Fashion, Dress and Post-postmodernism José Blanco F.,Andrew Reilly,2021-01-28 Scholars have argued that postmodernism is dead and that we are entering into a new era that some have labelled altermodernism, digimodernism, performatism, and post-postmodernism. This book expands on the nascent scholarship of post-postmodernism to highlight how dress, fashion, and appearance are reflections of this new age. The volume starts with a discussion of fashion, subjectivity, and time and an analysis of temporality, technology, and fashion in post-postmodern times. Later chapters analyse the work of design houses and mass producers such as Vetements, Gucci, and Uniqlo whose products align with post-postmodern aesthetics, hyperconsumption, and hypermodern branding. The book looks at diverse geographic and identity markers by discussing post-postmodernism and the religio-politico-cultural questions in South Asian Muslim fashion, image and identity presentation in queer social networking apps, and by exploring fashion designer Tom Ford's output as a movie director. Two chapters discuss the post-postmodern fashion exhibition with analyses of recent exhibitions and an in-depth look at the work of exhibition maker Judith Clark. The final chapter is written by members of The Rational Dress Society, a counter-fashion collective that makes JUMPSUIT, an experimental garment to replace all clothes. Fashion, Dress, and Post-postmodernism is a companion to research on relationships between post-postmodernism, fashion, and dress, and the go-to resource for researchers and students interested in these areas.

Breaking Their Will Janet Heimlich,2011-06-14 This revealing, disturbing, and thoroughly researched book exposes a dark side of faith that most Americans do not know exists or have ignored for a long time—religious child maltreatment. After speaking with dozens of victims, perpetrators, and experts, and reviewing a myriad of court cases and studies, the author explains how religious child maltreatment happens. She then takes an in-depth look at the many forms of child maltreatment found in religious contexts, including biblically-prescribed corporal punishment and beliefs about the necessity of breaking the wills of children; scaring kids into faith and other types of emotional maltreatment such as spurning, isolating, and withholding love; pedophilic abuse by religious authorities and the failure of religious organizations to support the victims and punish

the perpetrators; and religiously-motivated medical neglect in cases of serious health problems. In a concluding chapter, Heimlich raises questions about children's rights and proposes changes in societal attitudes and improved legislation to protect children from harm. While fully acknowledging that religion can be a source of great comfort, strength, and inspiration to many young people, Heimlich makes a compelling case that, regardless of one's religious or secular orientation, maltreatment of children under the cloak of religion can never be justified and should not be tolerated.

*More Than Just the Talk* Jonathan McKee, 2015-03-10 Have Real Conversations With Your Kids About Sex The old ways of having the sex talk just won't cut it anymore. Sadly, the number one place today's young people go to for answers about sex is Google. Meanwhile, kids view nearly 14,000 sexual references a year on television, and 70 percent of teenagers have encountered pornography on the Internet. If we want our children to know the truth about healthy sexuality, we need to create a comfortable climate of continual conversations. Jonathan McKee will show you how to move beyond the initial awkwardness of this subject into an ongoing communication with your kids about God's amazing gift of sex. He equips you with what you need to talk openly about dating, temptation, porn, and purity, and you will find answers to tough questions and relevant Scripture on sexual issues. It's normal for kids to be curious about sexuality, and they need to know that their parents are the most reliable source of information. Be the one your kids turn to on this crucial topic. In a world full of explicit lies, today's kids need parents who aren't afraid to tell them the explicit truth. This book provides parents with the tools they need to have these candid and continual conversations.--Dr. Kevin Leman, New York Times bestselling author of *Have a Happy Family* by Friday Jonathan McKee is one of America's premier youth specialists, and this book will help you navigate the rough waters of teaching your kids healthy sexuality.--Jim Burns, PhD, president,

