Mapping Arab Women's Movements Pernille Arenfeldt, Nawar Al-Hassan Golley, 2012 This pioneering collection of analyses focuses on the ideologies and activities of formal women's organizations and informal women's groups across a range of Arab countries. With contributions on Syria, Jordan, Lebanon, Palestine, Iraq, Egypt, Kuwait, the United Arab Emirates, Yemen, and the Arab diaspora in the United States, Mapping Arab Women's Movements contributes to delineating similarities and differences between historical and contemporary efforts toward greater gender justice. The authors explore the origins of women's movements, trace their development during the past century, and address the impact of counter-movements, alliances, and international collaborations within the region and beyond, providing accessible accounts for scholars and others interested in the Middle East and in women's movements in other settings.

Echoes from the Valley Crampton Harris Helms, MD, 2013-08-26 What began as a list of names, a box of documents, a number of family Bibles, and idle curiosity gradually evolved into a book about the settlement of Virginia and the western conquest of the great Valley of the Shenandoah, the birth of the New River settlements, and the emergence of the Watauga and Holston pioneers on the western slopes of the Appalachian Mountains. Placing the generations into a format of historic events began to bring these fugitives from the European wars and catastrophes into focus as real people. Since this story concerns the early foundation of this nation, the author did not choose to go back beyond the immigration from Europe. In a few cases, however, where the material was available and explanatory, it was incorporated into these pages. This does not mean that the more remote history of others was not available. It just did not contribute to the integrity of this book. The book is not a genealogy although it uses that structure to build the generations. And it is not simply a history. It is a perspective of history, demonstrated through the genealogy and migrations of one family. The whole is dependent upon each life among the hundreds of those who made this family possible. Make no mistake about it! The loss of a single one—just one!—and the people that followed would never have been born! The relations are carefully delineated. Children are named where it is possible. To this extent, it is hoped other lineages may find the book useful. The appendix contains copies from books and papers that might be difficult or impossible to obtain. It is important to realize that as the reader goes backward in time, the numbers of people become fewer. This means that the chances of interrelations increase as the two hundredth year marker of the past is approached. All of us share a kinship in the origin and the destiny of the United States of America!

The US-Japan Alliance David Arase, Tsuneo Akaha, 2013-01-11 Japan's use of Soft power in its international politics is as yet understudied. Soft power presents as many challenges as promises. This book explores the way Japan uses soft power in its relationship with the US, its Asian neighbours and Europe and aims to contribute to a deeper understanding of the role of soft power in international relations. Hard power, on the other hand, is more tangible and has received far greater scholarly scrutiny than soft power. However, as this collection makes clear, hard power has its limitations and counterproductive consequences as an instrument of policy. This book makes it clear that hard power alone will not provide Japan with the peace and security it desires. A smart balancing or mixture of hard and soft power is required. Is Japan up to this challenge? While this book cannot give a definitive answer to this question, the excellent line-up of contributors present their best analyses of the effectiveness of Japan's current attempt at balancing the two components of national power in meeting its bilateral and multilateral security challenges. The US-Japan Alliance is suitable for upper undergraduates, postgraduates and academics in International Politics, Political Science, Security studies and Japanese studies. Winner of The Masayoshi Ohira Memorial Special Prize, 2011.

Social Disciplining and Civilising Processes in China Thomas Heberer, 2023-08-11 This book argues that a major part of the Chinese government's road map, formulated in 2017, to modernise China comprehensively by 2049 is the process of social disciplining. It contends that the Chinese state sees that modernisation and modernity encompass not only economic and political-administrative change but are also related to the organisation of society in general and the disciplining of this society and its individuals to create people with "modernised" minds and behaviour; and that, moreover, the Chinese state is aspiring to a modernity with "Chinese characteristics". The question of modernising by disciplining was extensively dealt with in the twentieth century by leading Western social scientists including Max Weber, Norbert Elias and Michel Foucault, who argued that disciplining, extending from external coercion towards the internalisation of restraints, is indispensable for achieving social order and thereby for "civilisation" –but defined from a European perspective, in relation to developments in Europe. This book therefore not only discusses the Chinese experience of social disciplining, but also, by looking at a non-Western society, identifies universal tendencies of societal change and social disciplining and separates them from particular occurrences.

