*The Long Field* Pamela Petro, 2023-08-15 For readers of *H Is for Hawk*, an intimate memoir of belonging and loss and a mesmerizing travelogue through the landscapes and language of Wales *Hiraeth* is a Welsh word that's famously hard to translate. Literally, it can mean long field but generally translates into English, inadequately, as homesickness. At heart, *hiraeth* suggests something like a bone-deep longing for an irretrievable place, person, or time—an acute awareness of the presence of absence. In *The Long Field*, Pamela Petro braids essential *hiraeth* stories of Wales with tales from her own life—as an American who found an ancient home in Wales, as a gay woman, as the survivor of a terrible AMTRAK train crash, and as the daughter of a parent with dementia. Through the pull and tangle of these stories and her travels throughout Wales, *hiraeth* takes on radical new meanings. There is traditional *hiraeth* of place and home, but also queer *hiraeth*; and *hiraeth* triggered by technology, immigration, ecological crises, and our new divisive politics. On this journey, the notion begins to morph from a uniquely Welsh experience to a universal human condition, from deep longing to the creative responses to loss that Petro sees as the genius of Welsh culture. It becomes a tool to understand ourselves in our time. A finalist for the Wales Book of the Year Award and named to the Telegraph's and Financial Times's Top 10 lists for travel writing, *The Long Field* is an unforgettable exploration of “the hidden contours of the human heart.”

**The Virgins** Pamela Erens, 2013-08-06 It's 1979, and Aviva Rossner and Seung Jung are notorious at Auburn Academy. They're an unlikely pair at an elite East Coast boarding school (she's Jewish; he's Korean American) and hardly shy when it comes to their sexuality. Aviva is a formerly bookish girl looking for liberation from an unhappy childhood; Seung is an enthusiastic dabbler in drugs and a covert rebel against his demanding immigrant parents. In the minds of their titillated classmates—particularly that of Bruce Bennett-Jones—the couple lives in a realm of pure, indulgent pleasure. But, as is often the case, their fabled relationship is more complicated than it seems: despite their lust and urgency, their virginity remains intact, and as they struggle to understand each other, the relationship spirals into disaster. *The Virgins* is the story of Aviva and Seung's descent into confusion and shame, as re-imagined in richly detailed episodes by their classmate Bruce, a once-embittered voyeur turned repentant narrator. With unflinching honesty and breathtaking prose, Pamela Erens brings a fresh voice to the tradition of the great boarding school novel.

**America's Jewish Women: A History from Colonial Times to Today** Pamela Nadell, 2019-03-05 A groundbreaking history of how Jewish women maintained their identity and influenced social activism as they wrote themselves into American history. What does it mean to be a Jewish woman in America? In a gripping historical narrative, Pamela S. Nadell weaves together the stories of a diverse group of extraordinary people—from the colonial-era matriarch Grace Nathan and her great-granddaughter, poet Emma Lazarus, to labor organizer Bessie Hillman and the great justice Ruth Bader Ginsburg, to scores of other activists, workers, wives, and mothers who helped carve out a Jewish American identity. The twin threads binding these women together, she argues, are a strong sense of self and a resolute commitment to making the world a better place. Nadell recounts how Jewish women have been at the forefront of causes for centuries, fighting for suffrage, trade unions, civil rights, and feminism, and hoisting banners for Jewish rights around the world. Informed by shared values of America's founding and Jewish identity, these women's lives have left deep footprints in the history of the nation they call home.

Economic Freedom of North America Amela Karabegović, Dean Stansel, Frederick S. McMahon, 1996 This is the ninth edition of the annual report, *Economic Freedom of North America*. The results of this year's study confirm those published in the previous eight editions: economic freedom is a

powerful driver of growth and prosperity. Those provinces and states that have low levels of economic freedom continue to leave their citizens poorer than they need or should be.

