Stephen Coonts

The Devil in Massachusetts Marion L. Starkey, 2018-12-05 This dramatic and deeply moving book combines a narrative that has the pace and excitement of a novel, a timeless portrait of bigotry and a self-righteousness, and an authentic history of the Salem witch trials. It stands alone in applying modern psychiatric knowledge to the witchcraft hysteria. Nearly three hundred years ago the fate of Massachusetts was delivered into the hands of a pack of young girls. Because of the fantasies and hysterical antics of unbalanced teenagers, decent men and women were sent to the gallows. Medical science that day had no better explanation than "the evil eye"; and so Massachusetts was precipitated into a reign of terror that did not end until the highest in the land had been accused of witchcraft—ministers, a judge, the Governor's lady. One by one were brought to the gallows such diverse personalities as a decent grandmother; a rakish, pipe-smoking female tramp; a plain farmer who thought only to save his wife from molestation; a lame old man whose toothless gums did not deny expression to a very salty vocabulary. But from the very beginning some fought the hysteria, pitting sanity against insanity, and eventually forced the community to atone for its tragic error. Written with sly humor, much of the book reads like a novel. In the end, one is pretty sure what was wrong with Cotton Mather, the august judges, and the tormented young girls. "The Devil in Massachusetts is a vivid and compassionate reconstruction of the Salem witchcraft hysteria. Marion Starkey has written history which illustrates the past and at the same time packs and important contemporary moral."—Arthur Schlesinger, Jr. "It is certainly a 'one sitting' sort of book, with the dramatic appeal of the well-told story and the significances of good human history."—Gerald Warner Brace "A fresh and full narration...of one of the most lurid, pitiful and deeply significant episodes in American history...."—Odell Shepard

**The Oxford Handbook of Higher Education in the Asia-Pacific Region** Devesh Kapur, Lily Kong, Florence Lo, David M. Malone, 2023-01-20 Since the turn of the millennium it has become clear that the Asia-Pacific Region is, economically, the fastest growing continent in the world, and is likely to remain so for some time despite the setbacks of the COVID-19 pandemic. Asia-Pacific's share of the world's Gross Domestic Product (GDP) doubled from 15 per cent to 30 per cent between 1970 and 2017 and is projected to account for half of global GDP by 2050. With South East and South Asia also growing rapidly, with over half the world's population and three of the world's five largest economies, Asia is soon poised to home half of the world's middle class - a class that is both the driver and the product of higher education. The quality of a country's system of higher education may be seen both as a gauge of its current level of national development as well as of its future economic prospects. It is therefore natural that the putative Asian Century should generate interest in the region's higher education systems which, on the one hand, share common characteristics—a fixation with credentials and engineering, high technology (especially among male students), and business degrees—while at the same time are also highly differentiated, not only across countries but also within. As such, a better understanding of higher education achievements, failings, potential, and structural limitations in the Asia-Pacific Region is imperative. This handbook presents a number of significant country case-studies and documents cross-cutting trends relating to, among other things: the trilemma faced by governments juggling competing claims of access, accessible cost, and quality; the balance between teaching and research; the links between labour markets (demand) and higher education (supply); preferred fields of study and their consequences; the rise of the research university in Asia; the lure of institutions of international reputation within the region; new education technologies and their effects; and, trends in government policy within the wider region and sub-regions.

**The Soviet Union and Global Environmental Change** Jonathan D. Oldfield, 2021-05-26 This book argues that the Soviet Union was a highly influential actor in furthering understandings of society-nature interaction on the international stage and played a key role in helping to shape, conceptualize and assess the relationship between humankind and the Earth system. It considers how humankind's capacity to affect physical and biological systems at a global scale was acknowledged and studied by Soviet scientists, discusses how the interaction between Soviet and Western scientists stimulated the development of new technologies and insights, which simultaneously facilitated a more profound understanding of the Earth's physical and biological systems, and explores how Soviet scientists drew upon pre-revolutionary intellectual traditions in order to make sense of society-nature interaction and did so in collaboration with a range of international initiatives. Overall, the book provides a deep analysis of how Soviet scientists conceptualized society-nature interaction and influenced the understanding of global physical and biological systems. Furthermore, it is argued that this intellectual legacy remains of importance today with respect to the activities of Russian science and contemporary global environmental challenges.

