Humanitarianism, empire and transnationalism, 1760-1995 Joy Damousi,Trevor Burnard,Alan Lester,2022-03-08 This is the first book to examine the shifting relationship between humanitarianism and the expansion, consolidation and postcolonial transformation of the Anglophone world across three centuries, from the antislavery campaign of the late eighteenth century to the role of NGOs balancing humanitarianism and human rights in the late twentieth century. Contributors explore the trade-offs between humane concern and the altered context of colonial and postcolonial realpolitik. They also showcase an array of methodologies and sources with which to explore the relationship between humanitarianism and colonialism. These range from the biography of material objects to interviews as well as more conventional archival enquiry. They also include work with and for Indigenous people whose family histories have been defined in large part by ‘humanitarian’ interventions.

**The Coronavirus Crisis and Challenges to Social Development** Maria do Carmo dos Santos Gonçalves,Rebecca Gutwald,Tanja Kleibl,Ronald Lutz,Ndangwa Noyoo,Janestic Twikirize,2022-01-03 This book is a novel contribution to academic discourses on the coronavirus (COVID-19) crisis and how it has impacted societies globally. It proffers an overview on the social development and political measures, from both the Global North and Global South, to prevent COVID-19's spread. It illuminates major social, political and economic challenges that already existed in different contexts and which are also currently being amplified by COVID-19. Curiously, this global pandemic has opened spaces for different actors, across the globe, to begin to fundamentally question and challenge the hegemony of the Global North, which sometimes is evident in social work. Linked to the foregoing and while reflecting beyond the pandemic and into the future, the book proposes that social work must become more political at all levels, and strive to transform societies, global social development efforts, and economic and health systems. This contributed volume of 38 chapters discusses and analyses ethical, social, sociological, social work and social development issues that complement and enrich available literature in the socio-political, economics, public health, medical ethics and political science. It provides various case studies which should enable readers to gain insights into how countries have responded to the pandemic and learn how COVID-19 negatively impacted countries in different parts of the world. This book also provides a platform for the articulation of neglected and marginalized voices, such as those of indigenous populations, the poor, or oppressed. The chapters are grouped according to three main themes as they relate to research on the COVID-19 pandemic and social work in Africa, Asia, Europe, Latin America and North America: Analysis: Social Issues and the COVID-19 Pandemic Strategies and Responses in Social Work: Globally and Locally Outlook: Looking Ahead Beyond the Pandemic Intended to engage a global, diverse and interdisciplinary audience, The Coronavirus Crisis and Challenges to Social Development is a timely and relevant resource for academics, students and researchers in inter alia Social Work, Philosophy, Sociology, Economics, and Development Studies.

**County Courthouse Book** Elizabeth Petty Bentley,2009 The County Courthouse Book is a concise guide to county courthouses and courthouse records. It is an important book because the genealogical researcher needs a reliable guide to American county courthouses, the main repositories of county records. To proceed in his investigations, the researcher needs current addresses and phone numbers, information about the coverage and availability of key courthouse records such as probate, land, naturalization, and vital records, and timely advice on the whole range of services available at the courthouse. Where available he will also need listings of current websites and e-mail addresses. -- Publisher website.

Things Fall Apart Daniel L. Byman,Kenneth M. Pollack,2008-03-01 Iraq is rapidly descending into all-out civil war. Unfortunately, the United States probably will not be able to just walk away from the chaos. Even setting

aside the humanitarian nightmare that will ensue, a full-scale civil war would likely consume more than Iraq: historically, such massive conflicts have often had highly deleterious effects on neighboring countries and other outside states. Spillover from an Iraq civil war could be disastrous. Thus begins this sobering analysis of what the near future of Iraq could look like, and what America can do to reduce the threat of wider conflict. Preventing spillover of the Iraqi conflict into neighboring states must be a top priority. In explaining how that can be accomplished, Daniel Byman and Kenneth Pollack draw on their own considerable expertise as well as relevant precedents. The authors scrutinize several recent civil wars, including Lebanon, Chechnya, Afghanistan, Kosovo, and Bosnia. After synthesizing those experiences into lessons on how civil wars affect other nations, Byman and Pollack draw from them to produce recommendations for U.S. policy. Even while the Bush Administration attempts to prevent further deterioration of the situation in Iraq, it needs to be planning how to deal with a full-scale civil war if one develops.

Federal Employees' Compensation ACT (Feca) Addison K. James,Filip E. Davis,2012-01-07 The Federal Employees' Compensation Act (FECA) is the workers' compensation program for federal employees. Like all workers' compensation programs, FECA pays disability, survivors, and medical benefits, without fault, to employees who are injured or become ill in the course of their federal employment and the survivors of employees killed on the job. The FECA program is administered by the Department of Labor (DOL) and the costs of benefits are paid by each employees' host agency. Employees of the U.S. Postal Service (USPS) currently comprise the largest group of FECA beneficiaries and are responsible for the largest share of FECA benefits. This book examines the key policy issues facing the FECA today, including the disproportionate share of claims and program costs attributed to postal workers, the payment of FECA benefits after retirement age, the overall generosity of FECA disability benefits as compared with those offered by the states, and the overall administration of the FECA program.

Confinement and Ethnicity Jeffery F. Burton,Mary M. Farrell,Lord,Richard W. Lord,2011-07-01 Confinement and Ethnicity documents in unprecedented detail the various facilities in which persons of Japanese descent living in the western United States were confined during World War II: the fifteen “assembly centers” run by the U.S. Army’s Wartime Civil Control Administration, the ten “relocation centers” created by the War Relocation Authority, and the internment camps, penitentiaries, and other sites under the jurisdiction of the Justice and War Departments. Originally published as a report of the Western Archeological and Conservation Center of the National Park Service, it is now reissued in a corrected edition, with a new Foreword by Tetsuden Kashima, associate professor of American ethnic studies at the University of Washington. Based on archival research, field visits, and interviews with former residents, Confinement and Ethnicity provides an overview of the architectural remnants, archeological features, and artifacts remaining at the various sites. Included are numerous maps, diagrams, charts, and photographs. Historic images of the sites and their inhabitants -- including several by Dorothea Lange and Ansel Adams -- are combined with photographs of present-day settings, showing concrete foundations, fence posts, inmate-constructed drainage ditches, and foundations and parts of buildings, as well as inscriptions in Japanese and English written or scratched on walls and rocks. The result is a unique and poignant treasure house of information for former residents and their descendants, for Asian American and World War II historians, and for anyone interested in the facts about what the authors call these “sites of shame.”

*Understanding Authority in Higher Education* Dean O. Smith,2015-01-22 Within the complex environment of higher education, administrators and faculty members face daunting challenges in their unique domains of institutional governance. Many of the greatest challenges arise from basic misunderstandings of authority and its limitations by administrators and faculty members alike. These misunderstandings are the primary source of disruptive confusion, mistrust, and mismanagement. Consequently, an institution’s governance would improve significantly if its personnel clearly understand the fundamental principles of authority. To bring about this improvement, Understanding Authority in Higher Education clarifies issues of authority in an academic setting. Throughout, it introduces basic concepts of higher-education administration and then examines the limits of authority in context. Pedagogically, the book strives continuously to ascertain whether authority is used properly from a legal perspective, emphasizing the influence of academic cultural norms on legal principles and vice versa. But, Understanding Authority in Higher Education goes further than law textbooks by using real and anecdotal case studies to examine aspects of authority that don’t appear in court proceedings— those that lie beyond the reach of the law. In these cases, the book explores the anthropology— the behavior and the culture—of authority in the academic environment.