**The Development of Emotion Regulation and Dysregulation** Judy Garber, 1991-05-31 Provides a developmental perspective of the regulation and dysregulation of emotion, in particular, how children learn about feelings and how they learn to deal with both positive and negative feelings. Emotion regulation involves the interaction of physical, behavioral, and cognitive processes in response to changes in one's emotional state. The changes can be brought on by factors internal to the individual (e.g. biological) or external (e.g. other people). Featuring contributions from leading researchers in developmental psychopathology, the volume concentrates on recent theories and data concerning the development of emotion regulation with an emphasis on both intrapersonal and interpersonal processes. Original conceptualizations of the reciprocal influences among the various response systems--neurophysiological-biochemical, behavioral-expressive, and subjective-experiential--are provided, and the individual chapters address both normal and psychopathological forms of emotion regulation, particularly depression and aggression, from infancy through adolescence. This book will appeal to specialists in developmental, clinical, and social psychology, psychiatry, education, and others interested in understanding the developmental processes involved in the regulation of emotion over the course of childhood.

**Change Leadership in Higher Education** Jeffrey L. Buller, 2014-12-31 Initiate innovation and get things done with a guide to the process of academic change Change Leadership in Higher Education is a call to action, urging administrators in higher education to get proactive about change. The author applies positive and creative leadership principles to the issue of leading change in higher education, providing a much-needed blueprint for changing the way change happens, and how the system reacts. Readers will examine four different models of change and look at change itself through ten different analytical lenses to highlight the areas where the current approach could be beneficially altered. The book accounts for the nuances in higher education culture and environment, and helps administrators see that change is natural and valuable, and can be addressed in creative and innovative ways. The traditional model of education has been disrupted by MOOCs, faculty unions, online instruction, helicopter parents, and much more, leaving academic leaders accustomed to managing change. Leading change, however, is unfamiliar territory. This book is a guide to being proactive about change in a way that ensures a healthy future for the institution, complete with models and tools that help lead the way. Readers will: Learn to lead change instead of simply managing it Examine different models of change, and redefine existing approaches Discover a blueprint for changing the process of change Analyze academic change through different lenses to gain a wider perspective Leading change involves some challenges, but this useful guide is a strong conceptual and pragmatic resource for forecasting those challenges, and going in prepared. Administrators and faculty no longer satisfied with the status quo can look to Change Leadership in Higher Education for real, actionable guidance on getting change accomplished.

*100 Things We've Lost to the Internet* Pamela Paul, 2021-10-26 The acclaimed editor of The New York Times Book Review takes readers on a nostalgic tour of the pre-Internet age, offering powerful insights into both the profound and the seemingly trivial things we've lost. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY CHICAGO TRIBUNE AND THE DALLAS MORNING NEWS • “A deft blend of nostalgia, humor and

devastating insights.”—People Remember all those ingrained habits, cherished ideas, beloved objects, and stubborn preferences from the pre-Internet age? They’re gone. To some of those things we can say good riddance. But many we miss terribly. Whatever our emotional response to this departed realm, we are faced with the fact that nearly every aspect of modern life now takes place in filtered, isolated corners of cyberspace—a space that has slowly subsumed our physical habitats, replacing or transforming the office, our local library, a favorite bar, the movie theater, and the coffee shop where people met one another’s gaze from across the room. Even as we’ve gained the ability to gather without leaving our house, many of the fundamentally human experiences that have sustained us have disappeared. In one hundred glimpses of that pre-Internet world, Pamela Paul, editor of The New York Times Book Review, presents a captivating record, enlivened with illustrations, of the world before cyberspace—from voicemails to blind dates to punctuation to civility. There are the small losses: postcards, the blessings of an adolescence largely spared of documentation, the Rolodex, and the genuine surprises at high school reunions. But there are larger repercussions, too: weaker memories, the inability to entertain oneself, and the utter demolition of privacy. 100 Things We’ve Lost to the Internet is at once an evocative swan song for a disappearing era and, perhaps, a guide to reclaiming just a little bit more of the world IRL.

