**Newspapers, War and Society in the 20th Century** Siân Nicholas, Tom O'Malley, 2020-06-04 This book offers fresh research and insights into the complex relationship between the press, war, and society in the 20th century, by examining the role of the newspaper press in the period c.1900- 1960, with a particular focus on the Second World War. During the warfare of the 20th century, the mass media were used to sustain domestic morale and promote combatants' views to an international audience. Topics covered in this book include British newspaper cartoonists' coverage of the Russo- Japanese War, the role of the French press in Anglo- French diplomacy in the 1930s, Irish press coverage of Dunkirk and D- Day, government censorship of the press in wartime Portugal, the reporting of American troops in North Africa, and how the Greek press became the focus of British government propaganda in the 1940s. Particular attention is given to the role of the British press in the Second World War: its coverage of evacuation, popular politics, and D- Day; the war as seen through commercial press advertising; the wartime Daily Mirror; and Fleet Street's role as a 'national' press in wartime. This book explores how- and why- newspapers have presented wars to their readers, and the importance of the press as an agent of social and political power in an age of conflict. This book was originally published as a special issue of Media History.

**The Making of China's Exchange Rate Policy** Leong H. Liew, Harry X. Wu, 2007 This book examines the major economic and political factors influencing China's exchange rate policies from the foundation of the People's Republic to the present. It considers how national economic and political priorities, international influences, domestic institutional interests and the new constraints imposed by China's rapidly globalising post-Mao economy determine exchange rate policy. The authors argue that China's exchange rate decisions were not made simply in response to external pressures, rather that they were formed on the basis of domestic assessments of domestic circumstances to serve domestic interests. They go on to illustrate that such decisions are made on the basis of what policymakers perceive are the nation's best interests, and thus constitute dynamic interplay between national priorities and the interests of institutional and non-institutional actors in the policy arena. Fulfilling the demand for further research on how China formulates exchange rate policy, this book will strongly appeal to a wide-ranging audience including: students, academics and researchers with an interest in political economy, Asian studies, international relations, comparative politics, international business and international economics and finance. Policymakers and bankers will also find much to interest them in this book.

*Sex and the American Teenager* R. Murray Thomas, 2009-07-23 *Sex and the American Teenager* provides an expert's assessment of the controversies surrounding the sexual development of adolescents, and their beliefs and problems regarding such matters. Using numerous case studies, Dr. Thomas illustrates specific ways that sexual issues arise in school and the variables that impact each case, while suggesting ways parents and school officials can deal with problematic situations. Though not simply statistics-laden, Dr. Thomas's book is replete with information about teenagers who engage in sexual acts, become pregnant, are sexually abused, and contract sexually transmitted diseases. Dr. Thomas also discusses the coping methods teenagers use, and he describes the types of sex education programs in which students are most likely to participate. Dozens of case studies illustrate how problems of students' sexual behavior can differ from one incident to another depending on the teenagers' ages, family backgrounds, school settings, and the culture of the surrounding communities. Thomas concludes the book by summarizing the recent past and speculating about the likely status of sex in schools in the years ahead.

**International Multiparty Mediation and Conflict Management** Sinisa Vukovic, 2015-10-05 This volume aims to provide a detailed explanation of the effects of cooperation and coordination on international multiparty mediation in conflicts. Contemporary scholarship stresses that the crucial ingredients for a successful multiparty mediation are 'consistency in interests' and 'cooperation and coordination' between mediators. This book seeks to supplement that understanding by investigating how much the 'consistency of interests' and 'cooperation and coordination' affect the overall process, and what happens to the mediation process when mediating parties do not share the same idea and interest in finding a common solution. At the same time, it explores the obstacles in achieving coordination and coherence between various mediators in such an environment and how to surmount the problems that multiple mediators face when operating without a 'common script' in attempting to mediate a negotiated settlement. The study investigates three distinct mechanisms (both on the systemic and contextual level) that have the potential to deter defection from a (potential) member of the multiparty mediation coalition: geo-political shifts, changes in the conflict dynamics, and mediators' ability to bargain for a cooperative relationship. As the number of states and international actors that are involved in mediation increases, a careful assessment is necessary not only of their relative institutional strengths and weaknesses, but also of how to promote complementary efforts and how to synchronize the whole process when one actor is transferring the responsibilities for mediation to others. This book will be of much interest to students of mediation, conflict management, war and conflict studies, security studies and IR.

**Henry Friendly, Greatest Judge of His Era** David M. Dorsen, 2012-03-27 Henry Friendly is frequently grouped with Oliver Wendell Holmes, Louis Brandeis, Benjamin Cardozo, and Learned Hand as the best American jurists of the twentieth century. In this first, comprehensive biography of Friendly, David M. Dorsen opens a unique window onto how a judge of this caliber thinks and decides cases, and how Friendly lived his life. During his time on the Court of Appeals for the Second Circuit (1959-1986), Judge Friendly was revered as a conservative who exemplified the tradition of judicial restraint. But he demonstrated remarkable creativity in circumventing precedent and formulating new rules in multiple areas of the law. *Henry Friendly, Greatest Judge of His Era* describes the inner workings of Friendly's chambers and his craftsmanship in writing opinions. His articles on habeas corpus, the Fourth Amendment, self-incrimination, and the reach of the state are still cited by the Supreme Court. Dorsen

draws on extensive research, employing private memoranda between the judges and interviews with all fifty-one of Friendly's law clerks—a veritable Who's Who that includes Chief Justice John R. Roberts, Jr., six other federal judges, and seventeen professors at Harvard, Yale, Stanford, and elsewhere. In his Foreword, Judge Richard Posner writes: "David Dorsen has produced the most illuminating, the most useful, judicial biography that I have ever read . . . We learn more about the American judiciary at its best than we can learn from any other . . . Some of what I've learned has already induced me to make certain changes in my judicial practice."

