*Introduction to Controlled Vocabularies* Patricia Harpring,2010-04-13 This detailed book is a “how-to” guide to building controlled vocabulary tools, cataloging and indexing cultural materials with terms and names from controlled vocabularies, and using vocabularies in search engines and databases to enhance discovery and retrieval online. Also covered are the following: What are controlled vocabularies and why are they useful? Which vocabularies exist for cataloging art and cultural objects? How should they be integrated in a cataloging system? How should they be used for indexing and for retrieval? How should an institution construct a local authority file? The links in a controlled vocabulary ensure that relationships are defined and maintained for both cataloging and retrieval, clarifying whether a rose window and a Catherine wheel are the same thing, or how pot-metal glass is related to the more general term stained glass. The book provides organizations and individuals with a practical tool for creating and implementing vocabularies as reference tools, sources of documentation, and powerful enhancements for online searching.

Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. **Abundant Harvests** John Dietler,Heather Gibson,James M. Potter,2015 This book is no longer in print, but is available for download as a free e-book through SWCA, Inc. Mission San Gabriel Arcangél was known as the Pride of the Missions due to its legendary agricultural productivity and its prominence in Southern California as a center of commerce and social interaction during the mission period (1771-1834). This volume, SWCA Anthropological Research Paper No. 11, reports on the first archaeological data recovery undertaken at the mission. Working within the mission's garden area, the study revealed more than 300,000 artifacts and 45 archaeological features, including a large granary, a reservoir complex, and one of the first industrial properties on the West Coast: Chapman's Mill and Millrace. Using archaeological results to critically examine historical narratives, the project examined the economic and social organization of the mission through detailed analyses of the public architecture and everyday materials left behind by Native American residents in the productive heart of the community, including animal bones, plant remains, ceramics, and tools. These studies revealed a dynamic and resilient native population that, despite clear hardships, was well-supplied with domesticated meat and locally gathered plant foods. The architectural remains clearly demonstrate the stepwise process through which a European worldview was molded to the unfamiliar California landscape, where self-taught engineers developed techniques of harnessing water that enabled the population explosion that came to characterize the Los Angeles Basin in succeeding decades. Lavishly illustrated and richly detailed, the volume is a resource for archaeologists, historians, and mission scholars alike.