Gulf Military Forces in an Era of Asymmetric Wars [2 volumes] Khalid Al-Rodhan, Anthony H. Cordesman, 2006-12-30 The significance of the Persian Gulf to international peace and security and to the global energy market cannot be overstated. Events such as the attacks of September 11 and the rise in energy demand and prices have only highlighted the importance of stability in the Gulf to the health of the global economy. This book demonstrates that the nature of military and political threats in the Gulf states (Bahrain, Saudi Arabia, Iran, Iraq, Qatar, Yemen, and the UAE) has shifted during the past three years. Although the threat from Saddam Hussein's Iraq, which produced three recent, major conventional wars—Iran-Iraq (1980-88), Persian Gulf (1990), and Iraq (2003)—has largely disappeared, it has been replaced by concerns over the asymmetric warfare conducted by terrorist organizations and over the proliferation of WMDs by both states and terrorists. These developments are affecting the defense planning and strategic posture of each country, and this book analyzes developments in the force structures of the Gulf states and their ability to deal with this shift in the nature of the threat. The military and security forces of the Gulf states must evolve to adapt to the changing nature of the threat and take into account the risk of the Iraqi insurgency and the uncertainty surrounding Iraq's future. The key areas covered in this book include the internal terrorist threat to Saudi Arabia and the Gulf states; the impact of Iran's nuclear program and the risk it poses to energy and internal security in the Gulf area; and border disputes within the region that could develop into conflict. In addition, the book studies the impact of the Iraq War on regional security and the fear of the insurgency spilling over into neighboring states. Cordesman and Al-Rodhan demonstrate a shift toward using internal security services to deal with the threat of extremism and asymmetric warfare. They also suggest that high energy prices and export revenues provide the Gulf countries the opportunity to upgrade their military forces and deal with their undercapitalization as a result of low oil prices in the 1990s. Moreover, they insist that the future of Iraq, the strategic and nuclear

posture of Iran, and the terrorist threat will remain major risks and uncertainties in the short to medium run.

**Iran's Military Forces and Warfighting Capabilities** Anthony H. Cordesman, Martin Kleiber, 2007

**Iran's Weapons of Mass Destruction** Anthony H. Cordesman, Khalid R. Al-Rodhan, 2006

**Iranian Weapons of Mass Destruction** Adam C. Seitz, Anthony H. Cordesman, 2009-09-03 This book provides an in-depth examination of the serious security implications that Iran's nuclear program has on a region that is already plagued by insecurity and conflict. *Iranian Weapons of Mass Destruction: The Birth of a Regional Nuclear Arms Race?* is an expert insider's look at Iran's current and potential ability to wage both conventional and asymmetrical warfare, and the options available for dealing with a nuclear Iran. Are we on the brink of a regional nuclear arms race in the Middle East? In this urgent volume, Anthony Cordesman and Adam Seitz examine how Iran's nuclear ambitions have already altered security policy for the United States, Iran's neighbors, and the international community. Cordesman and Seitz address the full range of issues related to Iran's quest for nuclear weapons, including its emphasis on medium- and long-range missiles, the decline of Iran's conventional military capabilities, and continued Iranian efforts to undercut the spread of democracy in the region.

The Wisconsin Blue Book, 1913

*Cisco CallManager Best Practices* Salvatore Collora, Anne Smith, Ed Leonhardt, 2013-05-15 Delivers the proven solutions that make a difference in your Cisco IP Telephony deployment Learn dial plan best practices that help you configure features such as intercom, group speed dials, music on hold, extension mobility, and more Understand how to manage and monitor your system proactively for maximum uptime Use dial plan components to reduce your exposure to toll fraud Take advantage of call detail records for call tracing and accounting, as well as troubleshooting Utilize the many Cisco IP Telephony features to enable branch site deployments Discover the best ways to install, upgrade, patch, and back up CallManager Learn how backing up to remote media provides both configuration recovery and failure survivability IP telephony represents the future of telecommunications: a converged data and voice infrastructure boasting greater flexibility and more cost-effective scalability than traditional telephony. Having access to proven best practices, developed in the field by Cisco® IP Telephony experts, helps you ensure a solid, successful deployment. Cisco CallManager Best Practices offers best practice solutions for CallManager and related IP telephony components such as IP phones, gateways, and applications. Written in short, to-the-point sections, this book lets you explore the tips, tricks, and lessons learned that will help you plan, install, configure, back up, restore, upgrade, patch, and secure Cisco CallManager, the core call processing component in a Cisco IP Telephony deployment. You'll also discover the best ways to use services and parameters, directory integration, call detail records, management and monitoring applications, and more. Customers inspired this book by asking the same questions time after time: How do I configure intercom? What's the best way to use partitions and calling search spaces? How do I deploy CallManager regionally on my WAN? What do all those services really do? How do I know how many calls are active? How do I integrate CallManager with Active Directory? Years of expert experiences condensed for you in this book enable you to run a top-notch system while enhancing the performance and functionality of your IP telephony deployment.

