**The Eternal Revolution** Hamad Albloshi,2016-04-27 More than three decades have passed since the establishment of the Islamic Republic of Iran in 1979. In that time, theories of modern revolution would suggest a retreat from ideological goals, heralding a phase of institutional development. However, Hamad Albloshi argues that Iran is unique: the current rhetoric of conservative Iranian leaders implies the regime has not left its revolutionary stage. Through an examination of the hardline conservative ideology in Iran-personified by the former president, Mahmoud Ahmadinejad-this book explores how the usual development seen in revolutions from radical discourse to pragmatic rhetoric has not been the case in Iran. Albloshi explores the evolution of the hardline conservatives and their main ideas about the nature of the Iranian regime, their position toward other groups within the system, and their approach to the international community. By doing so, he sheds new light on the group's position in the country and the ideological roots of major shifts that occurred in Iran's internal and external policies in the period between 2005 and 2013.

*EU-Russian Border Security* Serghei Golunov,2012-10-02 The land border between Russia and the European Union is one of the longest land borders in the world, with very considerable trade flowing across the border in both directions. This book examines the nature of the EU-Russia border, and the issues connected with its management. It describes the territories and the societies on each side of the border, discusses the challenges which confront border management, including migration and criminal activities, and explores how people on both sides perceive each other and perceive threats and security issues. It concludes by assessing achievements to date in managing the border

and by assessing continuing unresolved challenges.

**Law Enforcement Information Technology** James Chu, 2001-06-21 ARE YOU PREPARED FOR THE LAW ENFORCEMENT IT REVOLUTION? Law enforcement agencies that are laggards in Information Technology (IT) will soon, if not already, be considered mismanaged. Whether you are in an operational position, or you are a police officer who aspires to a higher rank, you must be aware of how IT can help you perform your job and hel

**Countering the Financing of Terrorism** Thomas J. Biersteker, Sue E. Eckert, 2007-09-12 Groups committing acts of terrorism have adapted their means of financing to elude detection since the 9/11 attacks in the United States. Surveying the global community's multi-year effort to cut off terrorist funding, this volume offers a much-needed analysis of a complex, widely discussed, yet poorly understood subject. While books on terrorism have touched upon the topic, this is the first comprehensive, balanced, and scholarly overview of terrorist financing, its methods, and efforts to counter it. Bringing together leading analysts of terrorism, international relations, global finance, law, and criminology, *Countering the Financing of Terrorism* provides a critical assessment of the international effort to restrict terrorist financing. It evaluates the costs and benefits and offers recommendations for more effective policies for the future.

Freedom of Expression in Islam Muhammad Khalid Masud, Kari Vogt, Lena Larsen, Christian Moe, 2021-01-28 In Muslim countries, apostasy and blasphemy laws are defended on the grounds that they are based on Islamic Shari'a and intended to protect religion. But blasphemy and apostasy laws can be used both to suppress thought and debate and to harass religious minorities, both inside and outside Islam. This book – comprising contributions from Muslim scholars, experts and activists - critically and constructively engages with the theological, historical and legal reasoning behind the

most restrictive state laws around the world to open up new ways of thinking. The book focuses on the struggle within Muslim societies in Iran, Egypt, Pakistan and Indonesia where blasphemy and apostasy laws serve powerful groups to silence dissent and stifle critical thought. The first part of the book covers the development of the law in shifting historical circumstances and surveys the interpretations of Qur'anic verses that seem to affirm freedom of religion. The second part examines the present politics and practices of prosecuting alleged blasphemers and/or apostates in Muslim countries. The third part looks to the future and where reforms of the law could be possible. Debates on Islam and freedom of expression are often cast in polarizing terms of rights versus religion, East versus West. This volume avoids such approaches by bringing together a diverse group of Muslim scholars and activists with the knowledge, commitment and courage to contest repressive interpretations of religion and provide a resource for reclaiming the human rights to freedom of expression and belief.

