Michael Albertus, Victor Menaldo

Authoritarianism Erica Frantz, 2018-08-01 Despite the spread of democratization following the Cold War's end, all signs indicate that we are living through an era of resurgent authoritarianism. Around 40 percent of the world's people live under some form of authoritarian rule, and authoritarian regimes govern about a third of the world's countries. In *Authoritarianism: What Everyone Needs to Know*, Erica Frantz guides us through today's authoritarian wave, explaining how it came to be and what its features are. She also looks at authoritarians themselves, focusing in particular on the techniques they use to take power, the strategies they use to survive, and how they fall. Understanding how politics works in authoritarian regimes and recognizing the factors that either give rise to them or trigger their downfall is ever-more important given current global trends, and this book paves the ways for such an understanding. An essential primer on the topic, *Authoritarianism* provides a clear and penetrating overview of one of the most important-and worrying-developments in contemporary world politics.

The Authoritarian Personality Theodor Adorno, Else Frenkel-Brenswik, Daniel J. Levinson, R. Nevitt Sanford, 2019-08-27 This hugely influential study on the psychology of authoritarianism was written in answer to Hitler's Germany—and now rings more relevant than ever as fascism and anti-Semitism sweep across America. What makes a fascist? Are there character traits that make someone more likely to vote for the far right? The *Authoritarian Personality* is not only one of the most significant works of social psychology ever written, it also marks a milestone in the development of Adorno's thought, showing him grappling with the problem of fascism and the reasons for Europe's turn to reaction. Over half a century later, and with the rise of right-wing populism and the reemergence of the far-right in recent years, this hugely influential study remains as insightful and relevant as ever. This new edition includes an introduction by Frankfurt School scholar Peter E. Gordon and contains the first-ever publication of Adorno's subsequent critical notes on the project. "Adorno and his colleagues could easily have been describing Alex Jones's paranoid InfoWars rants or the racist views expressed by many Trump supporters." —Molly Worthen, *New York Times*

Authoritarianism Goes Global Larry Diamond, Marc F. Plattner, Christopher Walker, 2016-04-15 With democracy in decline, authoritarian governments are staging a comeback around the world. Over the past decade, illiberal powers have become emboldened and gained influence within the global arena. Leading authoritarian countries—including China, Iran, Russia, Saudi Arabia, and Venezuela—have developed new tools and strategies to contain the spread of democracy and challenge the liberal international political order. Meanwhile, the advanced democracies have retreated, failing to respond to the threat posed by the authoritarians. As undemocratic regimes become more assertive, they are working together to repress civil society while tightening their grip on cyberspace and expanding their reach in international media. These political changes have fostered the emergence of new counternorms—such as the authoritarian subversion of credible election monitoring—that threaten to further erode the global standing of liberal democracy. In *Authoritarianism Goes Global*, a distinguished group of contributors present fresh insights on the complicated issues surrounding the authoritarian resurgence and the implications of these systemic shifts for the international order. This collection of essays is critical for advancing our understanding of the emerging challenges to democratic development. Contributors: Anne Applebaum, Anne-Marie Brady, Alexander Cooley, Javier Corrales, Ron Deibert, Larry Diamond, Patrick Merloe, Abbas Milani, Andrew Nathan, Marc F. Plattner, Peter Pomerantsev, Douglas Rutzen, Lilia Shevtsova, Alex Vatanka, Christopher Walker, and Frederic Wehrey

Transitions from Authoritarian Rule Guillermo O'Donnell, Philippe C. Schmitter, Laurence Whitehead, 1986-10 An array of internationally noted scholars examines the process of democratization in Southern Europe and Latin America. The authors provide new interpretations of both current and historical efforts of nations to end periods of authoritarian rule and to initiate transition to democracy, efforts that have met with widely varying degrees of success and failure. Extensive case studies of individual countries, a comparative overview, and a synthesis conclusions offer important insights for political scientists, students, and all concerned with the prospects for democracy. In Volume 3, despite the unique contexts of transitions in individual countries, significant points of comparison emerge – such as the influence of foreign nations and the role of agents outside the government. These analyses explore both intra- and interregional similarities and differences.

The Rise of Trump Matthew C. MacWilliams, 2016 Is the rise of Trump an anomaly—or is it merely a new expression of an old tendency in American politics? Matthew MacWilliams offers a succinct review of American political history, the theoretical literature on authoritarianism, and surveys of political attitudes surrounding the 2016 elections to explore the Trump phenomenon—and its portents.

