Out of Bounds, Out of Control James V. DeLong,2002 People fear to dispute the agency's interpretation of its power or express doubts about the absolute primacy of its mission lest they be made into examples. The concept of intent has become so attenuated that it provides no limitation on prosecution..

Infectious Disease Pharmacotherapy Self Assessment Lea S. Eiland,Diane B. Ginsburg,2015-07-01
Infectious disease (ID) is a constant concern for pharmacy clinicians, with far too few specialists to meet the demand. That means that while more and more pharmacists are seeking the added qualification in infectious disease along with other Board Certifications, many clinical pharmacists have to meet a higher standard as de facto ID specialists. Further, treatment of infectious disease involves a good deal of grey area, which means that even the experts need a way to verify their mastery Now, Infectious Disease Pharmacotherapy Self Assessment, by Lea Eiland and Diane Ginsburg, bring you thorough and relevant cases where questions are delivered with varying degrees of difficulty, allowing you to truly gauge your level of understanding of complex ID pharmacotherapy problems. Three levels of difficulty offers users a way to assess their mastery of ID topics.

Tapping State Government Information Sources Lori L. Smith, Daniel C. Barkley, Daniel D.

Cornwall, Eric W. Johnson, J. Louise Malcomb, 2003-11-30 Each state government produces large varieties and quantities of useful information that are largely unknown outside their state of origin. This book leads the public to the most useful information sources produced by each state, as well as to depository libraries that will facilitate more effective research. For each of the 50 states, important publications are detailed, along with information on how to obtain them. The publications' topics range from crime statistics to vital statistics, business statistics, health information, statistical abstracts, education directories, state budgets, economic indicators, state laws and legal information, and more. *Tapping State Government Information Sources* has a broader focus than previously published books in this subject area, most of which have focused solely on depository laws, useful state publications, or indexes to state publications. This book covers all three. The first chapter describes print and electronic sources that provide information about all 50 states. Each state's resources are then described in individual chapters. When possible, information about how to order a copy of the source is given, as are Web addresses for titles that are available online. At the beginning of each state chapter, the state's legal definition of public document or its equivalent is given, which may be of interest to librarians in states that are reexamining their own depository laws.

Vital Statistics of the United States 2022 Shana Hertz Hattis,2022-07-30 Vital Statistics of the United States: Births, Life Expectancy, Deaths, and Selected Health Data brings together a comprehensive collection of birth, mortality, health, and marriage and divorce data into a single volume. It provides a wealth of information compiled by the National Center for Health Statistics and other government agencies. Vital Statistics contains over 225 tables and is divided into four parts: Births, Mortality, Health, and Marriage and Divorce. Charts and graphs, available at applicable points in each chapter, illustrate some of the most vital trends in the data. In addition, updated definitions reflect the latest federal parameters for information about births, mortality, health, and marriages. New COVID-19 data is woven into each section where appropriate. Some of the new tables include data on pregnant women with COVID-19, historical daily case trends, and demographic characteristics of people receiving the vaccine.