*Bite Back* Saru Jayaraman, Kathryn De Master, 2020 The food system is broken, but there is a revolution underway to fix it. *Bite Back* presents an urgent call and vision for disrupting corporate power in the food system, a vision shared with countless organizers and advocates worldwide. In this provocative and inspiring new book, editors Saru Jayaraman and Kathryn De Master bring together leading experts and activists who are challenging corporate power by addressing injustices in our food system, from wage inequality to environmental destruction to corporate bullying. Each topical section presents an overview of a problem related to corporate control of the food system and then offers the story of a successful organizing campaign that tackled the problem. This unique solutions-oriented book allows readers to explore the core contemporary challenges embedded in our food system and learn how people and communities can push back against corporate greed to benefit

workers and consumers everywhere. It is essential reading for anyone interested in food today--

**Public Law in East Asia** Albert H.Y. Chen, 2017-07-05 Public Law in East Asia is a collection of the leading English-language articles on constitutional and administrative law in the Asian region, written by many of the leading scholars from this area. The region has its own distinct legal and political traditions, and its systems of government have facilitated dynamic economic growth, but the role of public law has not been well understood. Covering a wide range of jurisdictions in a single volume, this collection provides insights into the ways in which institutions of Western origin have been integrated into Asian political and legal cultures, producing new syntheses.

**Unfunding Terror** Jimmy Gurulé, 2010-01-01 Jimmy Gurulé knows how to bankrupt terrorists like few others do. As Undersecretary of the Treasury for Enforcement, he spearheaded the fight against al-Qaeda's global bank accounts, helping to earn the highest grade awarded on the 9/11 Commissioners report card. As an author, he performs once again. Unfunding Terror provides policymakers and laymen alike a clear roadmap on how to keep terrorists out of the global financial system. Timothy J. Roemer, Center for National Policy, former US Congressman and member of the National Commission on Terrorist Attacks Upon the United States (9/11 Commission) Jimmy Gurulé has given us a superbly comprehensive and well-written assessment of why, regarding terrorism, Deep Throat's principle is bang on: follow the money. R. James Woolsey, venture partner, VantagePoint, and former Director of Central Intelligence, US A detailed study by a true scholar-practitioner, Unfunding Terror explains the legal response to terror finance in language accessible to both the expert and layman. Required reading. Matthew Levitt, Director, Stein Program on Counterterrorism and Intelligence, The Washington Institute for Near East Policy and former Deputy Assistant Secretary of the Treasury for Intelligence and Analysis, US Professor Gurulé is

comprehensive: he describes the problem (terrorist funding by those in the free world), analyzes the legal responses (make it a crime, freeze terrorist assets, impose regulations on financial institutions), critiques the administration's and international community's efforts to unfund terrorists (political rhetoric, not in fact backed up with effective strategies or implementation), and outlines concrete legal and administrative remedies. Would that they to whom the recommendations are addressed act on them quickly. Too much is at stake to let terrorists, who condemn the West as corrupt, get their funding to attack the US and its allies from the West itself. That would be a form of social suicide. G. Robert Blakey, Notre Dame Law School, US The September 11, 2001 terrorist attacks that claimed the lives of 2,973 innocent civilians required as much as \$500,000 to stage. At the time, al Qaeda was operating on an annual budget of between \$30 and \$50 million. However, despite the obvious fact that terrorists need money to terrorize, preventing the financing of terrorism was not a priority for the United States or the international community prior to 9/11. Jimmy Gurulé, former Under Secretary for Enforcement in the US Department of the Treasury, provides the first book-length, comprehensive analysis of the legal regime that evolved following the terrorist attacks. The book begins with a discussion of how shutting down the pipelines of funding is as important as dismantling the terrorist cells themselves. Next, the book covers the various means and methods used by terrorist groups to raise money, and examines how money is transferred globally to finance their lethal activities. The principal components of the legal strategy to disrupt the financing of terrorism are then discussed and evaluated. Unfortunately, the author concludes that the legal regime has met with mixed results, and finds that the sense of urgency to deprive terrorists of funding that existed following 9/11 has since dissipated. As a result, international efforts to freeze terrorist assets have dramatically declined. Moreover, the US Department of Justice has

suffered several embarrassing and disappointing legal defeats in prosecuting major terrorist financiers. The author provides numerous recommendations to Congress, the Executive Branch, and the UN Security Council for strengthening the legal regime to deny terrorists the money needed to wage global jihad, acquire weapons of mass destruction, and launch another terrorist attack on the scale of 9/11. *Unfunding Terror* fills an important gap in the literature and will be essential reading for counter-terrorism experts, law enforcement and national se

**Securing Africa** Malinda S. Smith, 2016-04-01 This meticulously researched, forcibly argued and accessibly written collection explores the many and complex ways in which Africa has been implicated in the discourses and politics of September 11, 2001. Written by key scholars based in leading institutions in Canada, the United States, the Middle East and Africa, the volume interrogates the impact of post-9/11 politics on Africa from many disciplinary perspectives, including political science, sociology, history, anthropology, religious studies and cultural studies. The essays analyze the impact of 9/11 and the 'war on terror' on political dissent and academic freedom; the contentious vocabulary of crusades, clash of civilizations, barbarism and 'Islamofascism'; alternative genealogies of local and global terrorism; extraordinary renditions to black sites and torture; human rights and insecurities; collapsed states and the development-security merger; and anti-terrorism policies from George W. Bush to Barack Obama. This is a much-needed meditation on historical and contemporary discourses on terrorism.

