Women's Literary Networks and Romanticism Andrew O. Winckles,Angela Rehbein,2017-12-12 The eighteenth century witnessed the rapid expansion of literary networks in Britain, yet we still lack a complex understanding of how these networks functioned, particularly for women. This volume addresses this gap, arguing that networks not only provided women with access to the literary marketplace, but altered their relations to each other, their literary production, and the broader social sphere.

Not Just Jane Shelley DeWees,2016-10-25 “Not Just Jane restores seven of England’s most fascinating and subversive literary voices to their rightful places in history. Shelley DeWees tells each woman writer’s story with wit, passion, and an astute understanding of the society in which she lived and wrote.” –Dr. Amanda Foreman, New York Times bestselling author of *Georgiana: Duchess of Devonshire* Jane Austen and the Brontës endure as British literature’s leading ladies (and for good reason)—but were these reclusive parsons’ daughters really the only writing women of their day? A feminist history of literary Britain, this witty, fascinating nonfiction debut explores the extraordinary lives and work of seven long-forgotten authoresses, and asks: Why did their considerable fame and influence, and a vibrant culture of female creativity, fade away? And what are we missing because of it? You’ve likely read at least one Jane Austen novel (or at least seen a film one). Chances are you’ve also read *Jane Eyre*; if you were an exceptionally moody teenager, you might have even read *Wuthering Heights*. English majors might add George Eliot or Virginia Woolf to this list...but then the trail ends. Were there truly so few women writing anything of note during late 18th and 19th century Britain? In *Not Just Jane*, Shelley DeWees weaves history, biography, and critical analysis into a rip-roaring narrative of the nation’s fabulous, yet mostly forgotten, female literary heritage. As the country, and women’s roles within it, evolved, so did the publishing industry, driving legions of ladies to pick up their pens and hit the parchment. Focusing on the creative contributions and personal stories of seven astonishing women, among them pioneers of detective fiction and the modern fantasy novel, DeWees assembles a riveting, intimate, and ruthlessly unromanticized portrait of female life—and the literary landscape—during this era. In doing so, she comes closer to understanding how a society could forget so many of these women, who all enjoyed success, critical acclaim, and a fair amount of notoriety during their time, and realizes why, now more than ever, it’s vital that we remember. Rediscover Charlotte Turner Smith, Helen Maria Williams, Mary Robinson, Catherine Crowe, Sara Coleridge, Dinah Mulock Craik, and Mary Elizabeth Braddon.

Twelve English Authoresses Lucy Bethia Walford, 2014

Model Women of the Press Teja Varma Pusapati, 2024-02-28 This book offers the first extended account of the mid-century rise of 'model women of the press': women who not only stormed the male bastions of social and political journalism but also presented themselves as upholders of the highest standards of professional journalistic practice. They broke the codes of anonymity in several ways, including signing articles in their own names and developing distinctly female personae. They proved, by example, women's fitness for conventionally masculine lines of journalism. By placing Victorian women's serious, high-minded journalism firmly within the context of 'the widening sphere' of female professions in mid-nineteenth-century England, the book shows how a wide range of women writers, including leading Victorian feminists and female reformers, contributed to the professionalization of women's authorship. Drawing on extensive archival research and close analysis of a wide range of printed texts, from Victorian newspapers and periodicals to autobiographies, memoirs, and fiction, this book elucidates several aspects of Victorian women's journalism that have been previously ignored: the market interest of the feminist English Woman's Journal; the ability of women like Eliza Meteyard and Frances Power Cobbe to write consistently on serious social and political issues in mainstream periodicals; Harriet Ward's astonishing reportage from the war fields of South Africa; and Harriet Martineau's reports on Famine-devastated Ireland and her role as a transatlantic commentator on American abolitionism. The study also offers the first focused account of the figure of the female professional journalist in Victorian novels, showing how these texts move away from the dominant myth of the author as a solitary genius to present the female journalist as a collaborator who adapts her writing to fit various newspapers and periodicals, and works closely with male editors and peers. In examining the rise of the Victorian woman writer as a serious social and political journalist, this book adds to current critical understanding of female political expression, authorial agency, and cultural authority in nineteenth-century England.
