Kaiser Karl Raphaëlle Bacque, 2020-02 An intimate and well-documented biography of Karl Lagerfeld, ex-creative director of Chanel and international fashion icon Reveals the man behind the mask: the great couturier, the adorer of women, the unrepentant provocateur A huge bestseller in France Worldwide publication in English to mark the first anniversary of his death A luxurious hardback, finished with quarter-bound cloth and containing a picture section admiring and ferocious - France Inter This first biography, fed by many first-rate witnesses... we laugh, we shudder, we admire. - Elle On the last morning of his life, Karl Lagerfeld's only companion was Sébastien, his bodyguard and right-hand man. The king of fashion insisted on being cremated, along with his universally recognizable 'gear' - the dark glasses and high starched collar that served as a bastion for his secrets. It is only now that witnesses have begun to talk. Thus emerges the story of Karl Lagerfeld: his father's past in the heart of wartime Germany, his rivalry with Yves Saint Laurent (enflamed by his only love, Jacques de Bascher) and the networks he forged with the biggest luxury manufacturers in the world as he compiled his vast fortune. Truly an unparalleled icon in the history of fashion, Lagerfeld's legacy lives on today.

The Plum Tree Ellen Marie Wiseman, 2020-01-28 A deeply moving and masterfully written story of human resilience and enduring love, *The Plum Tree*

follows a young German woman through the chaos of World War II and its aftermath. Bloom where you're planted, is the advice Christine Blz receives from her beloved Oma. But seventeen-year-old domestic Christine knows there is a whole world waiting beyond her small German village. It's a world she's begun to glimpse through music, books--and through Isaac Bauerman, the cultured son of the wealthy Jewish family she works for. Yet the future she and Isaac dream of sharing faces greater challenges than their difference in stations. In the fall of 1938, Germany is changing rapidly under Hitler's regime. Anti-Jewish posters are everywhere, dissenting talk is silenced, and a new law forbids Christine from returning to her job--and from having any relationship with Isaac. In the months and years that follow, Christine will confront the Gestapo's wrath and the horrors of Dachau, desperate to be with the man she loves, to survive--and finally, to speak out. Wiseman eschews the genre's usual military conflicts of daily life during wartime, lending an intimate and compelling poignancy to this intriguing debut. -- Publishers Weekly Ellen Marie Wiseman weaves a story of intrigue, terror, and love from a perspective not often seen in Holocaust novels. -- Jewish Book World

The First Green Wave Ryan O'Connor, 2015-10-15 The First Green Wave traces the rise of Ontario's environmental movement. At the heart of the story is Pollution Probe, an organization founded in 1969 by students and faculty at the University of Toronto. In its first year of operation, Pollution Probe confronted Toronto's City Hall over its use of pesticides, Ontario Hydro over air pollution, and the detergent industry over pollution of the Great Lakes. The success of these actions inspired the founding of other environmental organizations across Canada and led to the development of initiatives now taken for granted, such as waste reduction and energy policy.

The SAGE Handbook of Housing Studies David F Clapham, William A V Clark, Kenneth Gibb, 2012-02-14 Cross-disciplinary and critical in its approach,

The SAGE Handbook of Housing Studies is an elucidating look at the key issues within the field. It covers the study of housing retrospectively, but also analyses the future directions of research and theory, demonstrating how it can contribute to wider debates in the social sciences. A comprehensive introductory chapter is followed by four parts offering complete coverage of the area: Markets: examines the perception of housing markets, how they function in different contexts, and the importance of housing behaviour and neighbourhoods Approaches: looks at how other disciplines - economics, geography, and sociology - have informed the direction of housing studies Context: traces the interactions between housing studies and other aspects of society, providing context to debate housing through issues of space, social, welfare and the environment. Policy: is a multi-disciplinary and comprehensive take on the major policy issues and the causes and possible solutions of housing problems such as regeneration and homelessness. Edited by leading names in the field and including international contributions, the book is a stimulating, wide-ranging read that will be an invaluable resource for academics and researchers in geography, urban studies, sociology, social policy, economics and politics.

