The book includes collage, Ecuadorian decimas, a sonnet series in the voices of Incan royalty at the moment of colonization, and a long poem interspersed with photos and the author's mother's bilingual idioms. *Guidelines on Hepatitis B and C Testing* World Health Organization, 2017 Testing and diagnosis of hepatitis B (HBV) and C (HCV) infection is the gateway for access to both prevention and treatment services, and is a crucial component of an effective response to the hepatitis epidemic. Early identification of persons with chronic HBV or HCV infection enables them to receive the necessary care and treatment to prevent or delay progression of liver disease. Testing also provides an opportunity to link people to interventions to reduce transmission, through counselling on risk behaviors and provision of prevention commodities (such as sterile needles and syringes) and hepatitis B vaccination. These are the first WHO guidelines on testing for chronic HBV and HCV infection and complement published guidance by WHO on the prevention, care and treatment of chronic hepatitis C and hepatitis B infection. These guidelines outline the public health approach to strengthening and expanding current testing practices for HBV and HCV, and are intended for use across age groups and populations.

**Curating Contemporary Music Festivals** Brandon Farnsworth, 2020-07-31 Contemporary music, like other arts, is dealing with the rise of »curators« laying claim to everything from festivals to playlists - but what are they and what do they do anyway? Drawing from backgrounds ranging from curatorial studies to festival studies and musicology, Brandon Farnsworth lays out a theory for understanding curatorial practices in contemporary music, and how they could be a solution to the field's diminishing social relevance. The volume focuses on two case studies, the Munich Biennale for New Music Theatre, and the Maerzmusik Festival at the Berliner Festspiele, putting them in a transdisciplinary history of curatorial practice, and showing what music curatorial practice can be.

**The Psychosocial Reality of Digital Travel** Ingvar Tjostheim, John A. Waterworth, 2021-12-06 This open access book takes a fresh look at the nature of the digital travel experience, at a time when more and more people are engaged in online social interaction, games, and other virtual experiences essentially involving online visits to other places. It examines whether these experiences can seem real to the virtual traveller and, if so, under

what conditions and on what grounds. The book unpacks philosophical theories relevant to the feeling of being somewhere, emphasising the importance of perception and being-in-the-world. Notions of place are outlined, based on work in tourism studies, human geography, and other applied social fields, with an aim to investigate how and when different experiences of place arise for the traveller and how these relate to telepresence - the sense of being there in another place through digital media. Findings from recent empirical studies of digital travel are presented, including a survey from which the characteristics of "digital travellers" are identified. A review of selected interactive design trends and possibilities leads to the conclusion, which draws these strands together and looks to the future of this topical and expanding field.

Leper Knights David Marcombe, 2003 One of the most unusual contributions to the crusading era was the idea of the leper knight - a response to the scourge of leprosy and the shortage of fighting men which beset the Latin kingdom in the twelfth century. The Order of St Lazarus, which saw the idea become a reality, founded establishments across Western Europe to provide essential support for its hospitaller and military vocations. This book explores the important contribution of the English branch of the order, which by 1300 managed a considerable estate from its chief preceptory at Burton Lazars in Leicestershire. Time proved the English Lazarites to be both tough and tenacious, if not always preoccupied with the care of lepers. Following the fall of Acre in 1291 they endured a period of bitter internal conflict, only to emerge reformed and reinvigorated in the fifteenth century. Though these late medieval knights were very different from their twelfth-century predecessors, some ideologies lingered on, though subtly readapted to the requirements of a new age, until the order was finally suppressed by Henry VIII in 1544. The modern refoundation of the order, a charitable institution, dates from 1962. The book uses both documentary and archaeological

evidence to provide the first ever account of this little-understood crusading order.DAVID MARCOMBE is Director of the Centre for Local History, University of Nottingham.
