Joleen Ed Bach,2018-04-14 After a ten-year absence, Ed Bach, author of the controversial collection of short stories, So Long, Charlie, delivers his latest and most complex novel to date, Joleen. Bachs latest work is an unsentimental look at two people struggling to make sense of the world, the beautiful but mentally unbalanced, Joleen Simmons and her clinging, colorless husband, Hush Simmons. Entering high school, Joleen becomes an immediate sensation. She is sweet, charming and very beautiful. But that sweet high school introduction abruptly ends when a lurid side of Joleen reveals itself and she is abruptly snubbed by her many friends. In college, Joleen joins a well-respected theatrical group where her natural gifts bring immediate success. She quickly maneuvers to the top only to blow it when she is given the lead in the schools featured play and is laughed from the stage. Rejected, she takes a job she hates. She becomes restless and marries a man she will soon regret. She torments her daughter yet confides in a sister who continually betrays her. She bullies her mother yet adores a womanizing, drunken father. She performs whorishly in bed with a husband she refuses to kiss. Reminiscent of April Wheeler in Richard Yates, Revolutionary Road, Joleen Simmons is a woman thrust into a life she neither wants nor accepts. No one can say for certain if Joleen is a complete nut case, mentally unbalanced, crazy, or simply someone so broken by the events of her past that she unashamedly torments and manipulates her way through life. And what of Hush Simmons, the fawning high school friend Joleen marries, divorces, then quickly lures back into bed? Is it her natural beauty that drives him to the limits of his own sanity? Her superior upbringing? Her familys wealth? Or is it Joleens raunchy behavior that steals his personal identity and turns him into a man he no longer recognizes, someone so corrupted by his wifes physical aggression that he loses sight of who he is and what he has become, a murderer? From the author of So Long, Charlie, Bach delivers an existential examination into the lives of two people at war with each other and themselves, a couple so riddled with childhood memories that their present actions only serve to drive them further and further apart. Bach offers no answers to lifes greater mysteries. Instead he brings to mind questions the reader may wonder about for years. While the story and its many characters are fictionalized, the storys central plot, is real.

Minor Re/Visions Morris Young,2004-03-12 Through a blend of personal narrative, cultural and literary analysis, and discussions about teaching, Minor Re/Visions: Asian American Literacy Narratives as a Rhetoric of Citizenship shows how people of color use reading and writing to develop and articulate notions of citizenship. Morris Young begins with a narration of his own literacy experiences to illustrate the complicated relationship among literacy, race, and citizenship and to reveal the tensions that exist between competing beliefs and uses of literacy among those who are part of dominant American culture and those who are positioned as minorities. Influenced by the literacy narratives of other writers of color, Young theorizes an Asian American rhetoric by examining the rhetorical construction of American citizenship in works such as Richard Rodriguez's Hunger for Memory, Victor Villanueva's Bootstraps: From an American Academic of Color, Carlos Bulosan's America Is in the Heart, and Maxine Hong Kingston's "Song for a Barbarian Reed Pipe" from Woman Warrior. These narratives, Young shows, tell stories of transformation through education, the acquisition of literacy, and cultural assimilation and resistance. They also offer an important revision to the American story by inserting the minor and creating a tension amid dominant discourses about literacy, race, and citizenship. Through a consideration of the literacy narratives of Hawai'i, Young also provides a context for reading literacy narratives as responses to racism, linguistic discrimination, and attempts at "othering" in a particular region. As we are faced with dominant discourses that construct race and citizenship in problematic ways and as official institutions become even more powerful and prevalent in silencing minor voices, Minor Re/Visions reveals the critical need for revising minority and dominant discourses. Young's observations and conclusions have important implications for the ways rhetoricians and compositionists read, teach, and assign literacy narratives.

Compact NMR Bernhard Blümich,Sabina Haber-Pohlmeier,Wasif Zia,2014-08-22 The goal of this book is to provide an introduction to the practical use of mobile NMR at a level as basic as the operation of a smart phone. Each description follows the same didactic pattern: introduction, basic theory, pulse sequences and parameters, beginners-level measurements, advanced-level measurements, and data processing. Nuclear Magnetic Resonance (NMR) spectroscopy is the most popular method for chemists to analyze molecular structures while Magnetic Resonance Imaging (MRI) is a non-invasive diagnostic tool for medical doctors that provides high-contrast images of biological tissue depicting the brain function and the beating heart. In both applications large super-conducting magnets are employed which magnetize atomic nuclei of an object positioned inside the magnet. Their circulating motion is interrogated by radio-frequency waves. Depending on the operating mode, the frequency spectrum provides the chemist with molecular information, the medical doctor with anatomic images, while the materials scientist is interested in NMR relaxation parameters, which scale with material properties and determine the contrast in magnetic resonance images. Recent advances in magnet technology led to a variety of small permanent magnets, by which NMR spectra, images, and relaxation parameters can be measured with mobile and low-cost instruments.

Pelican Girls Julia Malye,2024-03-05 A sweeping epic in the vein of Philipp Meyer's *The Son* and Min Jin Lee's *Pachinko* and inspired by a true story, this stunning US literary debut captures the never-before-told journey of the Baleine Brides: a ship full of young women plucked from a Paris asylum and sent to marry settlers in North America's rough Louisiana Territory. Paris, 1720. La Salpêtrière hospital is in crisis: too many occupants, not enough beds. Halfway across the world, France's colony in the wilds of North America has space to spare and needs families to fill it. So the director of the hospital rounds up nearly a hundred female "volunteers" of childbearing age—orphans, prisoners, and mental patients—to be shipped to New Orleans. Among this group are three unlikely friends: a sharp-tongued twelve-year old orphan, a mute 'madwoman,' and an accused abortionist. Charlotte, Pétronille, and Geneviève, along with the dozens of other women aboard La Baleine, have no knowledge of what lies ahead and no control over their futures. Strangers brought together by fate, these brave and fierce young women will face extraordinary adversity—pirates, slavedrivers, sickness, war—but also the private trauma of heartbreak and unrequited love, children born and lost, cruelty and unexpected pleasure, and a friendship forged in fire that will sustain through the years. At once a gorgeously written work of startling depth and emotion and a gripping drama marrying high-seas adventure with pioneer grit, *Pelican Girls* is a powerful, thought-provoking novel about female friendship and desire and the daunting compromises women are forced to make to survive.