A Short Philosophy of Birds Philippe J. Dubois, Elise Rousseau, 2019-09-24 "This little book does a beautiful job of inspiring awe for the capacities of birds and applying lessons from their lives to the struggles of humanity" – Wall Street Journal "Brilliant, magical and

engrossing—I will never see birds the same way again.” – Peter Wohlleben, author of *The Hidden Life of Trees* THE INTERNATIONAL PHENOMENON Twenty-two short lessons from the secret lives of birds on living harmoniously and reconnecting with nature. This charming volume on bird behavior invites us to take a step back from our busy lives and to listen to the tiny philosophers of the sky. From the delicate sparrow to the majestic eagle, birds are among the most fascinating species on earth, and there is much to be learned from these paragons of beauty and grace that can be applied to our lives, including: Independence: what it means to be “pushed out of the nest.”

Vulnerability: what the mallard teaches us about giving up our old feathers for new ones in order to fly. Gender equality: what happens when a papa Turtledove sits on the nest. Hierarchy and power: what the raven and the vulture know about the pecking order. Filled with elegant illustrations of bird species, this gem of a book celebrates of our friends in the sky, and what they can teach us about the rhythms of life.

Flakhelfer to Grenadier Karl Heinz

Schlesier, 2014-06-19 On January 7 1943, the German Government, in order to free adult soldiers for frontline duty, ordered that all male students of secondary schools born in 1926 and 1927 be drafted into anti-air craft service in the homeland.

Students were to arrive in batteries on February 18 1943. After serving from one year (those born in 1926) to thirteen months (those born in 1927), the boys were transferred into the Reich Labor Service and from there into the armed forces. They

were replaced by boys born in 1928 who served to the end of the war. About 200,000 boys became Flakhelfer. Most were called up at sixteen, but many, like the author, Karl Heinz Schlesier, were only fifteen. The boys served in batteries of light and heavy flak. Although the government insisted school programs continue for Flakhelfer, the effort was a sham, especially where heavy bombing occurred. Schlesier, a student of Rethel Gymnasium in Düsseldorf, served as Flakhelfer in the regions that suffered the most numerous and heaviest air raids of the war in the Rhineland (Düsseldorf) and the Ruhr (Recklinghausen). His is a coming of age story in a world gone mad, where a teenage boy launched shrapnel into a sky filled with bombers, where Christmas-tree-like flares marked cities about to burn, where working beside Russian POWs, protecting industries with slave labor, courting a girl among bombed-out ruins, and spending leave with family hiding in claustrophobic bomb shelters was unremarkable, as was finally being thrown, unprepared, into a disintegrating frontline only fifty kilometers from his childhood home. The memoir is based solely on Schlesier's diary notes and memories of that period. He has consciously avoided including what he learned after the war. His views, opinions, and interpretations of events are from inside the Germany of that time. If some are inconvenient today, they mirror the chaos of the world he experienced. Then, to live or not to live was accidental. Schlesier wrote this memoir as an old man in response to a granddaughter's question about what he did in the war. This is his answer.

Perhaps, he also gives a voice to the silent generation of boys born in Germany in 1926 and 1927. This generation has been silent because the horror it knew pales in comparison to the horror of the Holocaust.

Dialogues in Urban and Regional Planning 6

Christopher Silver, Robert Freestone, Christophe Demaziere, 2017-08-24 The Dialogues in Urban and Regional Planning series offers a selection of some of the best scholarship in urban and regional planning from around the world. The internationally recognized authors of these award-winning papers take up a range of salient issues from the theory and practice of planning. This 6th volume incorporates essays that explore the salient issue commonly referred to as The Right to the City. This theme speaks to a growing new movement within planning theory and practice with multiple aims and strategies but with the common objective of advancing a more just and equitable world. The right to the city functions as a manifesto advancing academic explorations of the opportunities for, and barriers to, expanding human and environmental justice. At the same time, it extends beyond academic inquiry to engage directly with the policy, legal and political dimensions of human rights. The right to the city has been invoked by global bodies such as United Nations-Habitat and the United Nations Educational, Scientific and Cultural Organization to bolster not only their agendas around fundamental human rights but advance urban policies promoting inclusion, sustainability, and resilience. Dialogues 6 offers engaging

explorations into the academic expeditions by the global planning community that have helped to energize this movement. The papers assembled here through processes of peer review represent an invaluable collection to untangle the complexities of this dynamic new approach to urban and regional planning. The Dialogues in Urban and Regional Planning (DURP) series is published in association with the Global Planning Education Association Network (GPEAN) and its member national and transnational planning schools associations.

