The Academic Research Library in A Decade of Change Reg Carr, 2007-01-31

This book starts from the premise that the last decade has brought more changes for the academic research library than any ever previously known. The book provides an authoritative overview and analysis of the issues and challenges affecting academic research libraries from the closing years of the 20th century onwards. While the focus on this period of white water change is primarily British, with a number of case studies based on the transformative initiatives of the UKs Joint Information Systems Committee (JISC) and its seminal Electronic Libraries Programme (eLib), as well as on the Bodleian Libraries far-reaching responses to the complex demands of the digital age, the issues themselves are presented in their global context, with implications drawn for research libraries everywhere. Written by one of the worlds leading academic research librarians Provides a comprehensive overview of the factors at work in an exceptionally significant and fast-moving decade of research library development Contains personal insights into many of the key library and information initiatives of recent years

The Contamination of the Earth Francois Jarrige, Thomas Le Roux, 2021-11-16

The trajectories of pollution in global capitalism, from the toxic waste of early tanneries to the poisonous effects of pesticides in the twentieth century. Through the centuries, the march of economic progress has been accompanied by the spread of industrial pollution. As our capacities for production and our aptitude for consumption have increased, so have their byproducts--chemical contamination from fertilizers and pesticides, diesel emissions, oil spills, a vast plastic continent found floating in the ocean. The Contamination of the Earth offers a social and political history of

industrial pollution, mapping its trajectories over three centuries, from the toxic wastes of early tanneries to the fossil fuel energy regime of the twentieth century.

Handbook of Research on Quality and Competitiveness in the Healthcare Services Sector Akkucuk, Ulas, 2023-03-24 It has become clear that managing and maintaining state-of-the-art healthcare facilities is more important than ever before. Street Matters Fernando Lara, Ana Paula Koury, 2022-05-03 Street Matters links urban policy and planning with street protests in Brazil. It begins with the 2013 demonstrations that ostensibly began over public transportation fare increases but quickly grew to address larger questions of inequality. This inequality is physically manifested across Brazil, most visibly in its sprawling urban favelas. The authors propose an understanding of the social

and spatial dynamics at play that is based on property, labor, and security. They stitch together the history of plans for urban space with the popular protests that Brazilians organized to fight for property and land. They embed the history of civil society within the history of urban planning and its institutionalization to show how urban and regional planning played a key role in the management of the social conflicts surrounding land ownership. If urban and regional planning at times benefited the expansion of civil rights, it also often worked on behalf of class exploitation, deepening spatial inequalities and conflicts embedded in different city spaces.

Para Além de FHC: A Reforma Gerencial da Administração Pública Brasileira na Era Lula Giorgio Forgiarini, 2020-08-12 PSDB e PT polarizaram o cenário político brasileiro da segunda metade da década de 1990 até a primeira metade da década de 2010. Ao assumir o Governo Federal em 1995, o PSDB, capitaneado por Fernando Henrique Cardoso, deu início a profundas reformas na estrutura e na legislação aplicável à Administração Pública, apesar da forte resistência da oposição liderada pelo partido petista. Em 2002, ao derrotar nas urnas o PSDB, de José Serra, o PT, de Luiz Inácio Lula da Silva, teve a chance de estancar e, até mesmo, reverter a reforma iniciada por seu antecessor. No entanto, será que efetivamente o fez? Responder uma pergunta tão complexa não é tarefa simples. Além da retórica governamental e de números referentes à política de pessoal da Administração Pública, devem ser analisadas também proposições legislativas, medidas administrativas e políticas públicas pontuais, para que se chegue a um diagnóstico preciso. Eis, então, o que se pretende com a presente obra.

As dimensões do direito à moradia Arleide Meylan, 2024-01-22 O presente livro é fruto de uma pesquisa que analisou as interfaces entre mulher, direito à moradia e habitação de interesse social, a partir do diálogo entre a pesquisa empírica e a análise doutrinária e, nesse sentido, dedicou-se a analisar um recorte territorial, através de coleta de dados etnográficos junto às mulheres do projeto de construção habitacional de interesse social denominado Novo Bairro, como também da análise descritiva etnográfica do Município de Santa Rita, no Estado da Paraíba, Brasil, e do bairro Marcos Moura, onde o referido projeto habitacional estava se desenvolvendo. Dessa forma, busca-se identificar as variadas dimensões, significados, conceitos e ações envolvendo a representação do direito à moradia naquela comunidade e na

cidade, especialmente, sob a ótica das mulheres do referido projeto. Sendo relevante mencionar sobre a dimensão do próprio direito à cidade, nesse contexto em que muitos conflitos evidenciam um processo dialético entre o sistema jurídico brasileiro e a realidade vivenciada pelas mulheres e pela própria comunidade.

