📖 **ELEMENTAL NARRATIVES** ENRICO CESARETTI, 2020-09-29 Over the past century, the Italian landscape has undergone exceedingly rapid transformations, shifting from a mostly rural environment to a decidedly modern world. This changing landscape is endowed with a narrative agency that transforms how we understand our surroundings. Situated at the juncture of Italian studies and ecocriticism and following the recent “material turn” in the environmental humanities, *Elemental Narratives* outlines an original cultural and environmental map of the bel paese. Giving equal weight to readings of fiction, nonfiction, works of visual art, and physical sites, Enrico Cesaretti investigates the interconnected stories emerging from both human creativity and the expressive eloquence of “glocal” materials, such as sulfur, petroleum, marble, steel, and asbestos, that have helped make and, simultaneously, “un-make” today’s Italy, affecting its socio-environmental health in multiple ways. Embracing the idea of a decentralized agency that is shared among human and nonhuman entities, Cesaretti suggests that engaging with these entangled discursive and material texts is a sound and revealing ecocritical practice that promises to generate new knowledge and more participatory, affective responses to environmental issues, both in Italy and elsewhere. Ultimately, he argues that complementing quantitative, data-based information with insights from fiction and nonfiction, the arts, and other humanistic disciplines is both desirable and crucial if we want to modify perceptions and attitudes, increase our awareness and understanding, and, in turn, develop more sustainable worldviews in the era of the Anthropocene. Elegantly written and convincingly argued, this book will appeal broadly to scholars and students working in the fields of environmental studies, comparative literatures, ecocriticism, environmental history, and Italian studies.

📖 **THE NEW GEOGRAPHY OF JOBS** ENRICO MORETTI, 2012 A rising young economist at Berkeley makes correlations between success and geography, explaining how such rising centers of innovation as San Francisco, Boston and Austin are likely to offer influential opportunities and shape the national and global economies in positive or detrimental ways.

📖 **ENRICO FERMI, PHYSICIST** EMILIO SEGRÈ, 2019-08-09 In this biography of Enrico Fermi (1901-54), who won the Nobel Prize in physics in 1938 for his work on radioactivity by neutron bombardment and his discovery of transuranic elements and who achieved the first controlled nuclear chain reaction in Chicago in 1942, his student, collaborator, fellow Nobel Prize winner and lifelong friend Emilio Segrè presents the scientist, and explains in nontechnical terms Fermi’s work and his achievements. “Segrè’s description of Fermi’s early life and his involvement with and commitment to physics is extremely interesting... Segrè understands and describes very clearly the outstanding characteristics of Fermi’s theoretical work: clarity and completeness... Segrè has succeeded admirably in describing Fermi’s entire scientific career, and this book is strongly recommended.” — M. L. GOLDBERGER, *Science* “We must thank Emilio Segrè for this authoritative, revealing and inspiring book. It covers in a masterly fashion the most exciting thirty years of modern physics and the character and activities of one of its greatest contributors.” — *Nature* “A rich, well-rounded portrait of [Fermi] the scientist, his methods, intellectual history, and achievements. Explaining in nontechnical terms the scientific problems Fermi faced or solved, *Enrico Fermi, Physicist* contains illuminating material concerning Fermi’s youth in Italy and the development of his scientific style.” — *Physics Today* “All that might be hoped for in a biography of one Nobel Prize winner in physics by another has been realized in Emilio Segrè’s biography of his friend, Enrico Fermi... A truly masterly drawing of Fermi’s character, along with his physics and the events through which he moved, Segrè has provided us with a brilliant appreciation of one of the most pre-eminent figures of modern physics.” — *Physics Bulletin* “This excellent biography, written by one of the original group who worked with him during the 1930s at Rome, catches beautifully the style and spirit of its subject... With Fermi’s passing the age of the universal experimental and theoretical physicist is gone. Segre’s book tells the story of this heroic age of physics and of its principal actor; it is a delight to read, and I recommend it heartily.” — *American Scientist* “Here we meet the man at work and we see the meticulous scientist... This book also shows us another facet of Fermi: that of the conscientious scientist torn between his love of pure research and his love of teaching.” — V. BAROCAS, *Annals of Science* “Segrè is a sensitive biographer, responsive to all problems that can plague the creative scientist; he shows, above all, Fermi’s dedication, zeal, and extraordinary talents. Segrè has provided more than sympathy. Much that is new about Fermi’s youth in Italy appears here... [A] very rewarding book... Every physicist will want to read this biography, along with every reader who has an interest in intellectual developments during the 1920-1960 era.” — J. Z. FULLMER, *The Ohio Journal of Science*

