Library Lion Michelle Knudsen,2024-03-05 A reminder that sometimes, there is a good reason to break the rules. . . .This winsome pairing of text and illustration is a natural for storytime. -- SCHOOL LIBRARY JOURNAL (starred review) (Ages 4-7) Miss Merriweather, the head librarian, is very particular about rules in the library. No running allowed. And you must be quiet. But when a lion comes to the library one day, no one is sure what to do. There aren't any rules about lions in the library. And, as it turns out, this lion seems very well suited to library visiting. His big feet are quiet on the library floor. He makes a comfy backrest for the children at story hour. And he never roars in the library, at least not anymore. But when something terrible happens, the lion quickly comes to the rescue in the only way he knows how. Michelle Knudsen's disarming story, illustrated by the matchless Kevin Hawkes in an expressive timeless style, will win over even the most ardent of rule keepers.

Evil Librarian Michelle Knudsen,2014-09-09 He's young. He's hot. He's also evil. He's . . . the librarian. When Cynthia Rothschild's best friend, Annie, falls head over heels for the new high-school librarian, Cyn can totally see why. He's really young and super cute and thinks Annie would make an excellent library monitor. But after meeting Mr. Gabriel, Cyn realizes something isn't quite right. Maybe it's the creepy look in the librarian's eyes, or the weird feeling Cyn gets whenever she's around him. Before long Cyn realizes that Mr. Gabriel is, in fact . . . a demon. Now, in addition to saving the school musical from technical disaster and trying not to make a fool of herself with her own hopeless crush, Cyn has to save her best friend from the clutches of the evil librarian, who also seems to be slowly sucking the life force out of the entire student body! From best-selling author Michelle Knudsen, here is the perfect novel for teens who like their horror served up with a bit of romance, plenty of humor, and some pretty hot guys (of both the good and evil variety).

The Trial of Saddam Hussein Dr. Abdul-Haq Al-Ani,2010-04-20 The trial of Saddam Hussein marks the first time since the UN was created that a head of state has been put on trial by an invading, occupying power. This book, by the UK coordinator of Saddam Hussein's defense team, seeks to alert public attention to the threat this precedent poses to developing nations worldwide, and to its distortive influence on the further development of international law. Al-Ani documents the trail of illegalities marking the destruction of Iraq at the hands of the US and UK, from the genocidal sanctions of the 1990s, the US State Department pre-invasion planning that commenced in 2001, and the 2003 invasion, to the setting up and proceedings of the Tribunal that swiftly dispatched Saddam Hussein. While the Tribunal was intended to promote the image of a triumphant Iraqi democracy, the US was actually in control of all stages of the trial. It drafted the Tribunal's Statute, decided where the trial would be held, and what charges would be brought; researched, compiled, stored, and prevented access to evidence and documentation; elected and trained the judges, and micro-managed the proceedings. Al-Ani follows the trial step by step, detailing its many failures and US micro-management: * Important documents were not given to defense lawyers in advance * no written transcript of the trial was kept * paperwork was lost * The defense was prevented from cross-examining witnesses * judges and numerous witnesses participated incognito, * defense lawyers were intimidated, three were assassinated * defense witnesses were frightened to come forward * defense lawyers could not communicate with their client or review the evidence The trial itself was so farcical as to provoke international condemnation. International human rights groups, including Amnesty International and Human Rights Watch, as well as UN bodies such as the Working Group on Arbitrary Detention and the High Commissioner for Human Rights, have stated that the Iraqi Special Tribunal and its

Welcome to the story of Despereaux Tilling, a mouse who is in love with music, stories, and a princess named Pea. It is also the story of a rat called Roscuro, who lives in the darkness and covets a world filled with light. And it is the story of Miggery Sow, a slow-witted serving girl who harbors a simple, impossible wish. These three characters are about to embark on a journey that will lead them down into a horrible dungeon, up into a glittering castle, and, ultimately, into each other's lives. What happens then? As Kate DiCamillo would say: Reader, it is your destiny to find out. With black-and-white illustrations and a refreshed cover by Timothy Basil Ering.

A Smarter National Surveillance System for Occupational Safety and Health in the 21st Century National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Health Sciences Policy,Division of Behavioral and Social Sciences and Education,Committee on National Statistics,Division on Earth and Life Studies,Board on Agriculture and Natural Resources,Committee on Developing a Smarter National Surveillance System for Occupational Safety and Health in the 21st Century,2018-04-27 The workplace is where 156 million working adults in the United States spend many waking hours, and it has a profound influence on health and well-being. Although some occupations and work-related activities are more hazardous than others and face higher rates of injuries, illness, disease, and fatalities, workers in all occupations face some form of work-related safety and health concerns. Understanding those risks to prevent injury, illness, or even fatal incidents is an important function of society. Occupational safety and health (OSH) surveillance provides the data and analyses needed to understand the relationships between work and injuries and illnesses in order to improve worker safety and health and prevent work-related injuries and illnesses. Information about the circumstances in which workers are injured or made ill on the job and how these patterns change over time is essential to develop effective prevention programs and target future research. The nation needs a robust OSH surveillance system to provide this critical information for informing policy development, guiding educational and regulatory activities, developing safer technologies, and enabling research and prevention strategies that serves and protects all workers. A Smarter National Surveillance System for Occupational Safety and Health in the 21st Century provides a comprehensive assessment of the state of OSH surveillance. This report is intended to be useful to federal and state agencies that have an interest in occupational safety and health, but may also be of interest broadly to employers, labor unions and other worker advocacy organizations, the workers' compensation insurance industry, as well as state epidemiologists, academic researchers, and the broader public health community. The recommendations address the strengths and weaknesses of the envisioned system relative to the status quo and both short- and long-term actions and strategies needed to bring about a progressive evolution of the current system.