O direito à moradia e as políticas públicas Rodrigo Marcellino da Costa Belo, 2022-01-28 O presente trabalho refere-se à dissertação com a qual obteve o grau de mestre em Direito pela Universidade Federal do Estado do Rio de Janeiro e versa sobre o tema do direito à moradia, uma garantia fundamental tardiamente incorporada pela Constituição da República Federativa do Brasil

de 1988 (CRFB/88) por meio da Emenda Constitucional n. 26, de 14 de fevereiro de 2000. No entanto, a essencialidade da moradia para a construção de uma vida digna já era um tema reconhecido pelo Direito, tanto que se buscava a sua extração, mesmo que de forma implícita, de outras normas constitucionais. A grande dificuldade que há com relação à construção do direito à moradia é justamente a busca de sua efetivação, uma vez que, entre todos os direitos fundamentais, há grande complexidade fática para a sua realização, pois está muito ligado à dinâmica realidade social, que certamente varia, a depender do contexto em que é analisado. A melhor forma de se efetivar o direito à moradia é por meio das nominadas políticas públicas, atividades delegadas ao Estado por normas constitucionais e que encontra respaldo no art. 23, inc. IX, da CRFB/88, quando determina caber aos entes federados a criação de programas de moradia. Para que essas políticas sejam dotadas de eficácia na realização da efetividade do direito à moradia, é necessário que atendam, em alguma medida, ao núcleo essencial deste direito, ou seja, aos seus elementos básicos.

Estudos Aplicados de Direito Empresarial - LL.C. em Direito Empresarial Pamela Romeu Roque, 2019-12-01 O profissional do Direito atuante no ambiente empresarial já há muito tempo enfrenta a necessidade de constantemente compreender a realidade de seus clientes e pensar criticamente sobre os riscos a que estes estão submetidos. (...) De um lado, é preciso que o advogado contemporâneo, em qualquer espectro de atuação, do contencioso ao consultivo, seja capaz de articular conceitos de mais de apenas um ramo do Direito para efetivamente contribuir para a solução de problemas cada vez

mais complexos, os quais não ficam estanques em uma única caixa de conhecimento jurídico. De outro lado, este profissional também precisa adequar sua prática à realidade empresarial, a qual está sujeita a repercussões não apenas estritamente legais, mas também contábeis, econômicas, financeiras, reputacionais, dentre outras. Pois bem, este terceiro volume da coleção Estudos Aplicados de Direito Empresarial - LL.C. em Direito Empresarial reflete justamente a capacidade de seus articulistas de responder ao contexto acima relatado. Os cinco artigos aqui presentes foram selecionados dentre os trabalhos que foram desenvolvidos no âmbito do programa de pós-graduação LL.C. em Direito Empresarial do Insper Direito por terem recebido as melhores avaliações. E não poderia ser diferente: todos apresentam pertinência com a atualidade e trazem reflexões necessárias e úteis a profissionais do mundo empresarial. In Apresentação de Pamela Romeu Roque

Everyday Law for Individuals with Disabilities Ruth Colker, Adam A. Milani, 2015-11-17 If you are an individual with a disability and believe you have been discriminated against, it is often hard to find a lawyer to help remedy your situation. Accordingly, 'self-help' may often be your most, or your only, viable strategy. But how to proceed? This book serves as a badly needed practical guide to disability discrimination law. Covering a wide range of issues faced by individuals with different kinds of disabilities, it not only describes those individuals' legal rights but also suggests solutions to disability discrimination issues that are more practical and less expensive than filing a lawsuit. Written by two disability law experts, Ruth Colker, whose son is developmentally disabled, and Adam Milani, who is paralyzed from the chest down, this book is informed by their scholarly

expertise but is also based on their collective practical experience from years of navigating issues of disability discrimination. *Everyday Law for Individuals with Disabilities* is the first in a series of practical guides to the law, organized by series editors Richard Delgado and Jean Stephancic, packed with useful overviews and advice for the people who need it most and can least afford it.

Seguros de habitação e automóvel no Brasil Vivileine Maria Peres, 2023-04-04 Uma obra para entender, em números, a concentração e demanda no mercado segurador de automóvel e de habitação no Brasil, valendo-se da economia, econometria e estatística. Apresenta tabelas para replicação do método em outros estudos. O presente livro mostra e explica dois estudos referentes ao mercado segurador no Brasil. Primeiramente, no período de 2001 a 2016, utilizando dados mensais de prêmio em reais de todas as empresas nos ramos de habitação e de automóvel para analisar a estrutura de mercado para cada ano. Depois, mostra a estimação da demanda por seguros de automóvel das Unidades Federativas em relação ao valor do prêmio, por meio de dados semestrais de 2002 a 2010, em cada uma das 27 Unidades Federativas do Brasil. O estudo conclui, na primeira parte, em relação à estrutura de mercado, que existe concentração de mercado no setor de habitação, mas que não há no ramo de automóvel. Ainda, indica como a variação do prêmio afeta a demanda por seguro

de automóvel na segunda parte. São usados diferentes índices para assegurar o entendimento adequado do método e das conclusões. Palavras-chave: mercado segurador, ramo de automóvel, ramo de habitação, estrutura de mercado, demanda por seguros.