Paul Kagame and Rwanda Colin M. Waugh, 2013-05-17
In 1994, ethnic conflict turned to genocide in Rwanda. When the world finally took notice, a million people lay dead, and the small African country lay in ruins. Rwanda returned from the brink guided by rulers determined to rebuild the country on their own terms, rather than those of a previously indifferent international community. Paul Kagame, Rwanda's first democratically elected president, embodies the new Rwandan political philosophy. Young, unconventional, not without flaws and critics—Kagame is key to understanding Rwanda's transition from a country that had known only fear, division and clan-based nepotism for many years to an exceptional African state built upon traditional order and values. Paul Kagame's life—from exiled child refugee, to guerilla warrior and rebel politician, to President of Rwanda—is traced in this exploration of the influences on Rwanda's struggle for change. Analyzing the conflicts and challenges of post-genocide Rwanda in comparison to modern parallels, the work invites reassessment of Kagame's

leadership and government in an African context rather than measurement against Western standards, and critiques Western involvement in Rwanda since the early 1990s. Twenty-eight photographs and three maps supplement the text, as do a history of Rwanda's Banyarwanda people and a glossary of words in Kinyarwanda, their language. The work includes a bibliography and an index.

Mecca Francis E. Peters, 1994 Mecca is the most forbidden of Holy Cities. Many Muslim historians and geographers have studied it--and countless pilgrims and travelers have left behind lively and well-publicized accounts of life in the city. The stories of all these figures--holy men and heathen alike--are collected here to offer a remarkably revealing literary portrait of the city's traditions and urban life.

Europe Observed Kumkum Chatterjee, Clement Hawes, 2008 This interdisciplinary work engages with the issue of how Europe and Europeans were perceived by observers from various parts of the world during the early modern period.

The Middle Classes and the City M. Bacqué, G. Bridge, M. Benson, T. Butler, E. Charmes, Y. Fijalkow, E. Jackson, Lydie Launay, Stéphanie Vermeersch, 2015-02-10 What does it mean to be middle class in contemporary global cities? What do the middle classes do to these cities and what do these cities do to the middle classes? Do the middle classes engage in social mix or are they focused on 'people like us'? Based on comparative study this book explores middle-class identities across Paris and London.

World War II in Europe, Africa, and the

Americas, with General Sources Loyd Lee, 1997-08-21

A broadly interdisciplinary work, this handbook discusses the best and most enduring literature related to the major topics and themes of World War II. Military historiography is treated in essays on the major theaters of military operations and the related themes of logistics and intelligence, while political and diplomatic history is covered in chapters on international relations, resistance movements, and collaboration. The volume analyzes themes of domestic history in essays on economic mobilization, the home fronts, and women in the military and civilian life. The book also covers the Holocaust. This handbook approaches each topic from a global viewpoint rather than focusing on individual national communities. Except for nonprint material, the literature, research, and sources surveyed are primarily those available in English. The volume is aimed at both experts on the war and the general academic community and will also be useful to students and serious laymen interested in the war.

Upheaval Jared Diamond, 2019-05-07 A riveting and illuminating Bill Gates Summer Reading pick about how and why some nations recover from trauma and others don't (Yuval Noah Harari), by the Pulitzer Prize-winning author of the landmark bestseller *Guns, Germs, and Steel*. In his international bestsellers *Guns, Germs and Steel* and *Collapse*,

Jared Diamond transformed our understanding of what makes civilizations rise and fall. Now, in his third book in this monumental trilogy, he reveals how successful nations recover from crises while adopting selective changes -- a coping mechanism more commonly associated with individuals recovering from personal crises. Diamond compares how six countries have survived recent upheavals -- ranging from the forced opening of Japan by U.S. Commodore Perry's fleet, to the Soviet Union's attack on Finland, to a murderous coup or countercoup in Chile and Indonesia, to the transformations of Germany and Austria after World War Two. Because Diamond has lived and spoken the language in five of these six countries, he can present gut-wrenching histories experienced firsthand. These nations coped, to varying degrees, through mechanisms such as acknowledgment of responsibility, painfully honest self-appraisal, and learning from models of other nations. Looking to the future, Diamond examines whether the United States, Japan, and the whole world are successfully coping with the grave crises they currently face. Can we learn from lessons of the past? Adding a psychological dimension to the in-depth history, geography, biology, and anthropology that mark all of Diamond's books, *Upheaval* reveals factors influencing how both whole nations and individual people can respond to big challenges. The result is a book epic in scope, but also his most personal yet.
