Reducing Poverty, Protecting Livelihoods, and Building Assets in a Changing Climate Dorte Verner, 2010-06-25 Climate change is the defining development challenge of our time. More than a global environmental issue, climate change and variability threaten to reverse recent progress in poverty reduction and economic growth. Both now and over the long run, climate change and variability threatens human and social development by restricting the fulfillment of human potential and by disempowering people and communities in reducing their livelihoods options. Communities across Latin America and the Caribbean are already experiencing adverse consequences from climate change and variability. Precipitation has increased in the southeastern part of South America, and now often comes in the form of sudden deluges, leading to flooding and soil erosion that endanger people's lives and livelihoods. Southwestern parts of South America and western Central America are seeing a decrease in precipitation and an increase in droughts. Increasing heat and drought in Northeast Brazil threaten the livelihoods of already-marginal smallholders, and may turn parts of the eastern Amazon rainforest into savannah. The Andean inter-tropical glaciers are shrinking and expected to disappear altogether within the next 20-40 years, with significant consequences for water availability. These environmental changes will impact local livelihoods in unprecedented ways. Poverty, inequality, water access, health, and migration are and will be measurably affected by climate change. Using an innovative research methodology, this study finds quantitative evidence of large variations in impacts across regions. Many already poor regions are becoming poorer; traditional livelihoods are being challenged in unprecedented ways; water scarcity is increasing, particularly in poor arid areas; human health is deteriorating; and climate-induced migration is already taking place and may increase. Successfully reducing social vulnerability to climate change and variability requires

action and commitment at multiple levels. This volume offers key operational recommendations at the government, community, and household levels with particular emphasis placed on enhancing good governance and technical capacity in the public sector, building social capital in local communities, and protecting the asset base of poor households.

Malware Analyst's Cookbook and DVD Michael Ligh, Steven Adair, Blake Hartstein, Matthew Richard, 2010-09-29 A computer forensics how-to for fighting malicious code and analyzing incidents With our ever-increasing reliance on computers comes an ever-growing risk of malware. Security professionals will find plenty of solutions in this book to the problems posed by viruses, Trojan horses, worms, spyware, rootkits, adware, and other invasive software. Written by well-known malware experts, this guide reveals solutions to numerous problems and includes a DVD of custom programs and tools that illustrate the concepts, enhancing your skills. Security professionals face a constant battle against malicious software; this practical manual will improve your analytical capabilities and provide dozens of valuable and innovative solutions Covers classifying malware, packing and unpacking, dynamic malware analysis, decoding and decrypting, rootkit detection, memory forensics, open source malware research, and much more Includes generous amounts of source code in C, Python, and Perl to extend your favorite tools or build new ones, and custom programs on the DVD to demonstrate the solutions Malware Analyst's Cookbook is indispensable to IT security administrators, incident responders, forensic analysts, and malware researchers.

Software Quality - ECSQ 2002 Jyrki Kontio,Reidar

Conradi,2003-08-01 Software professionals and companies live in a new world today. Increasingly complex systems need to be built faster and cheaper. While many of the established approaches in software quality are still valid, the software quality community is going through a paradigm shift that requires a re-assessment of our current method and tool portfolio, as well as creating new and more effective solutions. We have selected two themes for this conference to highlight this paradigm shift. Our first theme, "production of attractive and reliable software at Internet speed" sums up the dilemma many software organisations face. In order to be competitive, software should contain advanced features and run reliably - yet it should be developed quickly and cost effectively for the right market window. Finding the right balance between these objectives is a critical question that will determine business success in the years to come. Our second theme, "production of software with a dynamic partnership network" highlights the current trend of using partnerships and subcontractors as integral players in the software development process. Partnerships sometimes need to be created quickly to respond to a market opportunity, yet the costs and speed of cooperation must be competitive. Different companies have different processes, quality tools and cultures, yet they should cooperate seamlessly for the best result.

