(Circular E), Employer's Tax Guide - Publication 15 (For Use in 2021) Internal Revenue Service, 2021-03-04 Employer's Tax Guide (Circular E) - The Families First Coronavirus Response Act (FFCRA), enacted on March 18, 2020, and amended by the COVID-related Tax Relief Act of 2020, provides certain employers with tax credits that reimburse them for the cost of providing paid sick and family leave wages to their employees for leave related to COVID-19. Qualified sick and family leave wages and the related credits for qualified sick and family leave wages are only reported on employment tax returns with respect to wages paid for leave taken in quarters beginning after March 31, 2020, and before April 1, 2021, unless extended by future legislation. If you paid qualified sick and family leave wages in 2021 for 2020 leave, you will claim the credit on your 2021 employment tax return. Under the FFCRA, certain employers with fewer than 500 employees provide paid sick and family leave to employees unable to work or telework. The FFCRA required such employers to provide leave to such employees after March 31, 2020, and before January 1, 2021. Publication 15 (For use in 2021)

The First Universities Olaf Pedersen, 1997 This is a general study of the development of higher education in Europe from antiquity until the end of the Middle Ages, set against a background of the social and political history of the period. It shows how the slender traditions of ancient learning, kept alive in the monastic and cathedral schools, was enriched by an enormous influx of knowledge from the Islamic world and how in consequence the schools developed into universities. These early institutions are examined from a variety of points of view, as institutions, as places where ideas spread and as points of interaction with local and national authority. Special attention is paid to early intellectual history and to the scientific disciplines and to the everyday life of the students and their teachers. The book is intended as a broad introduction to the subject for students of the history of education, but it will also attract general readers with only a slight knowledge of the subject.

2021 International Conference of Optical Imaging and Measurement (ICOIM) IEEE Staff, 2021-08-27 Optical imaging and measurement are closely related and have a wide range of applications such as microscope, telescope, sensor, etc Usually, imaging is the basis of measurement, and measurement is a rigorous consideration of imaging results in a quantitative way This conference covers a broad field of advanced optical imaging and precision measurement technologies ranging from micro to macro, from static to dynamic, from single physical quantity to multiple Optical methods continuously have a profound impact on the new development of science and technology, such as the milestone breakthroughs, STED optical nanoscope (Nobel Prize in Chemistry 2014) and LIGO s interferometer (Nobel Prize in Physics 2017) This conference is looking forward to building a bridge among optical scientists, engineers and entrepreneurs

Green Extraction of Natural Products Farid Chemat, Jochen Strube, 2016-03-11 Extraction processes are essential steps in numerous industrial applications from perfume over pharmaceutical to fine chemical industry. Nowadays, there are three key aspects in industrial extraction processes: economy and quality, as well as environmental considerations. This book presents a complete picture of current knowledge on green extraction in terms of innovative processes, original methods, alternative solvents and safe products, and provides the necessary theoretical background as well as industrial application examples and environmental impacts. Each chapter is written by experts in the field and the strong focus on green chemistry throughout the book makes this book a unique reference source. This book is intended to be a first step towards a future cooperation in a new extraction of natural products, built to improve both fundamental and green parameters of the techniques and to increase the amount of extracts obtained from renewable resources with a minimum consumption of energy and solvents, and the maximum safety for operators and the environment.

Ict And Special Educational Needs Florian, Lani, Hegarty, John, 2004-03-01 A reference for teachers interested in the uses of ICT as a tool to promote the inclusion of learners with special educational needs.
