Strategic Latency Unleashed Zachary Davis, Frank Gac, Philip Reiner, Christopher Rager, Jennifer Snow, 2021-01-30 The world is being transformed physically and politically. Technology is the handmaiden of much of this change. But since the current sweep of global change is transforming the face of warfare, Special Operations Forces (SOF) must adapt to these circumstances. Fortunately, adaptation is in the SOF DNA. This book examines the changes affecting SOF and offers possible solutions to the complexities that are challenging many long-held assumptions. The chapters explore what has changed, what stays the same, and what it all means for U.S. SOF. The authors are a mix of leading experts in technology, business, policy, intelligence, and geopolitics, partnered with experienced special operators who either cowrote the chapters or reviewed them to ensure accuracy and relevance for SOF. Our goal is to provide insights into the changes around us and generate ideas about how SOF can adapt and succeed in the emerging operational environment.

Multinational Management Rien Segers, 2016-01-29 This casebook demonstrates that the future of global business lies in how well the multinational landscape is charted and how the importance of Asian market leaders is deeply embedded in it. It offers international management students and researchers an extensive guide to the business history, strategy development, and foreign market entry modes used by emerging Asian multinationals. The cases focus on well-known companies such as Lenovo, Alibaba, Infosys, Huawei, Panasonic, and Rakuten. These companies, all of which generate huge revenues in their own countries (e.g. in China, India, South Korea, Taiwan, Vietnam), are now becoming increasingly sophisticated and striving to become global brands, while also enjoying the active support of their governments in terms of their international business. Readers will learn about the current multinational landscape in Asia, the management challenges, and the future implications for traditional western companies seeking to retain their market share. Chapters on corporate entrepreneurship, human resource management and intercultural competence, and current branding trends in Asia will provide a cutting-edge update on international business strategy for students and practitioners alike.

The Strange Hours Travelers Keep August Kleinzahler, 2014-09-09 Those aren't stars, darling That's your nervous system Nanna didn't take you to planetariums like this --from *Hyper-Bercesse*: 3 A.M. August Kleinzahler's new poems stretch and go places he has never gone before: they have his signature high color and rhythmic jump, but they take on a breadth of voice and achieve registers that his earlier work only hinted at. Ranging from Vegas and Mayfair to the Asian steppes and contemporary Berlin, these poems touch down at will in tableaux where Liberace unceremoniously meets with St. Kevin and Attila with Zsa Zsa Gabor. Surprise after surprise, nothing seems to lie outside Kleinzahler's purview. This is the strongest collection to date from a poet with the vision and confident skill to make American poetry new (Clive Wilmer, *The Times* [London]).

101 Life Skills Games for Children Bernie Badegruber, 2011-01-01 How do you teach tolerance, self-awareness, and responsibility? How can you help children deal with fear, mistrust, or aggression? Play a game with them! Games are an ideal way to help children develop social and emotional skills; they are exciting, relaxing, and fun. **101 LIFE SKILLS GAMES FOR CHILDREN: LEARNING, GROWING, GETTING ALONG** (Ages 6-12) is a resource that can help children understand and deal with problems that arise in daily interactions with other children and adults. These games help children develop social and emotional skills and enhance self-awareness. The games address the following issues: dependence, aggression, fear, resentment, disability, accusations, boasting, honesty, flexibility, patience, secrets, conscience, inhibitions, stereotypes, noise, lying, performance, closeness, weaknesses, self confidence, fun, reassurance, love, respect, integrating a new classmate, group conflict. Organized in three main chapters: (I-Games, You-Games and We-Games), the book is well structured and easily accessible. It specifies an objective for every game, gives step-by-step instructions, and offers questions for reflection. It provides possible variations for each game, examples, tips, and ideas for role plays. Each game contains references to appropriate follow-up games and is illustrated with charming drawings.

Hot Wired Style Jeffrey Veen, 1997 The web has its own language, aesthetics, issues, and problems; yet the infrastructure and rules of web site design are still in their infancy. Here, the author discusses how Web designers should collaborate with editors and engineers, have an acute understanding of the concept of real-time, master hypertext, know their audience, be wary of multimedia, and create sites that emphasize simplicity and clarity and that users can move through quickly. Includes numerous color reproductions of web pages. Annotation copyrighted by Book News, Inc., Portland, OR

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, The Call of the Wild (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including The Sea-Wolf (1904), White Fang (1906), South Sea Tales (1911), and Jerry of the South Seas (1917). One of London's most interesting novels is the semi-autobiographical Martin Eden (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Two Into One Lawrence D Longley, 2019-03-22 Recent scholarship points to a new institutionalism just as recent political developments point to a trend toward democratization. If institutions matter, and if legislatures are the democratic institutions in which the voice of the people speaks, then the organization of legislatures—bi- or unicameral—has important consequences for democracy.