Mediating the Message Pamela J. Shoemaker, Stephen D. Reese, 1996 Mediating the Message, 2/e demonstrates the many ways in which a wide variety of forces including media owners, advertisers, audiences, politicians, interest groups, and journalist personal attitudes affect mass media content.

Rectangle Time Pamela Paul, 2021-02-16 Perfect for story time, New York Times Book Review editor Pamela Paul's funny and charming story about books, pets, and reading together will enchant readers of all ages. This spunky, self-assured cat has always loved Rectangle Time--when the boy and the man he lives with curl up with their rectangle and read aloud from it. The cat knows how helpful he is during Rectangle Time, of course--his presence is vital to the very ritual! But when the rectangle starts to get smaller, the stories start to get quieter, and worst of all, the boy no longer needs the cat's help, the cat must find a way to reclaim his part in Rectangle Time, even if slightly different from before. In this fun, funny, and ultimately sweet story about growing up, embracing change, and the ways we all can misread social cues, we see the power of stories to bring everyone together--there's always room for everyone at story time. Praise for Rectangle Time: The story subtly celebrates the pleasures of being read to and of growing toward reading independence. . . . A good option to hand educators needing to teach inference and for lovers of silly cats. --SLJ A sweet story about falling in love with reading. --Kirkus Comforting . . . clever. --Publishers Weekly This readaloud is sure to become a read-along as the listener's own literacy and vocabulary skills increase. --BCCB Truly delightful . . . kids will giggle over the familiar feline antics. --Booklist

**My Life with Bob** Pamela Paul, 2017-05-02 For twenty-eight years, Pamela Paul has been keeping a diary that records the books she reads,

rather than the life she leads. Or does it? Over time, it's become clear that this Book of Books, or Bob, as she calls him, tells a much bigger story. For Paul, as for many readers, books reflect her inner life--her fantasies and hopes, her dreams and ideas. And her life, in turn, influences which books she chooses, whether for solace or escape, diversion or self-reflection, information or entertainment. My Life with Bob isn't about what's in those books; it's about the relationship between books and readers--

*I'm With the Band: Confessions of a Groupie* Pamela Des Barres,2018-04-19 First published in 1987, New York Times bestseller, I'm With The Band has been reprinted throughout the years, all over the world. This is the stylish, exuberant and sweetly innocent tale of one of the most famous groupies of the 1960s and 70s. Beginning with Pamela Des Barres' early obsession with Elvis, her own Beatlemania madness, and her fierce determination to meet the musicians who rocked her world, I'm With The Band illuminates the glory days of scintillating encounters with musical gods including Jim Morrison, Jimi Hendrix, Mick Jagger and Keith Moon. A girl just wanting to have fun, Des Barres immersed herself in the drugs, danger and ecstasy of the freewheeling 1960s. As a member of The GTOs (Girls Together Outrageously), an all-female group masterminded by Frank Zappa, Des Barres was in the thick of the most revolutionary renaissance in the history of modern popular music. She travelled with Led Zeppelin; lived in sin with Don Johnson; turned down a date with Elvis Presley; and was close friends with Robert Plant, Gram Parsons and Ray Davies. She had affairs with Mick Jagger, Jimmy Page, Keith Moon, Waylon Jennings, Chris Hillman, Noel Redding, and Jim Morrison, among others. A woman in possession of her own destiny, Des Barres blazed a trail for women's life-writing, standing up for female voices and experience everywhere. From original diaries, told with great warmth, chutzpah and joie de vivre, this is a frank memoir that wears its heart on its sleeve, and recalls one of rock 'n' roll's most thrilling eras. This edition contains new material from the author, including her response to the vitriolic shaming of groupies, and a foreword by Roisin O'Connor, rock journalist and music correspondent for the Independent.