**Perspectives on Genetic Discrimination** Thomas Lemke, 2013-07-18 Over the past 15 years, a series of empirical studies in different countries have shown that our increasing genetic knowledge leads to new forms of exclusion, disadvantaging and stigmatization. The spectrum of this genetic discrimination ranges from disadvantages at work, via problems with insurance policies, to

difficulties with adoption agencies. The empirical studies on the problem of genetic discrimination have not gone unnoticed. Since the beginning of the 1990s, a series of legislative initiatives and statements, both on the national level and on the part of international and supranational organizations and commissions, have been put forward as ways of protecting people from genetic discrimination. This is the first book to critically evaluate the empirical evidence and the theoretical usefulness of the concept of genetic discrimination. It discusses the advantages and limitations of adopting the concept, and offers a more complex account distinguishing between several dimensions and forms of genetic discrimination.

Religious Secularity Naser Ghobadzadeh, 2017-02-09 Fundamentalism and authoritarian secularism are commonly perceived as the two mutually exclusive paradigms available to Muslim majority countries. Recent political developments, however, have challenged this perception. Formerly associated with a fundamentalist outlook, mainstream Islamist groups, such as the Muslim Brotherhood and Al-Nahda, have adopted a distinctly secular-democratic approach to the state rebuilding process. Their success or failure in transitioning to democracy remains to be seen, but the political position these Islamic groups have carved out suggests the viability of a third way. Naser Ghobadzadeh examines the case of Iran, which has a unique history with respect to the relationship of religion and politics. The country has been subject to both authoritarian secularization and authoritarian Islamization over the last nine decades. While politico-religious discourse in Iran is articulated in response to the Islamic state, it also bears the scars of Iran's history of authoritarian secularization-the legacy of the Pahlavi regime. Ghobadzadeh conceptualizes this politico-religious discourse as religious secularity. He uses this apparent oxymoron to describe the Islamic quest for a democratic secular state, and he demonstrates how this concept encapsulates the complex

characteristics of the Shiite religious reformation movement.

**Disaster Recovery Testing** Philip Jan Rothstein,2007-09 Rather than providing readers with only one perspective on testing contingency plans, Mr. Rothstein has taken the powerful approach of carefully assembling a panel of thirty professionals to contribute their unique expertise in 36 detailed chapters, 350+ pages,covering such subject areas as:- test planning and management, including management's role, budgeting, justification and politics- test participants and resources, including professional development, human factors, the test team, self-assessment, the roles of vendors, consultants, auditors, clients, software- testing methods, including walkthroughs, simulations, joint testing, surprise testing, real disasters as the ultimate test- what is being tested, including business units, locations, data centers, voice / data communications, trading floors, local area networks- any other practical considerations, such as test monitoring, first-time testing, feedback, reporting and follow-up;even a sample test plan is included.

*Optimizing Learning* Joan Caulfield,Siabhan May-Washington,Wayne Jennings,2022-03-15 This book offers practical ideas and solutions to help every teacher develop lessons using teaming strategies.

Last Chance in Texas John Hubner,2008-04-29 A powerful, bracing and deeply spiritual look at intensely, troubled youth, Last Chance in Texas gives a stirring account of the way one remarkable prison rehabilitates its inmates. While reporting on the juvenile court system, journalist John Hubner kept hearing about a facility in Texas that ran the most aggressive-and one of the most successful-treatment programs for violent young offenders in America. How was it possible, he wondered, that a state like Texas, famed for its hardcore attitude toward crime and punishment, could be leading the way in the rehabilitation of violent and troubled youth? Now Hubner shares the

surprising answers he found over months of unprecedented access to the Giddings State School, home to “the worst of the worst”: four hundred teenage lawbreakers convicted of crimes ranging from aggravated assault to murder. Hubner follows two of these youths—a boy and a girl—through harrowing group therapy sessions in which they, along with their fellow inmates, recount their crimes and the abuse they suffered as children. The key moment comes when the young offenders reenact these soul-shattering moments with other group members in cathartic outpourings of suffering and anger that lead, incredibly, to genuine remorse and the beginnings of true empathy . . . the first steps on the long road to redemption. Cutting through the political platitudes surrounding the controversial issue of juvenile justice, Hubner lays bare the complex ties between abuse and violence. By turns wrenching and uplifting, *Last Chance in Texas* tells a profoundly moving story about the children who grow up to inflict on others the violence that they themselves have suffered. It is a story of horror and heartbreak, yet ultimately full of hope.