📖 **BACK TO NORMAL** ENRICO GNAULATI, PhD, 2013-09-17 A veteran clinical psychologist exposes why doctors, teachers, and parents incorrectly diagnose healthy American children with serious psychiatric conditions. In recent years there has been an alarming rise in the number of American children and youth assigned a mental health diagnosis. Current data from the Centers for Disease Control reveal a 41 percent increase in rates of ADHD diagnoses over the past decade and a forty-fold spike in bipolar disorder diagnoses. Similarly, diagnoses of autism spectrum disorder, once considered rare, has increased by 78 percent since 2002. Dr. Enrico Gnaulati, a clinical psychologist specializing in childhood and adolescent therapy and assessment, has witnessed firsthand the push to diagnose these disorders in youngsters. Drawing both on his own clinical experience and on cutting-edge research, with *Back to Normal* he has written the definitive account of why our kids are being dramatically overdiagnosed—and how parents and professionals can distinguish between true psychiatric disorders and normal childhood reactions to stressful life situations. Gnaulati begins with the complex web of factors that have led to our current crisis. These include questionable education and training practices that cloud mental health professionals’ ability to distinguish normal from abnormal behavior in children, monetary incentives favoring prescriptions, check-list diagnosing, and high-stakes testing in schools. We’ve also developed an increasingly casual attitude about labeling kids and putting them on psychiatric drugs. So how do we differentiate between a child with, say, Asperger’s syndrome and a child who is simply introverted, brainy, and single-minded? As Gnaulati notes, many of the symptoms associated with these disorders are similar to everyday childhood behaviors. In the second half of the book Gnaulati tells detailed stories of wrongly diagnosed kids, providing parents and others with information about the developmental, temperamental, and environmentally driven symptoms that to a casual or untrained eye can mimic a psychiatric disorder. These stories also reveal how nonmedical interventions, whether in the therapist’s office or through changes made at home, can help children. *Back to Normal* reminds us of the normalcy of children’s seemingly abnormal behavior. It will give parents of struggling children hope, perspective, and direction. And it will make everyone who deals with children question the changes in our society that have contributed to the astonishing increase in childhood psychiatric diagnoses.

📖 **ENRICO BAJ** MICHAEL REYNOLDS, 2017-03-14 An Italian villa never before open to the public houses a trove of artistic creativity and design by one of the central figures of the Italian neo-avant garde. Not far from Milan, in the hills of the northern Italian countryside, lies the estate of famed Italian artist Enrico Baj. This jewel of a book offers a unique lens through which to consider a true artistic giant of the late twentieth century associated with Dada, Surrealism, Art Informel, and CoBrA, as well as Nuclear Art, a movement he cofounded. Organized as a tour of the artist’s home, from full rooms designed with a great attention to detail to entire walls covered floor to ceiling with paintings by the artist to a headboard carved directly into a wall, almost every surface of the house is covered in work made by Baj himself. While his subject matter may have been deeply serious (many of Baj’s works reveal an obsession with nuclear war and the abuse of political power), as this book shows, his work was always playful and vibrant, often incorporating bits of found materials like military medals, seashells, rope, and twine. Whether one focuses on the luxurious trim and tassel of a bedroom curtain or the deeply personal arrangement of treasured sculptures on a dressing room table, every corner of the estate is energized by the element of surprise. This book showcases the artist’s individual touch and provides a wealth of playful vignettes to inspire homeowners, collectors, and artists alike.