**Il caos prossimo venturo** Prem Shankar Jha, 2015-12-03T00:00:00+01:00 Sintesi innovativa di teoria politica ed economica, *Il caos prossimo venturo* mette in discussione molti dei preconcetti abituali sull'impatto della globalizzazione e getta una nuova luce sulle conseguenze mondiali del processo di industrializzazione. Prem Shankar Jha, uno dei massimi eco-nomisti indiani, racconta l'evoluzione del capitalismo secondo una scansione in quattro fasi, a partire dalla sua nascita nei comuni italiani fino all'attuale dimensione planetaria, evidenziando come alla fine di ogni periodo il capitalismo distrugga i propri «contenitori» per estendere lo scenario delle proprie attività, dando vita a situazioni di instabilità e di violenza. Oggi il capitalismo globale considera limitante qualunque tipo di istituzione, dal welfare state agli stati nazionali, mentre le istituzioni non hanno ancora avviato un profondo processo di revisione dei propri ruoli e del proprio funzionamento. Quella che si prospetta è una lunga stagione di disordine sociale e disequilibrio economico, assieme a nuove e pericolose forme di unilateralismo e a uno scenario di guerra permanente popolato da eserciti, di soldati o terroristi, in costante attività. Un'opera innovatrice e pionieristica, una storia globale del capitalismo scritta da un grande studioso indiano, una riflessione sul mondo contemporaneo che nasce nel cuore del conflitto tra progresso e caos. «Il valore di un libro sulla situazione attuale del pianeta non si misura nel suo essere speranzoso o disincantato, ma nell'aiutarci a capirla, ovvero nel fornire una comprensione storica della crisi presente. Il libro straordinariamente intelligente, lucido e problematico di Prem Shankar Jha supera questa prova a pieni voti. È una lettura fondamentale per la prima decade di questo terzo millennio.[...] Diversamente dalla gran parte delle opere sulla globalizzazione, in genere scritte in Europa o nel Nord America, la voce di Jha ci arriva dall'India, la regione che probabilmente sarà il fulcro del mondo del XXI secolo, ma il cui spettacolare sviluppo coincide con il "caos sistemico" in cui l'economia globale si trova immersa [...]. È per questo che l'autore è più acutamente consapevole dei problemi creati dall'attuale fase della globalizzazione capitalistica, rispetto agli economisti di scuola neoliberista che esaltano le virtù del mercato, per non parlare dell'enclave degli esperti di questioni economiche». Dalla Premessa di Eric Hobsbawm «Un saggio profondo, documentato e passionale. Dovrebbe essere letto da chiunque abbia a cuore il destino delle società del mondo». Giovanni Arrighi, Johns Hopkins University «Prem

Jha è tra i pochi esperti di globalizzazione a venire da un paese in via di sviluppo. Il suo lavoro descrive le grandi possibilità di un mondo globale e mette in guardia dalle trappole pericolose che vi si nascondono». Shashi Tharoor, sottosegretario generale degli Affari pubblici delle Nazioni Unite «Una delle poche analisi radicalmente nuove che viene da uno studioso non occidentale, capace di sfidare molti degli assunti ideologici che i critici della globalizzazione danno per scontati». Business Today

**Volcano and Geothermal Tourism** Patricia Erfurt-Cooper, Malcolm Cooper, 2010 There are over 1300 active volcanoes worldwide and many more dormant or extinct. Some are developed as tourist destinations; others are not, but have great potential. Mount Fuji in Japan attracts over 100 million visitors per year and has immense cultural and spiritual significance, while a number of volcanic areas in national parks, for example Teide in Spain, Yellowstone in the US, Vesuvius in Italy and Tongariro in New Zealand, attract between one to four million tourists each year. In the last decade the designation of nearly 50 geoparks around the world has highlighted their potential for tourism development. This book provides the first global review and assessment of the sustainable use of active and dormant volcanic and geothermal environments for geotourism. The volcano-based tourism sector is further augmented through a closely linked range of geothermal resources and attractions, such as geysers and hot springs, which are discussed in detail throughout individual chapters covering all key volcanic and geothermal regions around the world. It is shown that volcano and geothermal tourism is a subsection of nature-based geotourism and incorporates a variety of other tourism categories such as adventure tourism, extreme tourism, ecotourism, green tourism, educational tourism, and hot spring tourism. This comprehensive book covers the most important issues of this growing tourism sector whilst incorporating relevant global research, making it an essential resource for all in the field. Includes colour plates.
