Authority Jeff VanderMeer, 2014-05-06 John Rodriguez, the new head of a secret agency tasked to monitor Area X—a lush and remote terrain mysteriously sequestered from civilization—is faced with disturbing truths about himself and the agency he has sworn to serve when the secrets of Area X begin to reveal themselves. Original. 50,000 first printing.

Authority Nathan Barry, 2014-04-03 THE IDEA THAT AUTHORS CANNOT MAKE MONEY IS 100% FALSE. And no, you do not have to be famous or have a huge online following In less than one calendar year, Nathan Barry made over \$250,000 by independently publishing three books he wrote himself. Making money from book sales is wonderful but it is just the beginning. Getting a raise, landing a new job, and gaining new clients are all direct results of writing and publishing a book. In *Authority*, Nathan shows you: -How NOT to be a poor, starving author -How to establish a consistent writing habit -How to implement a successful marketing strategy -How to replace traditional publishing methods with methods that can earn far more, in far less time -How to position yourself as an AUTHORITY in your chosen field and enjoy benefits far beyond simply making money

The Authority and Interpretation of the Bible Jack Rogers, Donald K. McKim, 1999-02-05 This book is a detailed and comprehensive study of attitudes toward biblical authority and interpretation held from the beginnings of the Christian era to the present day. In clear and readable fashion, the authors examine the writings of early church fathers, the medieval exegetes, and the leaders of the Protestant Reformation to locate the source of, and refute, the position of inerrancy.

Annihilation Jeff VanderMeer, 2014-02-04 A MAJOR MOTION PICTURE FROM ALEX GARLAND, STARRING NATALIE PORTMAN AND OSCAR ISAAC The Southern Reach Trilogy begins with *Annihilation*, the Nebula Award-winning novel that reads as if Verne or Wellsian adventurers exploring a mysterious island had warped through into a Kafkaesque nightmare world (Kim Stanley Robinson). Area X has been cut off from the rest of the continent for decades. Nature has reclaimed the last vestiges of human civilization. The first expedition returned with reports of a pristine, Edenic landscape; the second expedition ended in mass suicide; the third expedition in a hail of gunfire as its members turned on one another. The members of the eleventh expedition returned as shadows of their former selves, and within weeks, all had died of cancer. In *Annihilation*, the first volume of Jeff VanderMeer's Southern Reach trilogy, we join the twelfth expedition. The group is made up of four women: an anthropologist; a surveyor; a psychologist, the de facto leader; and our narrator, a biologist. Their mission is to map the terrain, record all observations of their surroundings and of one another, and, above all, avoid being contaminated by Area X itself. They arrive expecting the unexpected, and Area X delivers—they discover a massive topographic anomaly and life forms that surpass understanding—but it's the surprises that came across the border with them and the secrets the expedition members are keeping from one another that change everything.

The Meaning of Authority John E. Skinner, 1983

Good Authority Jonathan Raymond, 2018-05-15 Society's current narrative of work/life balance is focusing on the

wrong thing. It's not about benefit packages, flexible work hours or ping pong but rather changing the experience of work itself. As a leader, your number one priority should be to create a work environment where personal and professional growth are one in the same.

Authority and Democracy April Carter, 1979

The Problem of Political Authority Michael Huemer, 2012-10-29 The state is often ascribed a special sort of authority, one that obliges citizens to obey its commands and entitles the state to enforce those commands through threats of violence. This book argues that this notion is a moral illusion: no one has ever possessed that sort of authority.

The Authority Book One Warren Ellis, 2020-12-22 This is the Authority. Pay allegiance, or get your head kicked in. Whether they're up against an invasion from an alternate Earth, an international terrorist who is laying waste to major cities, or a hostile alien intelligence who calls himself God, the Authority are ready for action. Collects The Authority #1-12, Planetary/The Authority: Ruling the World, and a story from WildStorm: A Celebration of 25 Years.

The Seat of Authority in Religion James Martineau, 1890

The Believer's Authority Kenneth E. Hagin, 1985-02 A few of us have barely gotten to the edge of that authority, but before Jesus comes again, there's going to be a whole company of believers who will rise up and with the authority that is theirs, ...and they will do the work that God intended they should do.

