Packaging Materials and Processing for Food, Pharmaceuticals and Cosmetics Kata Galic, Mia Kurek, Nasreddine Benbettaieb, Frederic Debeaufort, Mario Scetar, 2021-04-27 This book provides valuable information on a range of food packaging topics. It serves as a source for students, professionals and packaging engineers who need to know more about the characteristics, applications and consequences of different packaging materials in food-packaging interactions. This book is divided into 13 chapters and focuses on the agro-food, cosmetics and pharmaceutical sectors. The first four chapters cover traditional packaging materials: wood, paper and cardboard, glass and metal. The next two deal, respectively, with plastics and laminates. Biobased materials are then covered, followed by a presentation of active and smart packaging. Some chapters are also dedicated to providing information on caps and closures as well as auxiliary materials. Different food packaging methods are presented, followed by an investigation into the design and labelling of packaging. The book ends with a chapter presenting information on how the choice of packaging material is dependent on the characteristics of the food products to be packaged.

Paths in the Rainforests Jan M. Vansina, 1990-10-22 Vansina's scope is breathtaking: he reconstructs the history of the forest lands that cover all or part of southern Cameroon, Gabon, Equatorial Guinea, the Congo, Zaire, the Central African Republic, and Cabinda in Angola, discussing the original settlement of the forest by the western Bantu; the periods of expansion and innovation in agriculture; the development of metallurgy; the rise and fall of political forms and of power; the coming of Atlantic trade and colonialism; and the conquest of the rainforests by colonial powers and the destruction of a way of life. "In 400 elegantly brilliant pages Vansina lays out five millennia of

history for nearly 200 distinguishable regions of the forest of equatorial Africa around a new, subtly paradoxical interpretation of 'tradition.'" —Joseph Miller, University of Virginia "Vansina gives extended coverage . . . to the broad features of culture and the major lines of historical development across the region between 3000 B.C. and A.D. 1000. It is truly an outstanding effort, readable, subtle, and integrative in its interpretations, and comprehensive in scope. . . . It is a seminal study . . . but it is also a substantive history that will long retain its usefulness."—Christopher Ehret, *American Historical Review*

Hague Yearbook of International Law / Annuaire de La Haye de Droit International, Vol. 17 (2004) A.-Ch. Kiss, Johan G. Lammers, 2021-10-25 This is the seventeenth volume of the Hague Yearbook of International Law, which succeeds the Yearbook of the Association of Attenders and Alumni of the Hague Academy of International Law. The title Hague Yearbook of International Law reflects the close ties which have always existed between the AAA and the City of The Hague with its international law institutions, and indicates the Editor's intention to devote attention to developments taking place in those international law institutions, viz. the International Court of Justice the Permanent Court of Arbitration, the Iran-United States Claims Tribunal, and the Hague Conference on Private International Law. This volume contains in-depth articles on these developments and summaries of (aspects of) decisions rendered by the International Court of Justice, the International Criminal Court, the International Criminal Tribunal for the former Yugoslavia since 1991, the Iran-United States Claims Tribunal, the Permanent Court of Arbitration and the Hague Peace Conference on Private International Law.

Murders in the United States R. Barri Flowers, H. Loraine Flowers, 2004-01-01 From the

assassination of President William McKinley on September 6, 1901, to the mass killing at Columbine High School on April 20, 1999, the 20th century saw many murderous events that are difficult to contemplate but have become a part of the national history. This reference book is divided into three parts. Part One, arranged chronologically, details 53 of the most famous murder cases of the 20th century in the United States. In Part Two, over 300 entries (alphabetically arranged by criminal) provide descriptions of crimes and are subdivided into male, female, and juvenile murderers; pair and group murderers; hate crime murderers; and school killings. Part Three features crime events related to over 40 selected victims. Cross references guide the reader to additional information. An index is included.

China and Africa David H. Shinn, Joshua Eisenman, 2012-07-10 The People's Republic of China once limited its involvement in African affairs to building an occasional railroad or port, supporting African liberation movements, and loudly proclaiming socialist solidarity with the downtrodden of the continent. Now Chinese diplomats and Chinese companies, both state-owned and private, along with an influx of Chinese workers, have spread throughout Africa. This shift is one of the most important geopolitical phenomena of our time. *China and Africa: A Century of Engagement* presents a comprehensive view of the relationship between this powerful Asian nation and the countries of Africa. This book, the first of its kind to be published since the 1970s, examines all facets of China's relationship with each of the fifty-four African nations. It reviews the history of China's relations with the continent, looking back past the establishment of the People's Republic of China in 1949. It looks at a broad range of areas that define this relationship—politics, trade, investment, foreign aid, military, security, and culture—providing a significant historical backdrop for each. David H. Shinn and Joshua Eisenman's study combines careful observation, meticulous data analysis, and detailed

understanding gained through diplomatic experience and extensive travel in China and Africa. China and Africa demonstrates that while China's connection to Africa is different from that of Western nations, it is no less complex. Africans and Chinese are still developing their perceptions of each other, and these changing views have both positive and negative dimensions.