Critical Care of Children with Heart Disease Ricardo

Munoz,Victor Morell,Eduardo da Cruz,Carol Vetterly,2010-06-21

Critical Care of Children with Heart Disease will summarize the comprehensive medical and surgical management of the acutely-ill patient with congenital and acquired cardiac disease. The aim of the book is to teach bedside physicians, nurses and other caregivers, basic and practical concepts of anatomy, pathophysiology, surgical techniques and peri-operative

management of critically ill children and adults with congenital heart disease, allowing these professionals to anticipate, prevent or else treat such pathologies. The book will cover specific cardiac lesions, review their anatomy, pathophysiology, current preoperative, intraoperative and postoperative assessment and management; medical and surgical complications will be briefly described with each lesion further discussed in specific chapters. In addition, the book will have dedicated chapters to management of cardiac patients on extracorporeal membrane oxygenation, hemofiltration, hemo or peritoneal dialysis and plasma exchange. Practical guidelines for cardiovascular nursing care will be also included.

A User's Guide to the Meade LXD55 and LXD75

Telescopes Martin Peston, 2010-04-28 This book offers a comprehensive introductory guide to choosing and using a series LXD55 or LXD75 computer-controlled (goto) telescope, containing a wealth of useful information for both beginners and more advanced practical amateur astronomers. The manufacturer's manuals are not nearly detailed enough to be of real help to beginners. No other book offers advanced techniques for more experienced LXD series users.

Particles and Nanoparticles in Pharmaceutical Products

Henk G. Merkus, Gabriel M. H. Meesters, Wim Oostra, 2018-09-06 This edited volume brings together the expertise of numerous specialists on the topic of particles – their physical, chemical, pharmacological and toxicological characteristics – when they are a component of pharmaceutical products and formulations. The book discusses in detail properties such as the composition, size, shape, surface properties and porosity of particles with respect to how they impact the formulations and products in which they are used and the effective delivery of pharmaceutical active ingredients. It considers all dosage forms of pharmaceuticals involving particles, from powders to tablets, creams to ointments, and solutions to dry-powder inhalers, also including the latest

nanomedicine products. Further, it discusses examples of particle toxicity, as well as the important subject of pharmaceutical industry regulations, guidelines and legislation. The book is of interest to researchers and practitioners who work on testing and developing pharmaceutical dosage and delivery systems.

Critical Point of View Geert Lovink, Nathaniel Tkacz, 2011 For millions of internet users around the globe, the search for new knowledge begins with Wikipedia. The encyclopedia's rapid rise, novel organization, and freely offered content have been marveled at and denounced by a host of commentators. This book moves beyond unflagging praise, well-worn facts, and questions about its reliability and accuracy, to unveil the complex, messy, and controversial realities of a distributed knowledge platform. The essays, interviews and artworks brought together in this reader form part of the overarching 'Critical Point of View' research initiative, which began with a conference in Bangalore (January 2010), followed by events in Amsterdam (March 2010) and Leipzig (September 2010). With an emphasis on theoretical reflection, cultural difference and indeed, critique, contributions to this collection ask: What values are embedded in Wikipedia's software? On what basis are Wikipedia's claims to neutrality made?

Internet of Things and Big Data Analytics Toward Next-

Generation Intelligence Nilanjan Dey,Aboul Ella

Hassanien,Chintan Bhatt,Amira S. Ashour,Suresh Chandra

Satapathy,2017-08-14 This book highlights state-of-the-art

research on big data and the Internet of Things (IoT), along with

related areas to ensure efficient and Internet-compatible IoT

systems. It not only discusses big data security and privacy

challenges, but also energy-efficient approaches to improving

virtual machine placement in cloud computing environments. Big

data and the Internet of Things (IoT) are ultimately two sides of

the same coin, yet extracting, analyzing and managing IoT data

poses a serious challenge. Accordingly, proper analytics

infrastructures/platforms should be used to analyze IoT data.

Information technology (IT) allows people to upload, retrieve, store

and collect information, which ultimately forms big data. The use

of big data analytics has grown tremendously in just the past few

years. At the same time, the IoT has entered the public

consciousness, sparking people's imaginations as to what a fully

connected world can offer. Further, the book discusses the

analysis of real-time big data to derive actionable intelligence in

enterprise applications in several domains, such as in industry and

agriculture. It explores possible automated solutions in daily life,

including structures for smart cities and automated home systems

based on IoT technology, as well as health care systems that

manage large amounts of data (big data) to improve clinical

decisions. The book addresses the security and privacy of the IoT

and big data technologies, while also revealing the impact of IoT

technologies on several scenarios in smart cities design. Intended

as a comprehensive introduction, it offers in-depth analysis and

provides scientists, engineers and professionals the latest

techniques, frameworks and strategies used in IoT and big data

technologies.