We Answer to Another David T. Koyzis, 2014-03-13 The quest to escape authority has been a persistent feature of the modern world, animating liberals and Marxists, Westerners and non-Westerners alike. Yet what if it turns out that authority is intrinsic to humanity? What if authority is characteristic of everything we are and do as those created in God's image, even when we claim to be free of it? What if kings and commoners, teachers and students, employers and employees all possess authority? This book argues that authority cannot be identified with mere power, is not to be played off against freedom, and is not a mere social construction. Rather it is resident in an office given us by God himself at creation. This central office is in turn dispersed into a variety of offices

relevant to our different life activities in a wide array of communal settings. Far from being a conservative bromide, the call to respect authority is foundational to respect for humanity itself.

Sovereignty and the New Executive Authority Claire Oakes Finkelstein, Michael Skerker, 2018-11-02 This volume explores moral and legal issues relating to sovereignty by addressing foundational questions about its nature, examining state sovereignty between states, and dealing with post 9/11 developments in the U.S., potentially destabilizing received views of democratic sovereignty. With essays addressing foundational, state and international sovereignty, the book focuses on Post 9/11 developments including the profusion of secret national security programs, including those pertaining to the interrogation, rendition, and detention of terror suspects; signal intercepts and meta-data analysis; and targeted killing of irregular militants; prompting questions regarding the legitimacy of executive power in this arena.

The Secret to Spiritual Power, Authority and Dominion! Anthony Needham, 2011-03-26

The Authority Gap: Why Women Are Still Taken Less Seriously Than Men, and What We Can Do About It Mary Ann Sieghart, 2022-02-08 An incisive, intersectional look at the mother of all gender biases: a resistance to women's authority and power. Every woman has a story of being underestimated, ignored, challenged, or patronized in the workplace. Maybe she tried to speak up in a meeting, only to be talked over by male colleagues. Or a client addressed her male subordinate instead of her. These stories remain true even for women at the top of their fields; in the U.S. Supreme Court, for example, female justices are interrupted four times more often than their male colleagues—and 96 percent of the time by men. Despite the progress we've made toward equality, we still fail, more often than we might realize, to take women as seriously as men. In *The Authority Gap*, journalist Mary Ann Sieghart provides a startling perspective on the gender bias at work in our everyday lives and reflected in the world around us, whether in pop culture, media, school classrooms, or politics. With precision and insight, Sieghart marshals a wealth of data from a variety of disciplines—including psychology, sociology, political science, and business—and talks to pioneering women like Booker Prize winner Bernardine Evaristo, renowned classicist Mary Beard, U.S. Secretary of the Treasury Janet Yellen, and Hillary Clinton. She speaks with women from a range of backgrounds to explore how gender bias intersects with race and class biases. Eye-opening and galvanizing, *The Authority Gap* teaches us how we as individuals, partners, parents, and coworkers can together work to narrow the gap. Sieghart exposes unconscious bias in this fresh feminist take on how to address and counteract systemic sexism in ways that benefit us all: men as well as women.

The Authority of Law Joseph Raz, 2009-06-18 Raz begins by presenting an analysis of the concept of moral

authority. He then develops a detailed explanation of the nature of law and legal systems. Within this framework Raz then examines the areas of legal thought that have been viewed as impregnated with moral values.

Authority and the Individual Bertrand Russell, 2005-08-02 First published in 1985. Routledge is an imprint of Taylor & Francis, an informa company.

Authority Richard Sennett, 1993 A master of the interplay between politics and psychology, Richard Sennett here analyzes the nature, the role, and the faces of authority--authority in personal life, in the public realm, authority as an idea. Why have we become so afraid of authority? What real needs for authority do we have--for guidance, stability, images of strength? What happens when our fear of and our need for authority come into conflict? In exploring these questions, Sennett examines traditional forms of authority (The father's in the family, the lord's in society) and the dominant contemporary styles of authority, and he shows how our needs for, no less than our resistance to, authority have been shaped by history and culture, as well as by psychological disposition.