Las agendas urbanas y el gobierno de las ciudades Sonia de Gregorio Hurtado, Imanol Tellería Herrera, María Ángeles Huete García, Rafael Merinero Rodríguez, Serafín Pazos Vidal, Ícaro Obeso Muñiz, Isabel Hernández San Juan, Mariela Belén Agüero, Marta Domínguez Pérez, Antonio Alejo Jaime, Montserrat Crespi-Vallbona, María del Carmen García-Peña, María Victoria Gómez García, Iago Lekue López, José Manuel Díaz Saráchaga, 2021-07-01 El comienzo del siglo XXI se ha caracterizado por un renovado protagonismo de las ciudades, que se manifiesta tanto en el impulso de políticas específicamente urbanas como en su mayor notoriedad en el ámbito internacional. En la actualidad, las ciudades se configuran como lugares de centralidad política que han ido transformando su rol como actor colectivo, su forma de gobierno y de elaborar políticas públicas. En este marco, en los últimos años se observa un creciente lanzamiento de políticas urbanas o agendas urbanas de alcance internacional, nacional, regional y local que, aun presentando una heterogeneidad relevante, se caracterizan por un conjunto de elementos o posicionamientos comunes. Esto permite hablar de la potenciación en el presente de políticas netamente urbanas, y la mayor interrelación de estas con ámbitos de política sectorial que tienen una clara influencia en las ciudades. Todo esto se está materializando en instrumentos de política pública que exploran y buscan nuevas maneras de abordar los principales retos de nuestro tiempo, teniendo en cuenta la complejidad de las áreas de gobernanza en las que se actúa y de la realidad que impone un mundo que cambia a gran velocidad.

El objetivo de este libro es dar lugar a un marco de reflexión desde la Academia en torno a temas claves relacionados con la potenciación de las agendas urbanas y los fenómenos a los que estas responden, que den cuenta de estas transformaciones y de sus consecuencias, así como de los contextos desde los que se verifican, en términos jurídicos, políticos, urbanísticos, espaciales y sociales a través de una mirada multidisciplinar. Este interés, y la oportunidad de este libro, es parte de la actividad que las autoras vienen realizando desde el marco de la URBAN RED para iniciar y potenciar la formación de esta reflexión académica.

Ghost Boys Jewell Parker Rhodes, 2018-04-17 A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

Geografía del despilfarro en España Juan Romero González, 2019-07-22 El presente libro presenta una geografía del despilfarro a lo largo del Estado español de la mano de grandes expertos en las diversas áreas que se analizan. Se entiende la corrupción como una faceta de un fenómeno

más general, el despilfarro, lo que supone una disminución del PIB o un incremento de los costes operativos para conseguir el mismo PIB. En este sentido, la corrupción genera costes económicos, de manera indirecta, a través de su impacto en otras variables económicas.

Cancelaciones, bonos, turismo, bodas y COVID Lucía del Saz Domínguez, La presente obra está elaborada sobre la base de consultas planteadas al Centro de Estudios de Consumo (CESCO) de la Universidad de Castilla-La Mancha, resueltas atendiendo a las diversas normas emanadas para hacer frente a la crisis sanitaria ocasionada por el COVID-19. Con el fin de precisar las condiciones necesarias para la devolución del importe abonado por el viajero, este trabajo distingue los derechos de los pasajeros que contratan vuelos y el pseudo-derecho de desistimiento en contratos de viaje combinado, analizando cuándo nos hallamos ante una de las causas legalmente previstas para recuperar el precio íntegro. El estudio añadido al cierre del libro sobre la figura de la desaparición sobrevenida de la causa en la cancelación de enlaces matrimoniales que estaban previstos con anterioridad al decreto del estado de alarma, con la consiguiente cancelación de contratos de adquisición de productos y de prestación de servicios asociados a una boda al verse afectados por la pandemia de coronavirus y por las restricciones derivadas del mismo, resulta de sumo interés por su especial tratamiento

Matériaux et procédés d'emballage pour les industries alimentaires, cosmétiques et pharmaceutiques Frédéric Debeaufort, Kata Galić, Mia Kurek, Nasreddine Benbettaieb, Mario Ščetar, 2022-01-01 Les produits alimentaires, cosmétiques et pharmaceutiques sont soumis à des contraintes d'hygiène et de qualité qui ne peuvent être garanties, après les étapes de transformation, que par un conditionnement adéquat. Cet ouvrage propose un état de l'art des connaissances actuelles dans le domaine de l'emballage, tant au niveau des matériaux, de leurs composition et

propriétés, que de leur application. Il décrit les matériaux utilisés, qu'ils soient traditionnels (bois, papier, carton, verre, métal), plastiques, complexes et multicouches, biomatériaux et bioplastiques, et présente les systèmes de fermetures, les auxiliaires et l'étiquetage, ainsi que les emballages actifs et intelligents. Les aspects réglementaires et de sécurité du consommateur sont également précisés pour chacun des matériaux. Enfin, il étudie l'adéquation entre les caractéristiques des aliments et les matériaux/procédés d'emballage.