*Cisco CallManager Best Practices* Sal Collora, Ed Leonhardt, Anne Smith, 2004 IP telephony represents the future of telecommunications: a converged data and voice infrastructure boasting greater flexibility and more cost-effective scalability than traditional telephony. **Directories in Print**, 2004

**Google and the Digital Divide** Elad Segev, 2010-01-21 Beneficial to scholars and students in the fields of media and communication, politics and technology, this book outlines the significant role of search engines in general and Google in particular in widening the digital divide between individuals, organisations and states. It uses innovative methods and research approaches to assess and illustrate the digital divide by comparing the popular search queries in Google and Yahoo in different countries as well as analysing the various biases in Google News and Google Earth. The different studies developed and presented in this book provide various indications of the increasing customisation and popularisation mechanisms employed by popular search engines, which together with "organising the world's information inevitably also intensify information inequalities and reinforce commercial and US-centric priorities and agendas. Develops an extensive historical investigation of information, power and the digital divide Provides new social and political perspectives to understand search engines in general and Google in particular Suggests original methods to study and assess the digital divide as well as the extent of commercialisation and Americanisation worldwide

*Saucer: The Conquest* Stephen Coonts, 2013-03-28 After discovering the secrets of a 140,000-year-old spacecraft and delivering it to safety in the smash hit *Saucer*, Rip and Charley think their days of high-flying extra-terrestrial adventure are over. But bored with Rip's aimless wanderings, Charley accepts a job flying space planes to the moon for the French lunar base project, where she discovers a world-threatening anti-gravity beam that could only have been constructed using saucer technology. She steals a space plane and flies back to earth to sound the warning. Meanwhile, the French kidnap Rip's uncle Egg and force him to fly a saucer hidden in Area 51 to the moon. Rip and Charley must steal the first saucer from its new home at the museum and hit the not-so-friendly skies again in order to rescue Uncle Egg and save the world from a twisted modern-day Napoleon bent on conquest.

*Presunção de inocência e antecipação da prisão* Guilherme Gomes Vieira, 2023-01-23 O debate entre eficiência do sistema criminal de justiça e a tutela de direitos fundamentais é assunto constante na pauta do Poder Judiciário. Nesse contexto, o livro propõe a investigação das oscilações jurisprudenciais do Supremo Tribunal Federal acerca da possibilidade da execução da pena antes do trânsito em julgado, considerando-se a presunção de inocência. São tecidas reflexões teóricas sobre a imposição da sanção criminal no curso da respectiva ação penal. Ademais, por meio de ferramentas disponíveis nos sítios eletrônicos do Superior Tribunal de Justiça e

do Supremo Tribunal Federal, são investigadas decisões judiciais acerca da temática. No terceiro capítulo, evidenciam-se o referencial teórico e os elementos metodológicos, com enfoque nas Teorias da Argumentação Jurídica. Complementarmente, realiza-se a análise dos acórdãos selecionados, de modo a evidenciar a construção dos argumentos. Além disso, utilizando-se a prévia categorização efetuada, procede-se à classificação dos argumentos e à realização de comparações entre eles. Por fim, procede-se à avaliação dos argumentos apresentados nos acórdãos paradigmas com base nos critérios previamente estabelecidos. A pesquisa apresenta contribuições para o Estado da Arte referente à execução da pena e para a forma de deliberação e argumentação em órgãos jurisdicionais colegiados.

**Pacote Anticrime - Reformas Penais** Rodrigo Oliveira de Camargo, 2023-01-01 O excelente conjunto de artigos coloca as lentes que essa legislação de exceção impõe ao direito penal: a ideia de legítima defesa dos policiais na legitimação das execuções que configuram o genocídio negro no Brasil, o aumento de limites das penas, os efeitos no livramento condicional e no confisco de bens, as alterações na prescrição, as mudanças no roubo, estelionato e concussão, o aprofundamento do malfadado RDD e da ideia de crimes hediondos, os efeitos no desarmamento, na política penitenciária e na segurança pública e as marcas do estatuto da delação que ocupou coração e mentes nos últimos tempos. Enfim, esse conjunto de destacados autores propõe uma visão crítica que os afasta da mera posição de operadores do sistema, propiciando uma análise densa desse endurecimento penal que vem ferindo a ordem constitucional brasileira nos últimos anos (...). [Vera Malaguti Batista]

**Direito Constitucional** Janaina Helena de Freitas, 2023-01-31 É com grande alegria e satisfação que hoje apresentamos a obra Direito Constitucional: panoramas plurais, uma coletânea formada por interessantes e relevantes artigos na área de Direito Constitucional, que não é representado apenas pelo viés teórico. Ele se diferencia das obras convencionais por fazer um link entre teoria e prática, o que fornecerá aos seus leitores um belo panorama sobre aquilo que existe de mais relevante e atual no campo.

