**Don't Know Much About® the American Presidents** Kenneth C. Davis,2012-09-18 Which president broke the law to prevent enslaved people from being freed? Who said, When the president does it,that means it's not illegal? Why does America have a president? From the heated debates among the framers of the Constitution in 1787 over an elected king, to the creation of the presidency, and on through rich profiles of each man who has held the office, New York Times bestselling author Kenneth C. Davis takes readers on a guided tour of American history. Examining each chief executive, from the low lights to the bright lights, the memorable to the forgettable and the forgotten, Davis tells all the stories, offering rich anecdotes about real people. He also charts the history of the presidency itself, debunking myths and grading the presidents from A+ to F. For history buffs and history-phobes alike, this entertaining book may change your understanding of the highest office in the land throughout more than two hundred years of history.

*Security, Economics and Nuclear Non-Proliferation Morality* Liang Tuang Nah,2017-09-04 This book seeks to elucidate the decisions of states that have chosen to acquire nuclear arms or inherited nuclear arsenals, and have either disarmed or elected to retain their warheads. It examines nuclear arms policy via an interconnected framework involving the eclectic use of national security based realism, economic interdependence liberalism, and nuclear weapons norms or morality based constructivism. Through the various chapters examining the nuclear munitions decisions of South Africa, Ukraine and North Korea, a case is built that a state’s leadership decides whether to keep or give up “the Bomb” based on interlinked security, economic and norms governed motivations. Thereafter, frameworks evaluating the likelihood of nuclear proliferation and accessing the feasibility of disarmament are then applied to North Korea and used to examine recent Iranian nuclear negotiability. This book is an invaluable resource for international relations and security studies scholars, WMD analysts and post graduate or undergraduate candidates focusing on nuclear arms politics related courses

**Trump: The Chosen One** Bruce Fine,Hank Lewin,2020-06-15 With the threat of calling out the United States military to dominate US citizens in peaceful protest, Donald Trump has shown America his true autocratic tendencies and desire to rule this nation with an iron fist. For all those concerned with the safeguarding of our democracy you should read this book. “Trump: The Chosen One” explores the seduction of the Christian Right by Donald Trump preying on fears and prejudices to create false narratives and controversies, promoting an agenda of division, obfuscation and misdirection within our nation. This book shreds the moral and ethical reasoning of that large part of the Christian Right’s unwavering support for a president whose actions show disdain for moral standards. We explore the danger of allowing a fanatical religious ideology to weave its way into the fabric of our political system, threatening out democracy. We draw a connection through: the hypocrisy of the religious right. Income and wealth inequality, foreign policy, climate change and the systematic dismantling of political, judicial and governmental institutions. We rely on a foundational American principle to frame the first three years of the Trump administration to reveal how this president’s stance on global warming and steadfast support for fossil fuels places him in lockstep with Vladimir Putin and other tyrannical leaders. This book questions Trump's appeal to people of faith who should be alarmed at the president’s lack of a moral compass; as well as civic-minded republicans who no longer recognize today’s GOP; It is an alarm to all those who are concerned with the preservation of our democracy who are concerned with: our environment, the relationship between faith and politics, Constitutional history, economic and tax policy.

**Social Warming** Charles Arthur,2021-06-24 ‘Witty, rigorous, and as urgent as a fire alarm’ Dorian Lynskey ‘Cooly prosecutorial’ Guardian Nobody meant for this to happen. Facebook didn’t mean to facilitate a genocide. Twitter didn’t want to be used to harass women. YouTube never planned to radicalise young men. But with billions of users, these platforms need only tweak their algorithms to generate more ‘engagement’. In so doing, they bring unrest to previously settled communities and erode our relationships. Social warming has happened gradually – as a by-product of our preposterously convenient digital existence. But the gradual deterioration of our attitudes and behaviour on- and offline – this vicious cycle of anger and outrage – is real. And it can be corrected. Here’s how.
