How Communities Build Stronger Schools A. Dodd, J. Konzal, 2016-03-05 If it takes a village to raise a child, Anne Wescott Dodd and Jean L. Konzal feel that it takes a community to make a school. Not content with the idea of a school being contained within four walls and existing only for a few hours every day, Dodd and Konzal know that a school which looks after the complete child exists far beyond its four walls and for the whole 24 hours in each day. They present a radical democratic vision of the public school where everyone not just students, teachers and parents plays a part in shaping our children and, consequently, our future.

Duke's Cut Cyril J. Wood, 2009-06-15 The Bridgewater Canal is distinguished as England's first canal and its development marked the beginning of a transport revolution that provided a crucial foundation for industrial and commercial development in England. Since its completion in 1765, the canal has been regularly used by commercial and passenger traffic; it was one of the major routes of the North West that helped Manchester to develop as a centre of trade and industry in the 19th century. Bridgewater canal from its conception and construction to its subsequent successes including its use as a leisure waterway today. The Palace Complex Michał Murawski, 2019-03-22 The Palace of Culture and Science is a massive Stalinist skyscraper that was gifted to Warsaw by the Soviet Union in 1955. Framing the Palace's visual, symbolic, and functional prominence in the everyday life of the Polish capital as a sort of obsession, locals joke that their city suffers from a Palace of Culture complex. Despite attempts to privatize it, the Palace remains municipally owned, and continues to play host to a variety of public institutions and services. The Parade Square, which surrounds the building, has resisted attempts to convert it into a money-making commercial center. Author Michał Murawski traces the skyscraper's powerful impact on 21st century Warsaw; on its architectural and urban landscape; on its political, ideological, and cultural lives; and on the bodies and minds of its inhabitants. The Palace Complex explores the many factors that allow Warsaw's Palace to endure as a still-socialist building in a post-socialist city.

The Counterrevolution Bernard E. Harcourt, 2018-02-27 A distinguished political theorist sounds the alarm about the counterinsurgency strategies used to govern Americans Militarized police officers with tanks and drones. Pervasive government surveillance and profiling. Social media that distract and track us. All of these, contends Bernard E. Harcourt, are facets of a new and radical governing paradigm in the United States--one rooted in the modes of warfare originally developed to suppress anticolonial revolutions and, more recently, to prosecute the war on terror. The Counterrevolution is a penetrating and disturbing account of the rise of counterinsurgency, first as a military strategy but increasingly as a way of ruling ordinary Americans. Harcourt shows how counterinsurgency's principles--bulk intelligence collection, ruthless targeting of minorities, pacifying propaganda--have taken hold domestically despite the absence of any radical uprising. This counterrevolution against phantom enemies, he argues, is the tyranny of our age. Seeing it clearly is the first step to resisting it effectively.