**Audiências de custódia: aspectos constitucionais, penais, econômicos e iminentes** Marcelo de Siqueira Zerbini, 2017-10-02 Este livro é fruto da dissertação de mestrado acadêmico a qual investigou a implementação das Audiências de Custódia no Brasil sob os aspectos constitucionais, penais, econômicos, e iminentes. O estudo dedicou um capítulo para cada um destes quatro enfoques, sendo que os dois primeiros sintetizam os aspectos constitucionais e penais, e servem para embasar as discussões dos capítulos seguintes. No capítulo terceiro, o tema das Audiências de Custódia foi tratado sob a lógica do Law & Economics, e, no capítulo quatro, se discutiu questões iminentes sobre as Audiências: a forma de contagem de prazo; o uso de videoconferência para a realização das Audiências; e a possibilidade de atribuir aos Delegados de Polícia a capacidade de eles decretarem, precariamente, em caso de flagrante, medidas cautelares diversas da prisão.

**Serviços Jurídicos** FABIO RODRIGUES DE JESUS, Voltada àqueles que desejam atuar em departamentos jurídicos, assessorias jurídicas ou escritórios de advocacia e ainda aos que pretendem prestar concursos públicos, esta obra, escrita por profissionais que atuam na área e lecionam sobre o assunto, apresenta uma reflexão racional sobre o papel do Direito em nossa sociedade e os pressupostos para acionamento e atuação do Sistema de Justiça. Apresenta os fundamentos e princípios do Direito Constitucional e trata ainda de outros ramos, como Direito Administrativo, Direito Tributário, Direito Civil, Direito Empresarial, Direito Penal e Direito Trabalhista.

**Direito Penal Ambiental** Douglas Teodoro Fontes, 2021-02-08 O meio ambiente ecologicamente equilibrado, descrito e normatizado na Constituição Federal de 1988, ainda hoje, anos após a edição e entrada em vigor da Lei, ainda não recebeu as medidas protetivas e regulamentação protetiva, que são passíveis de discussões, adequações, modernizações e principalmente de serem aplicada com maior rigor. O termo ambiente em sentido mais amplo representa para a humanidade muito mais do que simplesmente está descrito na lei pátria ou em quaisquer conceitos técnicos e doutrinários. É crescente a agressão ao meio ambiente, extinção de espécies animais e vegetais, bem como a escassez de recursos minerais e naturais, a diminuição de água potável, ausência de solos férteis (com o efeito de desertificação) e ar na sua essência natural, contaminados de poluentes. No tocante ao tema, foram analisados conceitos tecnicamente aplicados à matéria, bem como às ciências jurídicas ambientais, seus princípios e etimologia dos termos. Foram conceituados meio ambiente, sustentabilidade, danos, crimes, penas em suas diversas aplicações e gravidade. Na busca de melhor compreender este fenômeno, procedeu-se à revisão bibliográfica pela leitura de artigos e legislações pertinentes à questão, tais como doutrinas, Constituição Federal de 1988, Decretos etc. Este estudo mostrou que, apesar do avanço propiciado pela Lei 9605/1998, esta ainda não é aplicada em sua totalidade, à medida que muitas empresas ainda preferem pagar a multa a elas imposta a ocupar-se com a reparação do dano causado ao meio ambiente. Hoje ainda mais, sendo o BRASIL pressionado internacionalmente para delinear sua postura frente a proteção do meio ambiente, um estudo dos cientistas do Direito se torna necessário, apesar do tema ser atemporal.

**Percepções sobre as ciências criminais** Rafhael Lima Ribeiro, Jamilla Monteiro Sarkis, Fernanda Pascoal Valle Bueno de Castilho, 2022-08-23 Trata-se de trabalhos, aqui concebidos como percepções sobre as ciências criminais, decorrentes da tarefa de conclusão de curso, em sua interface com a coautoria da orientação, dos participantes do Laboratório de Ciências Criminais e do Grupo de Estudos Avançados, ambos no âmbito do Instituto Brasileiro de Ciências Criminais do Estado de Minas Gerais.

## Printfriendly7960.htm Introduction

Printfriendly7960.htm Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Printfriendly7960.htm Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Printfriendly7960.htm : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Printfriendly7960.htm : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Printfriendly7960.htm Offers a diverse range of free eBooks across various genres. Printfriendly7960.htm Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Printfriendly7960.htm Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Printfriendly7960.htm, especially related to Printfriendly7960.htm, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Printfriendly7960.htm, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Printfriendly7960.htm books or magazines might include. Look for these in online stores or libraries. Remember that while Printfriendly7960.htm, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Printfriendly7960.htm eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Printfriendly7960.htm full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Printfriendly7960.htm eBooks, including some popular titles.

## FAQs About Printfriendly7960.htm Books

**What is a Printfriendly7960.htm PDF?** A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Printfriendly7960.htm PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and

operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Printfriendly7960.htm PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Printfriendly7960.htm PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Printfriendly7960.htm PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
