Environmental Engineering Dictionary and Directory Thomas M. Pankratz, 2000-09-22 Like most technical disciplines, environmental science and engineering is becoming increasingly specialized. As industry professionals focus on specific environmental subjects they become less familiar with environmental problems and solutions outside their area of expertise. This situation is compounded by the fact that many environmental science related terms are confusing. Prefixes such as bio-, enviro-, hydra-, and hydro- are used so frequently that it is often hard to tell the words apart. The Environmental Engineering Dictionary and Directory gives you a complete list of brand terms, brand names, and trademarks - right at your fingertips.

Simply stated, the aircraft is a dust cover. *Fundamentals of Aircraft and Airship Design, Volume 1: Aircraft Design* emphasizes that the science and art of the aircraft design process is a compromise and that there is no right answer; however,

there is always a best answer based on existing requirements and available technologies.
