Final Report of the Truth and Reconciliation Commission of Canada, Volume One: Summary Truth and Reconciliation Commission of Canada,2015-07-22 This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.

Masters of the English Reformation Marcus L. Loane,2005 This book tells the story of the English Reformation. It penetrates behind the facade of political change and acts of Parliament and brings to light the inner movement of the Spirit of God in men of humble heart and heroic faith. Its author believes there was a guiding hand at the helm of the Reformation, and that this divine guidance is most clearly revealed by a detailed study of the life and motives of those who were marked out as leaders of the movement and masters of its theology. The five men chosen for this purpose were the most significant of those who laid down their lives in the cause of the English Reformation. Bilney and Tyndale represent the movement in the reign of Henry VIII; Ridley and Cranmer dominate the study in the reign of Edward VI. The life of Latimer links Bilney with Cranmer and spans the whole period from the early days of conversion in the Halls of Cambridge right on to the triumphant martyrdoms in the fires of Oxford. The forty years, from 1516 to 1556, during which these men found and followed Jesus Christ were the years in which the English Reformation was cradled and nurtured for the glory of God.--BOOK JACKET.

Specifically, the EPA is establishing: Carbon dioxide (CO 2) emission performance rates representing the best system of emission reduction (BSER) for two subcategories of existing fossil fuel-fired EGUs-fossil fuel-fired electric utility steam generating units and stationary combustion turbines; state-specific CO 2 goals reflecting the CO 2 emission performance rates; and guidelines for the development, submittal and implementation of state plans that establish emission standards or other measures to implement the CO 2 emission performance rates, which may be accomplished by meeting the state goals. This final rule will continue progress already underway in the U.S. to reduce CO 2 emissions from the utility power sector.
