One Acre and Security Bradford Angier, 2017-09-15 A passport to freedom that shows how to find fun, food, shelter, and income on land that may be within easy-driving distance of the city and suburbs. Why work a lifetime, asks Angier, to accumulate enough money to retire from the rat race during the last, least active years of life, when a little ground can provide healthful, relaxed living—now—and income too? One Acre and Security explains how “three-squares-a-day” and money to spend can come from the earth with instructions on: sheep or pig farming, raising bees for honey, keeping dairy herds of cows or goats, making money with herb culture, raising and selling rabbits and earthworms, running a poultry farm, raising fish, frogs, and turtles for profit and fun. Angier, the man who has done it all himself, shares too what he has learned about some of the ways to eat from nature’s free banquet table, how to stretch country-living with hikes on famous trails or on any untrammelled path, where to find the best hunting and fishing, and how to catch bigger, healthier fish. “This book is written for those who want to move—not to the distant wilderness—but just far enough away from the smog and the screaming traffic to be where meat will be theirs for the raising, fish for the catching, fruit and vegetables for the picking, fuel for the cutting, home for the satisfaction of building...breathing cleaner air, beholden to none, doing what they want to do most and giving it their best,” says Bradford Angier in One Acre and Security...

Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) Programs authorized by the Agricultural Act of 2014 (the 2014 Farm Bill). It also includes conforming changes to certain Farm Service Agency (FSA) regulations that apply to multiple programs. ARC and PLC provide producers a choice between a program that provides counter-cyclical type of payment support-PLC, and a revenue support type of program-ARC. During a defined election period, current producers can elect different programs for different covered commodities on a farm, for example, choosing PLC for corn and ARC county option for soybeans on the same farm. ARC offers the additional choice of a revenue guarantee based on average revenue for a county or on actual historical revenue for an individual farm. If a producer elects ARC individual coverage based on historical revenue for that specific farm, however, all the farm's covered commodities are elected with that option, with no option for PLC on that farm. This rule specifies the eligibility requirements, enrollment procedures, and payment calculations for ARC and PLC. This book contains: - The complete text of the Agriculture Risk Coverage and Price Loss Coverage Programs (US Commodity Credit Corporation Regulation) (CCC) (2018 Edition) - A table of contents with the page number of each section
