Tales of Hi and Bye Torbjörn Lundmark,2009-10-29 We do it over and over again, day after day, and never seem to get enough of it. Albanians do it. Zulus do it. Movie stars and plumbers do it. All around the world, people say hi and bye in innumerable languages and countless ways: they wave and bow and curtsy and shake hands and rub noses and fist-bump and mwah-mwah and perform a vast array of greeting and farewell rituals, so common and natural that no-one stops to notice ... Tales of Hi and Bye provides a delightful, witty, and intriguing insight into the sometimes strange and often wonderful customs associated with an ordinary, everyday event. Tradition and Change in Legal English Christopher Williams,2007 In this volume the author examines verbal constructions in prescriptive legal texts written in English. Modal auxiliaries such as shall, may and must are analysed, as well as indicative tenses such as the present simple, and also non-finite constructions such as the -ing form and -ed participles. Results are based on specially compiled corpora of prescriptive texts coming from a wide range of English-speaking countries and also international organizations such as the European Union and the UN. The author also analyses the nature, extent and impact of the calls for change in legal language coming from the Plain Language Movement. Although legal language tends to be depicted as being highly conservative and unchanging, the author shows that in certain parts of the English-speaking world a minor revolution would appear to be taking place, while in other parts there is greater resistance to change.

WHO Guidelines for Indoor Air Quality, 2010 This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

Euphemania Ralph Keyes, 2010-12-14 How did die become kick the bucket, underwear become unmentionables, and having an affair become hiking the Appalachian trail? Originally used to avoid blasphemy, honor taboos, and make nice, euphemisms have become embedded in the fabric of our language. *Euphemania* traces the origins of euphemisms from a tool of the church to a form of gentility to today's instrument of commercial, political, and postmodern doublespeak. As much social commentary as a book for word lovers, *Euphemania* is a lively and thought-provoking look at the power of words and our power over them.

International Law Commission,2020-03-09 The International Law Commission was established in 1947 with a view to carrying out the responsibility of the General Assembly, under article 13(1)(a) of the Charter of the United Nations, to "initiate studies and make recommendations for the purpose of ... encouraging the progressive development of international law and its codification." Since its first session in 1949, the Commission has considered a wide-range of topics of international law and made a number of proposals for its codification and progressive development, some of which have served as the basis for the subsequent adoption of major multilateral treaties. The Yearbook of the International Law Commission contains the official records of the Commission and is an indispensable tool for the preservation of the legislative history of the documents emanating from the Commission, as well as for the teaching, study, dissemination and wider appreciation of the efforts undertaken by the Commission in the progressive development of international law and its codification. Volume II (Part One) reproduces the edited versions of the official documents considered by the Commission at the respective annual session.
