The Creep Michael LaPointe, 2021-06-01 A deep, weird and uncanny tale —Sheila Heti A book to devour—Iain Reid Sinister good fun —Lee Henderson Gripping and unassumingly smart —Lauren Oyler A journalist with a history of bending the facts uncovers a story about a medical breakthrough so astonishing it needs no embellishment—but behind the game-changing science lies a gruesome secret. A respected byline in the culture pages of the venerable New York magazine *The Bystander*, journalist Whitney Chase grapples with a mysterious compulsion to enhance her coverage with intriguing untruths and undetectable white lies. She calls it the creep—an overpowering need to improve the story in the telling. And she has a particular genius for getting away with it. In the immediate aftermath of 9/11, Whitney yearns to transition from profiling rock stars and novelists to covering the stories that really matter. When a chance encounter brings her face-to-face with a potentially massive story about a game-changing medical discovery, Whitney believes she's finally found a story that doesn't need any enhancement. The brilliant and charismatic doctor behind the breakthrough claims she's found the Holy Grail of medical science: a synthetic blood substitute that, if viable, promises to save millions of lives, and make her corporate backers rich beyond measure. But when Whitney's investigation of this apparent medical miracle puts her on the trail of a string of grisly fatalities across the country, she becomes inexorably tied to a much darker and more nefarious story than even she could imagine. Set against the ramp-up to the US invasion of Iraq and the decline of print journalism, Michael LaPointe's panoramic, ingeniously plotted debut paints an affecting portrait of an increasingly unequal twenty-first century, exploring how deceitfulness, self-enhancement, and confidently delivered lies can be transfused into fact and constitute a broader violence against the social fabric and public trust.

Creepy Pair of Underwear! Aaron Reynolds, 2017-08-15 From the celebrated team behind *Creepy Carrots!*, Aaron Reynolds and Caldecott Honor winner Peter Brown, comes a hilarious (and just a little creepy) story of a brave rabbit and a very weird pair of underwear. Jasper Rabbit is NOT a little bunny anymore. He's not afraid of the dark, and he's definitely not afraid of something as silly as underwear. But when the lights go out, suddenly his new big rabbit underwear glows in the dark. A ghoulish, greenish glow. If Jasper didn't know any better he'd say his undies were a little, well, creepy. Jasper's not scared obviously, he's just done with creepy underwear. But after trying everything to get rid of them, they keep coming back!

I'm a CREEP Jaimie Roberts, 2021-05-20 From an early age, I was bullied and abused. Forced in to submission. Forced to be a victim. Until one fateful day just before my sixteenth birthday when I finally cracked. With the snap of a finger, I was a changed girl. No longer timid. No longer frightened. Instead, I armed myself with the knowledge of their secrets. All who had bullied me. All who had abused me. I am no longer their victim. The timid little plaything they can pick up whenever they damn well please. Now I am vengeance. I am the eye of the storm. Nothing and no one can stand in my way. And if anyone dare try ... Rules for specifying irreducible sets of tensor invariants, scalar coefficients in constitutive and evolutionary equations, and tensorial interpolation methods are also explained

Creep Jonathan Alexander, 2017 In this provocative book, Jonathan Alexander interweaves personal narrative and cultural analyses to explore what it means to be a creep. Calling this work a critical memoir, he draws on his own experiences growing up gay in the deep south, while also interrogating examples from literature and popular film and media, to approach the figure of the creep with some sympathy. Ranging widely over contemporary culture, especially the ever-creeping presence of nearly ubiquitous surveillance, Alexander confesses his own creepiness while also explaining to us what being creepy can show us in turn about our culture. He also resurrects some famous creeps from the past, such as J.R. Ackerley, to explore what makes a creep creepy, and how even the best of us succumb at times to being creeps

Creep and Hygrothermal Effects in Concrete Structures Zdeněk P. Bažant,Milan Jirásek,2018-01-17 This comprehensive treatise covers in detail practical methods of analysis as well as advanced mathematical models for structures highly sensitive to creep and shrinkage. Effective computational algorithms for century-long creep effects in structures, moisture diffusion and high temperature effects are presented. The main design codes and recommendations (including RILEM B3 and B4) are critically compared. Statistical uncertainty of century-long predictions is analyzed and its reduction by extrapolation is discussed, with emphasis on updating based on short-time tests and on long-term measurements on existing structures. Testing methods and the statistics of large randomly collected databases are critically appraised and improvements of predictions of multi-decade relaxation of prestressing steel, cyclic creep in bridges, cracking damage, etc., are demonstrated. Important research directions, such as nanomechanical and probabilistic modeling, are identified, and the need for separating the long-lasting autogenous shrinkage of modern concretes from the creep and drying shrinkage data and introducing it into practical prediction models is emphasized. All the results are derived mathematically and justified as much as possible by extensive test data. The theoretical background in linear viscoelasticity with aging is covered in detail. The didactic style makes the book suitable as a textbook. Everything is properly explained, step by step, with a wealth of application examples as well as simple illustrations of the basic phenomena which could alternate as homeworks or exams. The book is of interest to practicing engineers, researchers, educators and graduate students.