📖 **FRIDAYS AT ENRICO’S** DON CARPENTER, 2014-04-21 Don Carpenter was one of the finest novelists working in the West. His first novel, *A Hard Rain Falling*, first published in 1966, has been championed by Richard Price, and George Pelicanos who called it a masterpiece...the definitive juvenile-delinquency novel and a damning indictment of our criminal justice system, is considered a classic. His novel *A Couple of Comedians* is thought by some the best novel about Hollywood ever written. He was a close friend of Evan Connell and other San Francisco writers, but his closest friendship was with Richard Brautigan, and when Brautigan killed himself, Carpenter tried for some time to write a biography of his remarkable, deeply troubled friend. He finally abandoned that in favor of writing a novel. *Friday’s at Enrico’s*, the story of four writers living in Northern California and Portland during the early, heady days of the Beat scene. A time of youth and opportunity, this story mixes the excitement of beginning with the melancholy of ambition, often thwarted and never satisfied. Loss of innocence is only the first price you pay. These are people, men and women, tender with expectation, at risk and in love, and Carpenter also carefully draws a portrait of these two remarkable places, San Francisco and Portland, in the 50s and early 60s, when the writers and bohemians were busy creating the groundwork for what came to be the counterculture. A great champion of Don Carpenter, Jonathan Lethem, has taken on the task of editing and developing this last draft into the shape we imagine Carpenter would have himself accomplished had he lived to see this through. And Lethem provides a wonderful introduction to this book, to Carpenter, and to the broad influence of his work which resonates until this very day.

📖 **ENRICO DAVID** MICHAEL DARLING, 2018 This stunning book showcases paintings, sculptures, drawings, and tapestries by acclaimed artist Enrico David, who has spent the last two decades exploring materials and rejecting the trends of the contemporary art scene. Enrico David has distinguished himself as one of the most original artists working today. This monograph, published on the occasion of the artist’s first US survey, celebrates an artist who uses unconventional mediums such as copper, wax, bamboo, bone, Vaseline, cashmere, and cotton to fashion imagery that revolves around the human figure and its many states of being. The generously illustrated volume includes an illuminating essay about David’s practice by Museum of Contemporary Art Chicago curator Michael Darling, a compelling creative piece by Nathanael, and an interview with the artist by Mark Beasley of the Hirshhorn Museum and Sculpture Garden. IN SAVING TALK THERAPY, MASTER THERAPIST DR. ENRICO GNAULATI PRESENTS POWERFUL CASE STUDIES FROM HIS PRACTICE TO REMIND PATIENTS AND THERAPISTS ALIKE HOW AND WHY TRADITIONAL TALK THERAPY WORKS AND, USING CUTTING-EDGE RESEARCH FINDINGS, UNPACKS THE PROBLEMATIC INCENTIVES IN OUR HEALTH-CARE SYSTEM AND IN ACADEMIC PSYCHOLOGY THAT EXPLAIN ITS DECLINE. BEGINNING WITH A DISCUSSION OF THE HISTORICAL DEVELOPMENT OF TALK THERAPY, DR. GNAULATI GOES ON TO DISSECT THE FACTORS THAT HAVE UNDERMINED IT. PSYCHOTROPIC DRUGS, IF NO LONGER THOUGHT OF AS A MAGICAL CURE, ARE STILL OVER-PRESCRIBED AND SHUNT HEALTH-CARE DOLLARS TO DRUG CORPORATIONS. MANAGED-CARE COMPANIES AND MENTAL HEALTH “CARVE OUTS” SEND HEALTH-CARE DOLLARS TO ADMINISTRATORS, DRIVE MANY PRACTITIONERS AWAY, AND OVER-BURDEN THOSE WHO REMAIN.
