The Burnout Society Byung-Chul Han,2015-08-12 Our competitive, service-oriented societies are taking a toll on the late-modern individual. Rather than improving life, multitasking, user-friendly technology, and the culture of convenience are producing disorders that range from depression to attention deficit disorder to borderline personality disorder. Byung-Chul Han interprets the spreading malaise as an inability to manage negative experiences in an age characterized by excessive positivity and the universal availability of people and goods. Stress and exhaustion are not just personal experiences, but social and historical phenomena as well. Denouncing a world in which every against-the-grain response can lead to further disempowerment, he draws on literature, philosophy, and the social and natural sciences to explore the stakes of sacrificing intermittent intellectual reflection for constant neural connection.

Your Republic Is Calling You Young-ha Kim,2010-09-28 This psychological thriller of a North Korean spy living in Seoul is “perhaps the most intriguing and accomplished Korean fiction yet to appear in English” (Kirkus). Foreign film importer Kim Ki-Yong is a family man with a wife and daughter. Living a prosperous life in Seoul, South

Korea, he's an aficionado of Heineken, soccer, and sushi. But he is also a North Korean spy who has been living among his enemies for twenty-one years. Then, after more than a decade of silence from the home office, he receives a mysterious email stating that he has one day to return to headquarters. But is the message really from Pyongyang—or has he been discovered? And if the message is real, is he being called home to receive new orders or to be executed for a lack of diligence? Spanning the course of a single day, *Your Republic Is Calling You* delves deep into a gripping family secret to ask whether we ever truly know the people we love. Mining the political and cultural transformations of South Korea since the 1980s, author Young-ha Kim confronts moral questions on small and large scales. "This intense novel's bristling plot—confined to the events of a single day—ironically echoes that of Joyce's masterpiece *Ulysses*."—Kirkus

Untold Night and Day Bae Suah, 2020-05-05 The acclaimed Korean author weaves a "disturbing, beautifully controlled" metaphysical detective story "of doubles, shadows, and parallel worlds" (Financial Times). It's Ayami's final day working the box-office at Seoul's only audio theater for the blind. Her last shift completed, she walks the streets with her former boss, searching for a missing friend. Their conversations take in art, love, food, and the inaccessible country to the north. The next day, Ayami acts as a guide for a detective novelist visiting from abroad. But as they contend with the summer heat, the edges of reality start to fray. Ayami enters a world of increasingly tangled threads, and the past intrudes upon the present as overlapping realities repeat, collide, change, and reassert themselves. Blisteringly original, *Untold Night and Day* upends the very structure of narrative storytelling. By one of the boldest and most innovative voices in contemporary Korean literature, and masterfully realized in English by Man Booker International Prize-winning translator Deborah Smith, Bae Suah's hypnotic novel asks whether more than one version of ourselves can exist at once.

The Magical Language of Others: A Memoir E. J. Koh, 2020-01-07 Winner of the Pacific Northwest Booksellers Association Award and the Washington State Book Award in Biography/Memoir Named One of the Best Books by Asian American Writers by Oprah Daily Longlisted for the PEN Open Book Award The Magical Language of Others is a powerful and aching love story in letters, from mother to daughter. After living in America for over a decade, Eun Ji Koh's parents return to South Korea for work, leaving fifteen-year-old Eun Ji and her brother behind in California. Overnight, Eun Ji finds herself abandoned and adrift in a world made strange by her mother's absence. Her mother writes letters in Korean over the years seeking forgiveness and love—letters Eun Ji cannot fully understand until she finds them years later hidden in a box. As Eun Ji translates the letters, she looks to history—her grandmother Jun's years as a lovesick wife in Daejeon, the loss and destruction her grandmother Kumiko witnessed during the Jeju Island Massacre—and to poetry, as well as her own lived experience to answer questions inside all of us. Where do the stories of our mothers and grandmothers end and ours begin? How do we find words—in Korean, Japanese, English, or any language—to articulate the profound ways that distance can shape love? The Magical Language of Others weaves a profound tale of hard-won selfhood and our deep bonds to family, place, and language, introducing—in Eun Ji Koh—a singular, incandescent voice.

Driving Quality in Informatics: Fulfilling the Promise K.L. Courtney, A. Kuo, O. Shabestari, 2015-02-12
Although the data in healthcare comes from and relates to patients, it has generally been the clinician and not the patient who has been seen as the end-user of health information or health information technology. This seems set to change though, as the evolution of new online tools and mobile applications has led to the growth of a grass-roots effort from patients to change their role and involvement in their own health management. This book presents papers from the Information Technology and Communications in Health conference, ITCH 2015, held in Victoria, Canada, in February 2015. The theme of this conference is patient-centered care, and not only were contributors asked to consider the role and voice of the patient, but patients themselves were invited to contribute papers describing their experiences in healthcare and their use of their own data. The papers included here reflect not only informatics innovations in the field, but also explore how to involve patients in the design process, implementation and long-term use of health information systems, and will be of interest to researchers, health practitioners and patients alike.

The End of August Yu Miri, 2023-08-01
From the National Book Award winning author, an extraordinary, ground-breaking, epic multi-generational novel about a Korean family living under Japanese occupation. In 1930s Japanese-occupied Korea, Lee Woo-cheol was a running prodigy and a contender for the upcoming Tokyo Olympics. But he would have had to run under the Japanese flag. Nearly a century later, his granddaughter is living in Japan and training to run a marathon herself. She summons Korean shamans to hold an intense, transcendent ritual to connect with Lee Woo-cheol. When his ghost appears, alongside those of his brother Lee Woo-Gun, and their young neighbor, who was

forced to become a comfort woman to Japanese soldiers stationed in China during World War II, she must uncover their stories to free their souls. What she discovers is at the heart of this sweeping, majestic novel about a family that endured death, love, betrayal, war, political upheaval, and ghosts, both vengeful and wistful. A poetic masterpiece that is a feat of historical fiction, epic family saga, and mind-bending story-telling acrobatics, *The End of August* is a marathon of literature.

K-pop Beyond Asia Song Cheol-min,2016-01-15 In its incipient stages, Korean pop music was strongly influenced by Western pop music, diversifying through many stages of copying, translation, and interpretation from the early 20th century. Those unique creations by experimental and creative Korean artists are now being received by international audiences in the form of "K-Pop," an abbreviation for "Korean pop." It is spreading beyond the regions of China, Japan, and Southeast Asia and into Europe and the United States.