Manual de Investigação Cibernética Alesandro Gonçalves Barreto, Beatriz Silveira Brasil, 2016-10-20 A atual Era do Conhecimento, caracterizada pelo intenso fluxo de informações, de alcance mundial e instantâneo, fez com que o mundo jurídico também buscasse se adequar à nova realidade social, surgindo uma série de normas e julgados que visam tutelar os direitos dos indivíduos e da sociedade no ciberespaço. Nesse sentido, a presente obra foi elaborada para auxiliar os operadores da área jurídica e da área das tecnologias da informação e comunicação a aprofundar seus conhecimentos, especificamente no que se refere à interseção entre o Direito e a Tecnologia, com foco na investigação de cibercrimes. Os autores, aliando conhecimentos teóricos, jurisprudência e vasta experiência profissional, conseguiram produzir um manual didático, tornando fácil a compreensão desse tema tão importante e pouquíssimo explorado pela doutrina nacional. • Investigação de cibercrimes – Planejamento, execução e suas controvérsias • Revenge porn – Metodologia de enfrentamento • Repositório procedimental – Modelos e exemplos

Legal and Political Reforms in Saudi Arabia Joseph Kéchichian, 2012-11-27 The fractious relationship between the United States and Saudi Arabia has long been a central concern in Washington. In the aftermath of 9/11 and amongst ongoing wars, the United States confronts an acute dilemma: how to cooperate with Riyadh against terrorism whilst confronting acute anti-Americanism? Using information gathered from extensive interviews with a plethora of officials, this book aims to analyze Saudi domestic reforms. It addresses the significant deficiency of information on such diverse matters as the judiciary and ongoing national dialogues, but also provides an alternative understanding of what motivates Saudi policy makers. How these reforms may impact on future Saudi decision-making will surely generate a slew of policy concerns for the United States and this study offers a few clarifications and solutions. This book will be of interest to anyone seeking a new perspective on the motivation behind legal and political reforms in Saudi Arabia, and the effects of these reforms beyond the Middle East.

Cartas desde el Gulag Luiza Iordache, 2020-05-21 Entre 1940 y 1956 pasaron por los campos de concentración soviéticos 345 republicanos españoles, entre los que había «niños de la guerra», militantes comunistas,

maestros, pilotos, marinos y otros republicanos detenidos en el Berlín liberado por el Ejército Rojo... Uno de ellos fue el cirujano catalán Julián Fuster Ribó, el español Fuster que menciona el Premio Nobel de Literatura Alexander Soljenitsin en su famoso libro Archipiélago Gulag. A modo de espejo, a través de la biografía de Julián Fuster, Luiza Iordache nos va dando a conocer la historia de otros españoles que como él llegaron a la Unión Soviética llenos de ilusiones y terminaron en cárceles y campos de concentración soviéticos por el simple delito de haber disentido o cuestionado el régimen comunista, o simplemente por querer marcharse del país. Iremos sabiendo lo que pasaron y de lo que fueron testigos, especialmente Julián Fuster, como es el caso de la rebelión de presos en el campo de Kengir que terminó en una masacre bajo las cadenas de los carros de combate soviéticos. También son muy importantes sus apreciaciones, recogidas al final del libro, sobre lo que era la vida en la Unión Soviética, la situación real de la clase trabajadora y las falacias del régimen comunista. Cartas desde el Gulag nos desvela un hecho poco conocido en España. La documentación consultada por la autora durante largos años lo convierte en un libro imprescindible para comprender uno de los periodos más oscuros de la Historia del siglo XX y cómo lo sufrieron algunos españoles, entre ellos Julián Fuster Ribó, el español Fuster de Archipiélago Gulag.

Communicating Process Architectures 2004 Ian East,J. Martin,P.H. Welch,2004 Communicating Process Architecture (CPA) describes an approach to system development that is process-oriented. It makes no great distinction between hardware and software. It has a major root in the theory of Communicating Sequential Processes (CSP). However, the underlying theory is not limited to CSP. The importance of mobility of both channel and process within a network sees integration with ideas from the δ -calculus. Other formalisms are also exploited, such as BSP and MPI. The focus is on sound methods for the engineering of significant concurrent systems, including those that are distributed (across the Internet or within a single chip) and/or software-scheduled on a single execution unit. Traditionally, at CPA, the emphasis has been on theory and practice - developing and applying tools based upon CSP and related theories to build high-integrity systems of significant size. In particular, interest focuses on achieving scalability and security against error. The development of Java, C, and C++, libraries to facilitate secure concurrent programming using 'mainstream' languages has allowed CPA to continue and proliferate. This work continues in support of the engineering of distributed applications. Recently, there has been greater reference to theory and its more direct application to programming systems and languages. In this volume the formal CSP is very well presented. The papers provide a healthy mixture of the academic and commercial, software and hardware, application and infrastructure, which reflects the nature of the discipline.