HomeWord and author Parents, take a deep breath. This book pulls no punches. But it will give you exactly what you need to walk alongside your kids at this time when they most need it.--Shaunti Feldhahn, social researcher, speaker, and bestselling author A thorough, straightforward, and engaging resource that will both equip and inform a parent for effective, culturally relevant, and God-honoring conversations about sexuality and all its implications. It is a critical read in critical times.--Brian Berry, generation ministries pastor, Journey Community Church, La Mesa, California; and author SO many parents I know don't feel equipped to talk to their kids about sex. This book helps you overcome the (guaranteed) awkwardness of conversations like that, and provides both tools AND motivation. I wish every parent would read it.--Scott Rubin, director of middle school ministry, Willow Creek Community Church Jonathan McKee provides clarity and practical knowledge so that you and I can do more than just give a nervous 'talk' to our kids; we can be loving and consistent parents for them as well.--Terry Linhart, PhD, educator, author, Bethel College--Indiana Kids need parents who are educated, aware, and relevant when it comes to sex. Thankfully, Jonathan McKee gives us powerful, poignant, and practical tools to help us win in this delicate and scary parenting arena.--Doug Fields, co-founder of DownloadYouthMinistry.com, youth pastor for thirty years at Saddleback & Mariners Church, speaker, and author McKee is a frontline youth worker with current and regular interactions with Christian teenagers wrestling with the intersection of their faith and their sexuality. Never condescending, Jon brings his writing style to a subject I wish more parents were talking about with their teens.--Mark Oestreicher, partner, The Youth Cartel and author Jonathan McKee's book helps us to remember that 'the talk' is a myth at best, and a terrible strategy at worst. A lifestyle of preparation, a strategic series of discussions, and a proactive commitment to conversation is what our kids need, and this book will help any parent to walk with their kids in confidence.--Chap Clark, professor of youth, family, and culture, Fuller Theological Seminary

**Civic Engagement in Food System Governance** Alan R. Hunt, 2015-10-05 The local food movement is one of the most active of current civil engagement social movements. This work presents primary evidence from over 900 documents, interviews, and participant observations, and provides the first descriptive history of local food movement national policy achievements in the US, from 1976 to 2013, and in the UK, from 1991 to 2013, together with reviews of both the American and British local food movements. It provides a US-UK comparative context, significantly updating earlier comparisons of American, British and European farm and rural policies. The comparative perspective shows that, over time, more effective strategies for national policy change required social-movement building strategies, such as collaborative policy coalitions, capacity-building for smaller organizations, and policy entrepreneurship for joining together separate rural, farming, food, and health interests. In contrast, narrowly-defined single issue campaigns often undermined long-term policy change, even if short-term wins emerged. By profiling interviews of American and English movement leaders, policymakers, and funders, the book demonstrates that democratic participation in food policy is best supported when funders incentivize groups to work together and overcome their differences.

*Evolution of SARS-CoV-2: impact of variants on hosts, COVID-19 vaccines and countermeasures* Seshadri Vasan, Martin H. Groschup, Sharon M. Brookes, Hang Xie, 2024-02-20 The 'novel coronavirus disease' (COVID-19) has caused significant global morbidity, mortality and economic damage on a scale similar to the influenza pandemic of 1918. The causative 'severe acute respiratory syndrome virus 2' (SARS-CoV-2) is a RNA virus which is evolving rapidly, accumulating mutations, and existing as a cloud of variants with quasispecies diversity. We have tens of thousands of variants, of which currently two are 'variants of interest' (Lambda, Mu) and another four 'variants of concern' (Alpha,

Beta, Gamma, Delta, Omicron) to the World Health Organization (WHO). Variants of interest often emerge as variants under investigation in one or more countries, as seen with the Omicron (initially denoted as Nu in South Africa). They become variants of concern when there is evidence of increased transmissibility, greater case severity, loss of neutralization by antibodies, and reduced effectiveness of countermeasures. Some SARS-CoV-2 variants can infect new hosts (for instance, the Alpha, Beta and Gamma variants of concern can infect wild type mice which is a species that cannot be vaccinated or controlled easily), and/or reduce the effectiveness of vaccines and therapies (especially Beta and Delta); diagnostic tests have also been reported to be affected. Currently, we do not yet have any 'variant of high consequence' with confirmed attributes such as widespread diagnostic test failures, significant reduction in the effectiveness of vaccines and/or therapies, with greater disease severity and deaths. It remains to be seen if Omicron would be the first to be declared by the WHO as a variant of high consequence; more variants of concern are also likely to be declared by the WHO over the next couple of years. Therefore, our ability to control and conquer this pandemic over the long run is dependent on predicting and keeping up with the evolution of this virus, its new hosts, as well as understanding and mitigating its impact on diagnostics, vaccines and therapies.
