📖 [Using R for Introductory Statistics](#) John Verzani, 2018-10-03 The second edition of a bestselling textbook, *Using R for Introductory Statistics* guides students through the basics of R, helping them overcome the sometimes steep learning curve. The author does this by breaking the material down into small, task-oriented steps. The second edition maintains the features that made the first edition so popular, while updating data, examples, and changes to R in line with the current version. See [What's New in the Second Edition](#): Increased emphasis on more idiomatic R provides a grounding in the functionality of base R. Discussions of the use of RStudio helps new R users avoid as many pitfalls as possible. Use of knitr package makes code easier to read and therefore easier to reason about. Additional information on computer-intensive approaches motivates the traditional approach. Updated examples and data make the information current and topical. The book has an accompanying package, *UsingR*, available from CRAN, R's repository of user-contributed packages. The package contains the data sets mentioned in the text (`data(package=UsingR)`), answers to selected problems (`answers()`), a few demonstrations (`demo()`), the errata (`errata()`), and sample code from the text. The topics of this text line up closely with traditional teaching progression; however, the book also highlights computer-intensive approaches to motivate the more traditional approach. The authors emphasize realistic data and examples and rely on visualization techniques to gather insight. They introduce statistics and R seamlessly, giving students the tools they need to use R and the information they need to navigate the sometimes complex world of statistical computing.

📖 [Limbo](#) Alfred Lubrano, 2010-12-22 In *Limbo*, award-winning journalist Alfred Lubrano identifies and describes an overlooked cultural phenomenon: the internal conflict within individuals raised in blue-collar homes, now living white-collar lives. These people often find that the values of the working class are not sufficient guidance to navigate the white-collar world, where unspoken rules reflect primarily upper-class values. Torn between the world they were raised in and the life they aspire too, they hover between worlds, not quite accepted in either. Himself the son of a Brooklyn bricklayer, Lubrano informs his account with personal experience and interviews with other professionals living in limbo. For millions of Americans, these stories will serve as familiar reminders of the struggles of achieving the American Dream.

📖 [Art After Conceptual Art](#) Alexander Alberro, Sabeth Buchmann, 2006-10-27 Well-known art historians from Europe and the Americas discuss the influence of conceptualism on art since the 1970s. *Art After Conceptual Art* tracks the various legacies of conceptualist practice over the past three decades. This collection of essays by art historians from Europe and the Americas introduces and develops the idea that conceptual art generated several different, and even contradictory, forms of art practice. Some of these contested commonplace assumptions of what art is; others served to buttress those assumptions. The bulk of the volume features newly written and highly innovative essays challenging standard interpretations of the legacy of conceptualism and discussing the influence of conceptualism's varied practices on art since the 1970s. The essays explore topics as diverse as the interrelationships between conceptualism and institutional critique, neoexpressionist painting and conceptualist paradigms, conceptual art's often-ignored complicity with design and commodity culture, the specific forms of identity politics taken up by the reception of conceptual art, and conceptualism's North/South and East/West dynamics. A few texts that continue to be crucial for critical debates within the fields of conceptual and postconceptual art practice, history, and theory have been reprinted in order to convey the vibrant and ongoing discussion on the status of art after conceptual art. Taken together, the essays will inspire an exploration of the relationship between postconceptualist practices and the beginnings of contemporary art. Distributed for the Generali Foundation, Vienna.

📖 [Guido Culture and Italian American Youth](#) Donald Tricarico, 2018-12-24 From Saturday Night Fever to Jersey Shore, Italian American youth in New York City have appropriated—and been appropriated by—popular American culture. Here, Donald Tricarico investigates how Italian ethnicity has been used to fashion Guido as a distinct youth style that signals inclusion in popular American culture and, simultaneously, the making of a new ethnic subject. Emerging from a wave of Italian immigration after World War II in outer borough neighborhoods such as Bensonhurst, the story of the Guido is an Italian American story, symbolizing the negotiation of a negatively privileged ethnicity within American society. Tricarico takes up questions about the definition of Guido, the role of disco, and the identity politics of Jersey Shore in order to reconsider the significance of Guido for the study of Italian American ethnicity.