Information Security and Assurance Samir Kumar

Bandyopadhyay, Wael Adi, Tai-hoon Kim, Yang Xiao, 2010-06-09 Advanced Science and Technology, Advanced Communication and Networking, Information Security and Assurance, Ubiquitous Computing and Multimedia Applications are conferences that attract many academic and industry professionals. The goal of these co-located conferences is to bring together researchers from academia and industry as well as practitioners to share ideas, problems and solutions relating to the multifaceted aspects of advanced science and technology, advanced communication and networking, information security and assurance, ubiquitous computing and multimedia applications. This co-located event included the following conferences: AST 2010 (The second International Conference on Advanced Science and Technology), ACN 2010 (The second International Conference on Advanced Communication and Networking), ISA 2010 (The 4th International Conference on Information Security and Assurance) and UCMA 2010 (The 2010 International Conference on Ubiquitous Computing and Multimedia Applications). We would like to express our gratitude to all of the authors of submitted papers and to all attendees, for their contributions and participation. We believe in the need for continuing this undertaking in the future. We acknowledge the great effort of all the Chairs and the members of advisory boards and Program Committees of the above-listed events, who selected 15% of over 1,000 submissions, following a rigorous peer-review process. Special thanks go to SERSC (Science & Engineering Research Support Society) for supporting these co-located conferences.

Deviance and Risk on Holiday D. Briggs, 2013-07-18 This book represents the first attempt to step inside the holiday experience of young British tourists in San Antonio, Ibiza. Briggs' ethnographic study reveals the ugly truth about how and why they get involved in deviance and risk-taking when they go abroad, driven by self validation and a commodified social context.

Quests of the Dragon and Bird Clan Paul Kekai

Manansala,2006-10-01 Quests of the Dragon and Bird Clan

examines how the seafaring trading people known as the Nusantara from Insular Southeast Asia influenced world history. This is a blook, a book based on a weblog (blog). The decision to publish the book came after requests to make the information in the blog available in an easier-to-read and more portable format. The advantage of the printed work is that the blog entries are arranged in easy-to-manage chronological order with out the need for the clicking through the blog archives. The glossary entries are also in alphabetical order for easy look-up, and a word index and table of contents further increase the readability of the blog/book. Important supplementary articles have also been included in the appendices. A must-read for those who think there is more to history than what we find in mainstream publications.

The Black Man's President Michael Burlingame, 2021-11-02
Frederick Douglass called the martyred president emphatically the black man's president" as well as "the first who rose above the prejudice of his times and country." This narrative history of Lincoln's personal interchange with Black people over the course his career reveals a side of the sixteenth president that, until now, has not been fully explored or understood. In a little-noted eulogy delivered shortly after Lincoln's assassination, Frederick Douglass called the martyred president emphatically the black man's president, the first to show any respect for their rights as men." To justify that description, Douglass pointed not just to Lincoln's official acts and utterances, like the Emancipation Proclamation or the Second Inaugural Address, but also to the president's own personal experiences with Black people. Referring to one of his White House visits, Douglass said: In daring to invite a Negro to an audience at the White House, Mr. Lincoln was saying to the country: I am President of the black people as well as the white, and I mean to respect their rights and feelings as men and as citizens." But Lincoln's description as "emphatically the black man's president" rests on more than his relationship with Douglass or on his official words and deeds. Lincoln interacted with

many other African Americans during his presidency His unfailing cordiality to them, his willingness to meet with them in the White House, to honor their requests, to invite them to consult on public policy, to treat them with respect whether they were kitchen servants or leaders of the Black community, to invite them to attend receptions, to sing and pray with them in their neighborhoods—all those manifestations of an egalitarian spirit fully justified the tributes paid to him by Frederick Douglass and other African Americans like Sojourner Truth, who said: I never was treated by any one with more kindness and cordiality than were shown to me by that great and good man, Abraham Lincoln.” Historian David S. Reynolds observed recently that only by examining Lincoln’s “personal interchange with Black people do we see the complete falsity of the charges of innate racism that some have leveled against him over the years.”
