Assessing the Costs of Climate Change and Adaptation in South Asia Asian Development Bank, 2014-06-01 This report synthesizes the results of country and sector studies on the economic costs and benefits of unilateral and regional actions on climate change in the Asian Development Bank's six South Asia developing members, namely Bangladesh, Bhutan, India, the Maldives, Nepal, and Sri Lanka. The study takes into account the different scenarios and impacts projected across vulnerable sectors and estimates the total economic loss throughout the 21st century and amount of funding required for adaptation measures to avert such potential losses. It is envisioned to strengthen decision-making capacities and improve understanding of the economics of climate change for the countries in South Asia.

The Semantic Web - ISWC 2004 Sheila A. McIlraith, Dimitris Plexousakis, Frank van Harmelen, 2004-10-19 The 3rd International Semantic Web Conference (ISWC 2004) was held November 7–11, 2004 in Hiroshima, Japan. If it is true what the proverb says: "Once by accident, twice by habit, three times by tradition," then this third ISWC did indeed firmly establish a tradition. After the overwhelming interest in last year's conference at Sanibel Island, Florida, this year's conference showed that the Semantic Web is not just a one-day wonder, but has established itself firmly on the research agenda. At a time when special interest meetings with a Semantic Web theme are springing up at major conferences in numerous areas (ACL, VLDB, ECAI, AAI, ECML, WWW, to name but a few), the ISWC series has established itself as the primary venue for Semantic Web research. Response to the call for papers for the conference continued to be strong. We solicited submissions to three tracks of the conference: the research track, the industrial track, and the poster track. The research track, the premier venue for basic research on the Semantic Web, received 205 submissions, of which 48 were accepted for publication. Each submission was evaluated by three program committee members whose reviews were coordinated by members of the senior program committee. Final decisions were made by the program co-chairs in consultation with the conference chair and the senior program committee. The industrial track, soliciting papers describing industrial research on the Semantic Web, received 22 submissions, of which 7 were accepted for publication.

Irrationality Stuart Sutherland, 2007 Why do qualified professionals make wrong decisions that cause enormous harm to others? And why do you sit through a boring play just because the tickets were expensive? Drawing on a mass of intriguing research, Stuart Sutherland analyses the causes of

irrationality, demonstrating that the trait is present in all of us.

Conservation of Tropical Plant Species M.N. Normah,H.F. Chin,Barbara M. Reed,2012-08-04 The book is designed to provide a review on the methods and current status of conservation of the tropical plant species. It will also provide the information on the richness of the tropical plant diversity, the need to conserve, and the potential utilization of the genetic resources. Future perspectives of conservation of tropical species will be discussed. Besides being useful to researchers and graduate students in the field, we hope to create a reference for a much wider audience who are interested in conservation of tropical plant diversity.

When God Looked the Other Way Wesley Adamczyk,2015-07-10 Often overlooked in accounts of World War II is the Soviet Union's quiet yet brutal campaign against Polish citizens, a campaign that included, we now know, war crimes for which the Soviet and Russian governments only recently admitted culpability. Standing in the shadow of the Holocaust, this episode of European history is often overlooked. Wesley Adamczyk's gripping memoir, *When*

God Looked the Other Way, now gives voice to the hundreds of thousands of victims of Soviet barbarism. Adamczyk was a young Polish boy when he was deported with his mother and siblings from their comfortable home in Luck to Soviet Siberia in May of 1940. His father, a Polish Army officer, was taken prisoner by the Red Army and eventually became one of the victims of the Katyn massacre, in which tens of thousands of Polish officers were slain at the hands of the Soviet secret police. The family's separation and deportation in 1940 marked the beginning of a ten-year odyssey in which the family endured fierce living conditions, meager food rations, chronic displacement, and rampant disease, first in the Soviet Union and then in Iran, where Adamczyk's mother succumbed to exhaustion after mounting a harrowing escape from the Soviets. Wandering from country to country and living in refugee camps and the homes of strangers, Adamczyk struggled to survive and maintain his dignity amid the horrors of war. When God Looked the Other Way is a memoir of a boyhood lived in unspeakable circumstances, a book that not only illuminates one of the darkest periods of European history but also traces the loss of innocence and the fight against despair that took root in one young boy. It is also a book that offers a stark picture of the unforgiving nature of Communism and its champions. Unflinching and poignant, When God Looked the Other Way will stand as a testament to the trials of a family during wartime and an intimate chronicle of episodes yet to receive their historical due. "Adamczyk recounts the story of his own wartime childhood with exemplary precision and immense emotional sensitivity, presenting the ordeal of one family with the clarity and insight of a skilled novelist. . . . I have read many descriptions of the Siberian odyssey and of other forgotten wartime episodes. But none of them is more informative, more moving, or more beautifully written than When God Looked the Other Way."—From the Foreword by Norman Davies, author of *Europe: A History* and *Rising '44: The Battle for Warsaw* "A finely wrought memoir of loss and survival."—Publishers Weekly "Adamczyk's unpretentious prose is well-suited to capture that truly awful reality." —Andrew Wachtel, *Chicago Tribune* Books "Mr. Adamczyk writes heartfelt, straightforward prose. . . . This book sheds light on more than one forgotten episode of history."—Gordon Haber, *New York Sun* "One of the most remarkable World War II sagas I have ever read. It is history with a human face."—Andrew Beichman, *Washington Times*

Nonattainment New Source Review, US Environmental Protection Agency Regulation, 2018 Law Library, 2018-08-24 Nonattainment New Source Review (NSR) (US Environmental Protection Agency Regulation) (EPA) (2018 Edition) The Law Library presents the complete text of the Nonattainment New Source Review (NSR) (US Environmental Protection Agency Regulation) (EPA) (2018 Edition). Updated as of May 29, 2018 The EPA is finalizing revisions to the regulations governing the nonattainment new source review (NSR) program mandated by section 110(a)(2)(C) of the Clean Air Act (CAA or Act). These revisions implement changes to the preconstruction review requirements for major stationary sources in nonattainment areas in interim periods between designation of new nonattainment areas and adoption of a revised State Implementation Plan (SIP). The revisions conform the nonattainment permitting rules that apply during the SIP development period following nonattainment designations before SIP approval to the Federal permitting rules applicable to SIP-approved programs. The changes are intended to provide a consistent national program for permitting major stationary sources in nonattainment areas under section 110(a)(2)(C) and part D of title I of the Act. In particular, these changes conform the regulations to the NSR reform provisions that EPA promulgated by notice dated December 31, 2002, except that these changes do not include the NSR reform provisions for clean units or pollution control projects, which the U.S. Court of Appeals for the D.C. Circuit vacated in *New York v. EPA*, 413 F.3d 3 (DC Cir. 2005). In addition, these changes include an interim interpretation of the NSR reform provision for a reasonable possibility standard for recordkeeping and reporting requirements, in accordance with that court decision. This interim interpretation to the reasonable possibility standard applies for appendix S purposes, pending the completion of rulemaking to develop a more complete interpretation. This book contains: - The complete text of the Nonattainment New Source Review (NSR) (US Environmental Protection Agency Regulation) (EPA) (2018 Edition) - A table of contents with the page number of each section