Revenge of the Evil Librarian Michelle Knudsen,2019-08-13 The stage is set for a fiendishly dramatic summer at theater camp for Cynthia and her boyfriend, Ryan. With no demons at all. Right? Last fall, Cynthia Rothschild saved her best friend, as well as the entire student body, from the demon librarian, Mr. Gabriel, all while executing the most awesome set design for the school musical, Sweeney Todd. But now that all that demon stuff is behind her, Cyn is looking forward to the best summer ever at theater camp with her former-crush-and-now-boyfriend, Ryan Halsey. Once she gets to camp, though, Cyn realizes this summer might not be all she's been hoping for. First, Ryan's best camp friend is a girl (which Ryan had never mentioned to Cyn), and she just happens to be ridiculously pretty. Plus, it seems the demon stuff is not entirely over as Cyn had hoped. At least any new demons that show up to ruin her summer can't possibly be as evil as Mr. Gabriel. It's not like he could somehow come back to life to seek his terrible revenge or something. Best-selling author Michelle Knudsen brings back all the hilarity and horror (not to mention hot guys) in this sizzling sequel to Evil Librarian.

Think Bayes Allen B. Downey,2021-05-18 If you know how to program, you're ready to tackle Bayesian statistics. With this book, you'll learn how to solve statistical problems with Python code instead of mathematical formulas, using discrete probability distributions rather than continuous mathematics. Once you get the math out of the way, the Bayesian fundamentals will become clearer and you'll begin to apply these techniques to real-world problems. Bayesian statistical methods are becoming more common and more important, but there aren't many resources available to help beginners. Based on undergraduate classes taught by author Allen B. Downey, this book's computational approach helps you get a solid start. Use your programming skills to learn and understand Bayesian statistics Work with problems involving estimation, prediction, decision analysis, evidence, and Bayesian hypothesis testing Get started with simple examples, using coins, dice, and a bowl of cookies Learn computational methods for solving real-world problems

The use of consumer neuroscience in aroma marketing J. Berčík,J. Gálová,A. Pavelka,2023-09-14 Smell is one of the most sensitive senses and is closely connected with emotions. Everyone has experienced a moment where a scent changed their mood and brought up memories. In this book monitoring of the effect of aromas on consumer emotions is described. It starts with a general overview of the role of scents in marketing and the use of neuroscience tools in monitoring the impact of the stimuli on consumer emotions. Tools used by the authors are a consumer neuroscience tool - electroencephalography (EEG), a biometric method that monitors the galvanic skin response or skin perspiration (GSR), and a traditional data collection method - a questionnaire. With these tools, consumer response to three selected scents were monitored. One of the initial scents was selected and tested under ‘normal’ restaurant conditions. The authors describe how the information was obtained, and how the effect on consumer emotions was determined. 'The use of consumer neuroscience in aroma marketing' concludes with recommendations to improve the effectiveness of aromatisation in practice.

World Report on Ageing and Health World Health Organization,2015-10-22 The WHO World report on ageing and health is not for the book shelf it is a living breathing testament to all older people who have fought for their voice to be heard at all levels of government across disciplines and sectors. - Mr Bjarne Hastrup President International Federation on Ageing and CEO DaneAge This report outlines a framework for action to foster Healthy Ageing built around the new concept of functional ability. This will require a transformation of health systems away from disease based curative models and towards the provision of older-person-centred and integrated care. It will require the development sometimes from nothing of comprehensive systems of long term care. It will require a coordinated response from many other sectors and multiple levels of government. And it will need to draw on better ways of measuring and monitoring the health and functioning of older populations. These actions are likely to be a sound investment in society's future. A future that gives older people the freedom to live lives that previous generations might never have imagined. The World report on ageing and health responds to these challenges by recommending equally profound changes in the way health policies for ageing populations are formulated and services are provided. As the foundation for its recommendations the report looks at what the latest evidence has to say about the ageing process noting that many common perceptions and assumptions about older people are based on outdated stereotypes. The report's recommendations are anchored in the evidence comprehensive and forward-looking yet eminently practical. Throughout examples of experiences from different countries are used to illustrate how specific problems can be addressed through innovation solutions. Topics explored range from strategies to deliver comprehensive and person-centred services to older populations to policies that enable older people to live in comfort and safety to ways to correct the problems and injustices inherent in current systems for long-term care.