*The Story of the Treasure Seekers* Edith Nesbit, 2021-01-05 *The Story of the Treasure Seekers* (1899) is a children's novel by English writer Edith Nesbit. The first book in Nesbit's beloved Bastable trilogy--which also includes *The Wouldbegoods* (1901) and *The New Treasure Seekers* (1904)--*The Story of the Treasure Seekers* is a story of family, adventure, and mystery for children and adults alike. The Bastable siblings--Dora, Oswald, Dicky, Alice, Noel, and Horace Octavius--are clever and curious children who live with their widowed father. When their mother died, their father became ill and lost his successful business, forcing the family to live modestly. Inspired by stories of buried gold and jewels--and hoping to help their struggling father--the Bastable children decide to go searching for treasure. Their adventure soon takes them to London, where they abandon digging for the allure of paying work. The Bastables come up with several schemes to make money, including

writing poetry, banditry, and starting a newspaper, in the process discovering the power of imagination and the true value of home. The Story of the Treasure Seekers is a masterpiece of children's fiction from Edith Nesbit, one of the twentieth century's children's authors. Originally published as a series of stories in several different periodicals, The Story of the Treasure Seekers was Nesbit's first novel for children. It would go on to influence both Arthur Ransome and C.S. Lewis, and is a favorite of J.K. Rowling's. With a beautifully designed cover and professionally typeset manuscript, this edition of Edith Nesbit's The Story of the Treasure Seekers is a classic of English children's literature reimagined for modern readers.

Clinical Blood Gases - E-Book William J. Malley, 2013-08-13 This text provides a thorough resource on arterial blood gases, covering the full scope of applications. This book is the first of its kind to focus on the needs of educators, students, and practitioners alike. The new edition has been completely updated, providing the latest information from the field, including facts on technical issues, basic physiology, clinical oxygenation, clinical acid base, non-invasive techniques, just to name a few. Instructor resources are available; please contact your Elsevier sales representative for details. This book's amazing content coverage offers a wealth of useful material, including illustrations, tables, examples, and case studies. This new edition is up-to-date with the latest in technology and information, ensuring the most current information is available. New figures and tables enhance the understanding of chapter material. The addition of an NBRC (National Board of Respiratory Care) Challenge at end of each chapter helps readers learn, understand, and put the information together to master the subject. The incorporation of two new On Call Cases per chapter provides further opportunity to practice clinical application of content learned, as well as helping readers utilize their critical thinking skills. Reorganized and improved table of contents presents the

material in a more logical, efficient manner.

Strategic Digest ,2010

**Beginning JavaScript** Paul Wilton,2004-07-12 What is this book about? JavaScript is the language of the Web. Used for programming all major browsers, JavaScript gives you the ability to enhance your web site by creating interactive, dynamic, and personalized pages. Our focus in this book is on client-side scripting, but JavaScript is also hugely popular as a scripting language in server-side environments, a subject that we cover in later chapters. What does this book cover? Beginning JavaScript assumes no prior knowledge of programming languages, but will teach you all the fundamental concepts that you need as you progress. After covering the core JavaScript language, you'll move on to learn about more advanced techniques, including Dynamic HTML, using cookies, debugging techniques, and server-side scripting with ASP. By the end of this book, you will have mastered the art of using JavaScript to create dynamic and professional-looking web pages. Here are a few of the things you'll learn in this book: Fundamental programming concepts Comprehensive practical tutorial in JavaScript Cross-browser scripting, including Netscape 6 Cookie creation and use Plug-ins and ActiveX controls Dynamic HTML Scripting the W3C DOM Server-side JavaScript with ASP Who is this book for? This book is for anyone who wants to learn JavaScript. You will need a very basic knowledge of HTML, but no prior programming experience is necessary. Whether you want to pick up some programming skills, or want to find out how to transfer your existing programming knowledge to the Web, then this book is for you. All you need is a text editor (like Notepad) and a browser, and you're ready to go!
