Migrating to Windows 8 Andy Williams, 2013-05-14 Review: What Microsoft should buy and give away now to drive sales NOTE: This book covers the original Windows 8 release. Since then, Microsoft have released an upgrade called Windows 8.1. If you are using Windows 8.1, then please search Amazon for my other book - *Migrating to Windows 8.1*. instead as there are a few user interface changes. New PCs are coming pre-installed with Windows 8, Microsoft's new incarnation of the popular operating system. The problem is, the PCs it is installed on are not usually equipped with the piece of hardware that Windows 8 revolves around - a touch screen. Windows 8 is probably the least user-friendly version of the operating system ever released. It's almost like two different operating systems merged together. From the lack of a start menu, to features that only really make sense on a tablet or phone, Windows 8 has a lot of veteran Windows users scratching their heads. If you are one of them, then this book is for you. After a quick tour of the new user interface, the book digs deeper into the features of Windows 8, showing you what everything does, and more importantly, how to do the things you used to do on older versions of Windows. The comprehensive How to section answers a lot of the questions new users have, and there's also a complete keyboard shortcut list for reference. If you are migrating to Windows 8 from XP, Vista or Windows 7, then this book may just let you keep your hair as you learn how to get the most out of your computer. Who knows, you may even get to like Windows 8.

The Labyrinth Index Charles Stross,2018-10-30 “A bizarre yet effective yoking of the spy and horror genres.” —The Washington Post Book World The Lovecraftian Singularity has descended upon the world in The Labyrinth Index, beginning an exciting new story arc in Charles Stross' Hugo Award-winning Laundry Files series! Since she was promoted to the head of the Lords Select Committee on Sanguinary Affairs, every workday for Mhari Murphy has been a nightmare. It doesn't help that her boss, the new Prime Minister of Britain, is a manipulative and deceptive pain in the butt. But what else can she expect when working under the thumb of none other than the elder god N'yar Lat-Hotep a.k.a the Creeping Chaos? Mhari's most recent assignment takes her and a ragtag team of former Laundry agents across the pond into the depths of North America. The United States president has gone missing. Not that Americans are alarmed. For some mysterious reason, most of the country has forgotten the executive branch even exists. Perhaps it has to do with the Nazgûl currently occupying the government and attempting to summon Cthulhu. It's now up to Mhari and her team to race against the Nazgûl's vampire-manned dragnet to find and, for his own protection, kidnap the president. Who knew an egomaniacal, malevolent deity would have a soft spot for international relations? Talking to Strangers Malcolm Gladwell,2019-09-10 Malcolm Gladwell, host of the podcast Revisionist History and author of the #1 New York Times bestseller Outliers, offers a powerful examination of our interactions with strangers and why they often go wrong—now with a new afterword by

the author. A Best Book of the Year: The Financial Times, Bloomberg, Chicago Tribune, and Detroit Free Press How did Fidel Castro fool the CIA for a generation? Why did Neville Chamberlain think he could trust Adolf Hitler? Why are campus sexual assaults on the rise? Do television sitcoms teach us something about the way we relate to one another that isn't true? Talking to Strangers is a classically Gladwellian intellectual adventure, a challenging and controversial excursion through history, psychology, and scandals taken straight from the news. He revisits the deceptions of Bernie Madoff, the trial of Amanda Knox, the suicide of Sylvia Plath, the Jerry Sandusky pedophilia scandal at Penn State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

All that is Solid Melts Into Air Marshall Berman, 1983 The experience of modernization -- the dizzying social changes that swept millions of people into the capitalist world -- and modernism in art, literature and architecture are brilliantly integrated in this account.