Crossing the Quality Chasm Institute of Medicine, Committee on Quality of Health Care in America, 2001-08-19 Second in a series of publications from the Institute of Medicine's Quality of Health Care in America project Today's health care providers have more research findings and more technology available to them than ever before. Yet recent reports have raised serious doubts about the quality of health care in America. Crossing the Quality Chasm makes an urgent call for fundamental change to close the quality gap. This book recommends a sweeping redesign of the American health care system and provides overarching principles for specific direction for policymakers, health care leaders, clinicians, regulators, purchasers, and others. In this comprehensive volume the committee offers: A set of performance expectations for the 21st century health care system. A set of 10 new rules to guide patient-clinician relationships. A suggested organizing framework to better align the incentives inherent in payment and accountability with improvements in quality. Key steps to promote evidence-based practice and strengthen clinical information systems. Analyzing health care organizations as complex systems, Crossing the Quality Chasm also documents the causes of the quality gap, identifies current practices that impede quality care, and explores how systems approaches can be used to implement change.

Ángeles Rodríguez Domenech,2021-10 La Escuela debe estar al servicio de la comunidad, compartir sus deseos, ayudar a encontrar soluciones a los problemas de la ciudadanía. No es una opción de la escuela, es una obligación ética e incluso moral. La Escuela no puede reunir a profesionales cualificados que forman y capacitan a nuestros jóvenes y permanecer cómodamente cerrando a sus puertas a los problemas de su comunidad. Esta responsabilidad hacia la sociedad es particularmente compartida por las Ciencias Sociales y, más concretamente, a la disciplina de Geografía, ámbito donde surgió el Proyecto ¡Nosotros Proponemos!

La emoción de leer. Leer las emociones. Lectura para el desarrollo personal en jóvenes y adolescentes Paulo Cosín Fernández,2023-02-01 Sentiremos la esperanza, el honor, el amor, la culpa, la infidelidad, la ira, la indignación, el placer, la amistad... Y todo, ¿para qué? Para disfrutar al máximo de los libros y, al tiempo, conocer mejor nuestras emociones, pues ese autoconocimiento nos conducirá al bienestar emocional. Paulo Cosín nos ofrece un libro de una claridad encomiable en un tema que es fundamental. Su propuesta podría llamarse 'la lectura apasionada': intensa, vehemente, vital, de entrega a las tribulaciones y triunfos de los personajes para experimentarlo todo con ellos. Esta 'lectura apasionada' expande nuestra interioridad y, por consiguiente, nuestra capacidad compasiva. Pero, como explica muy bien el autor, esta pasión, ciega en sí misma, debe encaminarse mediante el diálogo reflexivo. Esteban Laso. Psicólogo experto en terapia emocional Instituto Zapopán. Guadalajara. México Damos la bienvenida al maravilloso mundo de la lectura apasionada. ¡Pasen y lean! Y, sobre todo, EMOCIÓNENSE.

Biostatistics Wayne W. Daniel,Chad L. Cross,2018-11-13 The ability to analyze and interpret enormous amounts of data has become a prerequisite for success in allied healthcare and the health

sciences. Now in its 11th edition, *Biostatistics: A Foundation for Analysis in the Health Sciences* continues to offer in-depth guidance toward biostatistical concepts, techniques, and practical applications in the modern healthcare setting. Comprehensive in scope yet detailed in coverage, this text helps students understand—and appropriately use—probability distributions, sampling distributions, estimation, hypothesis testing, variance analysis, regression, correlation analysis, and other statistical tools fundamental to the science and practice of medicine. Clearly-defined pedagogical tools help students stay up-to-date on new material, and an emphasis on statistical software allows faster, more accurate calculation while putting the focus on the underlying concepts rather than the math. Students develop highly relevant skills in inferential and differential statistical techniques, equipping them with the ability to organize, summarize, and interpret large bodies of data. Suitable for both graduate and advanced undergraduate coursework, this text retains the rigor required for use as a professional reference.

An Aging World Kevin G. Kinsella, Victoria Averil Velkoff, 2001 Provides statistical information on the worldwide population of people 65 years old or older.