📖 [Encyclopedia of Junk Food and Fast Food](#) Andrew F. Smith, 2006-08-30 Eating junk food and fast food is a great all-American passion. American kids and grownups love their candy bars, Big Macs and supersized fries, Doritos, Twinkies, and Good Humor ice cream bars. The disastrous health effects from the enormous appetite for these processed fat- and sugar-loaded foods are well publicized now. This was particularly dramatically evidenced by Super Size Me (2004), filmmaker Morgan Spurlock's 30-day all-McDonald's diet in which his liver suffered the same poisoning as if he had been on an extended alcohol binge. Through increased globalization, American popular food culture is being increasingly emulated elsewhere in the world, such as China, with the potential for similar disastrous consequences. This A-to-Z reference is the first to focus on the junk food and fast food phenomena from a multitude of angles in addition to health and diet concerns. More than 250 essay entries objectively explore the scope of the topics to illuminate the American way through products, corporations and entrepreneurs, social history, popular culture, organizations, issues, politics, commercialism and consumerism, and much more. Interest in these topics is high. This informative and fascinating work, with entries on current controversies such as mad cow disease and factory farming, the food pyramid, movie tie-ins, and marketing to children, will be highly useful for reports, research, and browsing. It takes readers behind the scenes, examining the significance of such things as uniforms, training, packaging, and franchising. Readers of every age will also enjoy the nostalgia factor, learning about the background of iconic drive-ins, the story behind the mascots, facts about their favorite candy bar, and collectables. Each entry ends with suggested reading. Besides an introduction, a timeline, glossary, bibliography, resource guide, and photos enhance the text. Sample entries: A&W Root Beer; Advertising; Automobiles; Ben & Jerry's; Burger King; Carhops; Center for Science in the Public Interest; Christmas; Cola Wars; Employment; Fair Food; Fast Food Nation; Hershey, Milton; Hollywood; Injury; Krispy Kreme; Lobbying; Nabisco; Obesity; PepsiCo; Salt; Soda Fountain; Teen Hangouts; Vegetarianism; White Castle; Yum! 📖 **STRUCTURAL COMPETENCY IN MENTAL HEALTH AND MEDICINE** HELENA HANSEN, JONATHAN M. METZL, 2019-03-28 This book documents the ways that clinical practitioners and trainees have used the “structural competency” framework to reduce inequalities in health. The essays describe on-the-ground ways that clinicians, educators, and activists craft structural interventions to enhance health outcomes, student learning, and community organizing around issues of social justice in health and healthcare. Each chapter of the book begins with a case study that illuminates a competency in reorienting clinical and public health practice toward community, institutional and policy level intervention based on alliances with social agencies, community organizations and policy makers. Written by authors who are trained in both clinical and social sciences, the chapters cover pedagogy in classrooms and clinics, community collaboration, innovative health promotion approaches in non-health sectors and in public policies, offering a view of effective care as structural intervention and a road map toward its implementation. Structural Competency in Mental Health and Medicine is a cutting-edge resource for psychiatrists, primary care physicians, addiction medicine specialists, emergency medicine specialists, nurses, social workers, public health practitioners, and other clinicians working toward equality in health.

📖 **HAND TO MOUTH** LINDA TIRADO, 2015-09-01 The real-life Nickel and Dimed—the author of the wildly popular “Poverty Thoughts” essay tells what it’s like to be working poor in America. One of the five most important books of the year—Esquire “devastatingly smart and funny. I am the author of Nickel and Dimed, which tells the story of my own brief attempt, as a semi-undercover journalist, to survive on low-wage retail and service jobs. Tirado is the real thing.”—Barbara Ehrenreich, from the foreword As the haves and have-nots grow more separate and unequal in America, the working poor don’t get heard from much. Now they have a voice—and it’s forthright, funny, and just a little bit furious. Here, Linda Tirado tells what it’s like, day after day, to work, eat, shop, raise kids, and keep a roof over your head without enough money. She also answers questions often asked about those who live on or near minimum wage: Why don’t they get better jobs? Why don’t they make better choices? Why do they smoke cigarettes and have ugly lawns? Why don’t they borrow from their parents? Enlightening and entertaining, Hand to Mouth opens up a new and much-needed dialogue between the people who just don’t have it and the people who just don’t get it.

📖 **A HISTORY OF INTELLECTUAL PROPERTY IN 50 OBJECTS** CLAUDY OP DEN KAMP, DAN HUNTER, 2019-06-20 What do the Mona Lisa, the light bulb, and a Lego brick have in common? The answer - intellectual property (IP) - may be surprising, because IP laws are all about us, but go mostly unrecognized. They are complicated and arcane, and few people understand why they should care about copyright, patents, and trademarks. In this lustrous collection, Claudy Op den Kamp and Dan Hunter have brought together a group of contributors - drawn from around the globe in fields including law, history, sociology, science and technology, media, and even horticulture - to tell a history of IP in 50 objects. These objects not only demonstrate the significance of the IP system, but also show how IP has developed and how it has influenced history. Each object is at the core of a story that will be appreciated by anyone interested in how great innovations offer a unique window into our past, present, and future.

📖 **YOUR EVIL TWIN** B. SULLIVAN, 2004-08-25 The crime of the twenty-first century doesn’t discriminate: ID theft has hit ordinary citizens and celebrities alike, from Oprah Winfrey to Steven Spielberg, and costs the economy \$50 billion a year. Your Evil Twin covers this exploding crime from every possible angle. It includes exclusive whodunit details from Mastermind identity thieves who have pilfered money from half the members of the Forbes 400, as well as exclusive interviews with a myriad of criminals in the Internet’s underground, such as Russian hackers who have extorted money from U.S. banks. The book also issues a scathing indictment of the credit granting industry, from credit card issuers to the secretive credit reporting agencies, who have misunderstood the crime from the start, have been slow to respond, and bear much of the responsibility for the epidemic. Finally, Bob Sullivan, author and identity theft expert, probes the tepid solutions now being cobbled together by the industry and government. Bob Sullivan (Snohomish, WA), senior technology writer for MSNBC.com, is the nation’s leading journalist covering identity fraud. He has written more than 100 articles on the subject since 1996, and is a regular contributor to MSNBC, CNBC, NBC Nightly News, the Today Show, and various local NBC affiliates. With colleague Mike Brunker, Sullivan received the prestigious 2002 Society of Professional Journalists Public Service Award for ongoing coverage of Internet fraud.
