out to the technologically and spiritually advanced civilizations that are engaging our world at this unique, challenging time in human history.

E-Commerce Strategy Zheng Qin, Yang Chang, Shundong Li, Fengxiang Li, 2014-10-30 *E-Commerce Strategy* builds awareness and sharpens readers' understanding of the key issues about e-commerce strategies. To link theory of e-commerce strategy with practice in the real world, it brings together theoretical perspectives based on academic research, integrated use of technologies and large amount of cases, especially those of China. With regard to the innovative technical standards and frameworks,

it proposes strategic analysis from a technical point of view. The book is intended for postgraduate students in e-commerce and computer science as well as government officials, entrepreneurs and managers. Prof. Zheng Qin is the Director of Software Engineering and Management Research Institute, Tsinghua University, China; Dr. Shundong Li is a Professor at the School of Computer Science, Shaanxi Normal University, China; Dr. Yang Chang and Dr. Fengxiang Li are both Research Assistants at the School of Software, Tsinghua University, China.

Ultimate Price Howard Steven Friedman,2020-05-05 How much is a human life worth? Individuals, families, companies, and governments routinely place a price on human life. The calculations that underlie these price tags are often buried in technical language, yet they influence our economy, laws, behaviors, policies, health, and safety. These price tags are often unfair, infused as they are with gender, racial, national, and cultural biases that often result in valuing the lives of the young more than the old, the rich more than the poor, whites more than blacks, Americans

more than foreigners, and relatives more than strangers. This is critical since undervalued lives are left less-protected and more exposed to risk. Howard Steven Friedman explains in simple terms how economists and data scientists at corporations, regulatory agencies, and insurance companies develop and use these price tags and points a spotlight at their logical flaws and limitations. He then forcefully argues against the rampant unfairness in the system. Readers will be enlightened, shocked, and, ultimately, empowered to confront the price tags we assign to human lives and understand why such calculations matter.

Masters of Audacity and Deceit William E. Been, 2011-10 The American people will never knowingly adopt Socialism, but under the name of liberalism, they will adopt every fragment of the socialist program until one day America will be a socialist nation without ever knowing how it happened. -Norman Thomas With the GDP growing to its peak in June 2008, why did the Lehman Brothers bankruptcy of September 15, 2008, help spark a recession that grew to be the Great Recession? How is it possible that American financial leadership was so negligent and uninformed as to not foresee an economic situation that would be described as being so severe that it would require trillions of dollars

to avoid a Great Depression? Are we so incapable from a financial management perspective, or are we so paralyzed by political forces that necessary corrections were either not foreseen or not allowed? Through meticulous research, *Masters of Audacity and Deceit* answers these questions and connects the dots that link the myriad factors that have led this country to its current state.

Steering from the Centre of Government in Times of Complexity Compendium of Practices OECD,2024-04-19 From steering decision making in times of complexity to stewarding cross-cutting policies and guiding good practices across the public administration, centres of government (CoGs) play an important role in achieving government ambitions. This compendium gathers and shares practices and experiences of CoGs in undertaking their various roles and functions. It describes the mechanisms CoGs use in roles such as bridging the political-administrative interface, stewarding cross-cutting policies, guiding public administration reform, and engaging with citizens and other stakeholders.

Ocular Differential Diagnosis Frederick Hampton Roy,2012-03-31 The ninth edition of *Ocular Differential Diagnosis* is a practical manual to help practitioners make a quick diagnosis based on presentation and symptoms. The chapters are organised

by regions of the eye, listing possible causes for each symptom in both common and uncommon disorders. Syndromes and diseases associated with exophthalmos, ptosis, strabismus, nystagmus, glaucoma, cataracts, uveitis and optic atrophy are discussed in detail. Drugs associated with each disorder are listed alphabetically and their recommended selection and dosage are in accordance with current practice. Diagnoses are listed alphabetically with more common and clinically significant disorders highlighted by asterisks. Further reading suggestions appear after each diagnostic description.

Hollywood and the Great Depression Iwan Morgan, 2016-10-31
Examines how Hollywood responded to and reflected the political and social changes that America experienced during the 1930s. In the popular imagination, 1930s Hollywood was a dream factory producing escapist movies to distract the American people from the greatest economic crisis in their nation's history. But while many films of the period conform to this stereotype, there were a significant number that promoted a message, either explicitly or implicitly, in support of the political, social and economic change broadly associated with President Franklin D. Roosevelt's New Deal programme. At the same time, Hollywood was in the forefront of

challenging traditional gender roles, both in terms of movie representations of women and the role of women within the studio system. With case studies of actors like Shirley Temple, Cary Grant and Fred Astaire, as well as a selection of films that reflect politics and society in the Depression decade, this fascinating book examines how the challenges of the Great Depression impacted on Hollywood and how it responded to them. Topics covered include: How Hollywood offered positive representations of working women Congressional investigations of big-studio monopolization over movie distribution How three different types of musical genres related in different ways to the Great Depression the Warner Bros Great Depression Musicals of 1933, the Astaire/Rogers movies, and the MGM kids musicals of the late 1930s The problems of independent production exemplified in King Vidor's *Our Daily Bread* Cary Grant's success in developing a debonair screen persona amid Depression conditions Contributors Harvey G.