The Bad Side of Books D.H. Lawrence,2019-11-12 You could describe D.H. Lawrence as the great multi-instrumentalist among the great writers of the twentieth century. He was a brilliant, endlessly controversial novelist who transformed, for better and for worse, the way we write about sex and emotions; he was a wonderful poet; he was an essayist of burning curiosity, expansive lyricism, odd humor, and radical intelligence, equaled, perhaps, only by Virginia Woolf. Here Geoff Dyer, one of the finest essayists of our day, draws on the whole range of Lawrence's published essays to reintroduce him to a new generation of readers for whom the essay has become an important genre. We get Lawrence the book reviewer, writing about *Death in Venice* and welcoming Ernest Hemingway; Lawrence the travel writer, in Mexico and New Mexico and Italy; Lawrence the memoirist, depicting his strange sometime-friend Maurice Magnus; Lawrence the restless inquirer into the possibilities of the novel, writing about the novel and morality and addressing the question of why the novel matters; and, finally, the Lawrence who meditates on birdsong or the death of a porcupine in the Rocky Mountains. Dyer's selection of Lawrence's essays is a wonderful introduction to a fundamental, dazzling writer.

Scientific technological Change and the Role of Women in Development Pamela D'onofrio-flores,Sheila M. Pfafflin,2019-09-13 This critique by women of male-generated and male-dominated technologies grows out of a consciousness of women as essential, yet unsalaried, participants in production processes. The authors document the ways in which women suffer from technological development in industrialized and developing countries and assess how technological developments perpetuate inequalities between nations, regions, classes, and sexes. They discuss the implementation of modern technology in agriculture and its effects on rural women, look at the position of women in the basic and applied sciences and in science policymaking, and analyze the place of women in selected technology-based industries.

Within these witty, opinionated, and astonishingly useful pages, adults and children alike will find all they need to rediscover the neglected science of writing good English. Heat Wave: A hotshot man. A woman in trouble. A magic song. Judith Arnold,2015-04-05 The Magic Jukebox sits in the Faulk Street Tavern in the quiet seaside town of Brogan's Point, Massachusetts. No one knows what classic rock songs will come out of the jukebox when a coin is inserted, but every now and then, the jukebox will play a song that casts a spell on two bar patrons—a song that will change their lives and open their hearts to love. Caleb Solomon's office air conditioner is on the fritz. Although not his choice, he winds up meeting with a difficult but profitable client in the pleasant chill of the air-conditioned Faulk Street Tavern. It's there that high school teacher Meredith Benoit finds him. Due to a silly prank, her job and her reputation are in jeopardy. She needs a lawyer, fast. Back to the Lake Thomas Cooley,2017 THIS TITLE HAS BEEN UPDATED TO REFLECT THE 2016 MLA UPDATE. A new take on the traditional rhetorical modes, showing how they are used in the kinds of writing college students are most often assigned--arguments, analyses, reports, narratives, and more.

The Writer's Practice John Warner,2019-02-05 "Unique and thorough, Warner's handbook could turn any determined reader into a regular Malcolm Gladwell." —Booklist For anyone aiming to improve their skill as a writer, a revolutionary new approach to establishing robust writing practices inside and outside the classroom, from the author of *Why They Can't Write* After a decade of teaching writing using the same methods he'd experienced as a student many years before, writer, editor, and educator John Warner realized he could do better. Drawing on his classroom experience and the most persuasive research in contemporary composition studies, he devised an innovative new framework: a step-by-step method that moves the student through a series of writing problems, an organic, bottom-up writing process that exposes and acculturates them to the ways writers work in the world. The time is right for this new and groundbreaking approach. The most popular books on composition take a formalistic view, utilizing "templates" in order to mimic the sorts of rhetorical moves academics make. While this is a valuable element of a writing education, there is room for something that speaks more broadly. *The Writer's Practice* invites students and novice writers into an intellectually engaging, active learning process that prepares them for a wider range of academic and real-world writing and allows them to become invested and engaged in their own work.

In-cell NMR Spectroscopy Yutaka Ito,Volker Dötsch,Masahiro Shirakawa,2019-12-09 In-cell NMR spectroscopy is a relatively new field. Despite its short history, recent in-cell NMR-related publications in major journals indicate that this method is receiving significant general attention. This book provides the first informative work specifically focused on in-cell NMR. It details the historical background of in-cell NMR, host cells for in-cell NMR studies, methods for in-cell biological techniques and NMR spectroscopy, applications, and future perspectives. Researchers in biochemistry, biophysics, molecular biology, cell biology, structural biology as well as NMR analysts interested in biological applications will all find this book valuable reading.

In the essay "On Translating and Being Translated," Primo Levi addresses the joys and difficulties awaiting the translator. Lynne Sharon Schwartz's *Crossing Borders: Stories and Essays About Translation* gathers together thirteen stories and five essays that explore the compromises, misunderstandings, traumas, and reconciliations we act out and embody through the art of translation. Guiding her selection is Schwartz's marvelous eye for finding hidden gems, bringing together Levi, Davis, and Oates with the likes of Michael
