*Getting Ready for a Nuclear-ready Iran* Henry D. Sokolski,Patrick Clawson,2005

**Getting Ready for Nuclear-Ready Iran** ,2005 Little more than a year ago, the Nonproliferation Policy Education Center (NPEC) completed its initial analysis of Iran's nuclear program, *Checking Iran's Nuclear Ambitions*. Since then, Tehran's nuclear activities and public diplomacy have only affirmed what this analysis first suggested: Iran is not about to give up its effort to make nuclear fuel and, thereby, come within days of acquiring a nuclear bomb. Iran's continued pursuit of uranium enrichment and plutonium recycling puts a premium on asking what a more confident nuclear-ready Iran might confront us with and what we might do now to hedge against these threats. These questions are the focus of this volume. The book is divided into four parts. The first presents the findings of the NPEC's working group on Iran. It reflects interviews with government officials and outside specialists and the work of some 20 regional security experts whom NPEC convened in Washington to discuss the commissioned research that is contained in this book. Some of this report's findings to keep Iran and others from overtly deploying nuclear weapons or leaving the Nuclear Nonproliferation Treaty (NPT) are beginning to gain official support. The U.S. Government, the International Atomic Energy Agency (IAEA), and an increasing number of allies now support the idea that states that violate the NPT be held accountable for their transgressions, even if they should withdraw from the treaty. There also has been increased internal governmental discussion about the need to clarify what should be permitted under the rubric of peaceful nuclear energy as delineated under the NPT. The remaining report recommendations, which were presented in testimony before Congress in March of 2005, remain to be acted upon.

**Tearing Down the Wall of Sound** Mick Brown,2007-06-05 A stunning biography of pure self-interest and cruelty, tempered only slightly by the great musical achievements of Mr. Spector's golden age in the early 1960s (*The New York Times*). He had a number one hit at eighteen. He was a millionaire with his own record label at twenty-two. He was, according to Tom Wolfe, "the first tycoon of teen." Phil Spector owned pop music. From the Crystals, the Ronettes (whose lead singer, Ronnie, would become his second wife), and the Righteous Brothers to the Beatles (together and singly) and finally the seventies punk icons The Ramones, Spector produced hit after hit. But then he became pop music's most famous recluse. Until one day in the spring of 2007, when his name hit the tabloids, connected to a horrible crime. In this "bruising portrait of legendary music producer Phil Spector" (*Entertainment Weekly*), the last journalist to interview him before his arrest tells the full story of the troubled genius.

**Sharpeville** Tom Lodge,2011-05-12 On 21 March 1960 several hundred black Africans were injured and 69 killed when South African police opened fire on demonstrators in the township of Sharpeville, protesting against the Apartheid regime's racist 'pass' laws. The Sharpeville Massacre, as the event has become known, signalled the start of armed resistance in South Africa, and prompted worldwide condemnation of South Africa's Apartheid policies. The events at Sharpeville deeply affected the attitudes of both black and white in South Africa and provided a major stimulus to the development of an international 'Anti-Apartheid' movement. In *Sharpeville*, Tom Lodge explains how and why the Massacre occurred, looking at the social and political background to the events of March 1960, as well as the sequence of events that prompted the shootings themselves. He then broadens his focus to explain the long-term consequences of Sharpeville, explaining how it affected South African politics over the following decades, both domestically and also in the country's relationship with the rest of the world.

**Diversity, Inclusion and Citizenship in Scandinavia** Ann-Helén Bay,Bo Bengtsson,Per Strömbblad,2010-10-12 Diversity, inclusion and citizenship are highly contested concepts. This book sheds light on how the traditionally homogeneous welfare-states of Scandinavia struggle to develop as democratic societies in the globalisation era. In Denmark, Norway and Sweden, migration from all parts of the world continues to challenge the idea of social citizenship—highly endorsed in the Scandinavian tradition. The volume brings new perspectives on immigration and integration strategies employed by the three countries, and their consequences for social and political relations. Presenting in-depth analyses, based on up-to-date empirical data, the 19 authors scrutinise a number of dilemmas related to diversity and inclusion in multicultural societies. Exploring tensions in terms of rights and obligations, participation and identity, the chapters provide new insights into the complexity of majority-minority interaction, political traditions and democratic legitimacy. Drawing on case studies as well as comparative analyses, the authors present new and original empirical findings, and they also offer important theoretical contributions to general social science discourses. Taken together the chapters provide an indispensable source, not only for those seeking to understand the current trends in Scandinavian integration policies, but also for those who are generally interested in issues of diversity, inclusion and citizenship.

**Pensees** Blaise Pascal,2003-05-29 Blaise Pascal, the precociously brilliant contemporary of Descartes, was a gifted mathematician and physicist, but it is his unfinished apologia for the Christian religion upon which his reputation now rests. The *Pensees* is a collection of philosophical fragments, notes and essays in which Pascal explores the contradictions of human nature in psychological, social, metaphysical and - above all - theological terms. Mankind emerges from Pascal's analysis as a wretched and desolate creature within an impersonal universe, but who can be transformed through faith in God's grace.

**The Space Transportation Market: Evolution or Revolution?** Michael J Rycroft,2012-12-06 M. Rycroft, FacultyMember, InternationalSpaceUniversity e-mail:Rycroft@isu.isunet.edu The Space Transportation Market: Evolution or Revolution? was the question which was the focus for the papers presented, and also the Panel Discussions, at the fifth annual Symposium organised by the International Space University. Held in Strasbourg, France, for three lively days at the end of May 2000, the Symposium brought together representatives of the developers, providers and operators of space transportation systems, of regulatory bodies, and of users of the space transportation infrastructure in many fields, as well as experts in policy and market analysis. From the papers

published here, it is clear that today's answer to the question tends more towards evolution than to revolution. The space launch industry is still not a fully mature one, and is still reliant on at least partial funding by governments. Better cooperation is essential between governments, launch providers, satellite builders and satellite operators in order to reduce the problems which the space transportation market faces today.