Transitions from Authoritarian Rule Guillermo A. O'Donnell, 1986-09 An array of internationally noted scholars examines the process of democratization in southern Europe and Latin America. They provide new interpretations of both current and historical efforts of nations to end periods of authoritarian rule and to initiate transition to democracy, efforts that have met with widely varying degrees of success and failure. Extensive case studies of individual countries, a comparative overview, and a synthesis conclusions offer important insights for political scientists, students, and all concerned with the prospects for democracy. The historical example of Italy after Mussolini as well as the more recent cases of Greece, Portugal, Spain, and Turkey suggest factors that may make a transition relatively secure.

The Authoritarian Moment Ben Shapiro, 2021-07-27 *New York Times* Bestseller How far are Americans willing to go to force each other to fall in line? According to the establishment media, the intelligentsia, and our political chattering class, the greatest threat to American freedom lies in right-wing authoritarianism. We've heard that some 75 million Americans who voted for Donald Trump represent the rise of American fascism; that conservatives have allowed authoritarianism to bloom in their midst, creating a grave danger for the republic. But what if the true authoritarian threat to America doesn't come from the political right, but from the supposedly anti-fascist left? There are certainly totalitarians on the political right. But statistically, they represent a fringe movement with little institutional clout. The authoritarian left, meanwhile, is ascendant in nearly every area of American life. A small number of leftists—college-educated, coastal, and uncompromising—have not just taken over the Democratic Party but our corporations, our universities, our scientific establishment, our cultural institutions. And they have used their newfound power to silence their opposition. The authoritarian Left is aggressively insistent that everyone must conform to its values, demanding submission and conformity. The dogmatic Left is obsessed with putting people in categories and changing human nature. Everyone who opposes it must be destroyed. Ben Shapiro looks at everything from pop culture to the Frankfurt school, social media to the Founding Fathers, to explain the origins of our turn to tyranny, and why so many seem blind to it. More than a catalog of bad actors and intemperate acts, *The Authoritarian Moment* lays bare the intolerance and rigidity creeping into all American ideology – and prescribes the solution to ending the authoritarianism that threatens our future.

Dictators and Dictatorships Natasha M. Ezrow, Erica Frantz, 2011-02-24 *Dictators and Dictatorships* is a qualitative enquiry into the politics of authoritarian regimes. It argues that political outcomes in dictatorships are largely a product of leader-elite relations. Differences in the internal structure of dictatorships affect the dynamics of this relationship. This book shows how dictatorships differ from one another and the implications of these differences for political outcomes. In particular, it examines political processes in personalist, military, single-party, monarchic, and hybrid regimes. The aim of the book is to provide a clear definition of what dictatorship means, how authoritarian politics works, and what the political consequences of dictatorship are. It discusses how authoritarianism influences a range of political outcomes, such as economic performance, international conflict, and leader and regime durability. Numerous case studies from around the world support the theory and research presented to foster a better understanding of the inner workings of authoritarian regimes. By

combining theory with concrete political situations, the book will appeal to undergraduate students in comparative politics, international relations, authoritarian politics, and democratization.

The International Politics of Authoritarian Rule Oisín Tansey, 2016 Autocrats must overcome a range of challenges as they seek to gain and maintain political power, including the threat that comes from both rival elites and discontented publics. The International Politics of Authoritarian Rule examines the ways in which international forces can encourage and assist autocratic actors in overcoming these challenges. Often, autocratic incumbents are strengthened in power by events on the international stage and by the active support of international allies. The book offers a typology of different international forms of influence on authoritarianism, and examines the ways in which external forces shape autocratic rule at the domestic level. The typology distinguishes between three broad forms of international influence: passive influences, unintended consequences, and active forms of external autocratic sponsorship. The book focuses in particular on the latter category, and examines intentional autocratic sponsorship in the post-Cold War period. A central contribution of the book is to address the question of how international autocratic sponsorship can bolster authoritarian rule. It highlights the ways in which international sponsorship can contribute to authoritarian practices in three significant ways: by increasing the likelihood that authoritarian regimes will pursue 'authoritarian practices' (such as coups, repression or election fraud), by contributing to the implementation of those practices, and finally by shielding autocratic actors from international punishment after such practices are pursued. External sponsorship can thus lower the costs of authoritarian behaviour, and protect and shield authoritarian regimes from the negative consequences of their actions. Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines. Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war. The geographical focus of the series is primarily Latin America, the Caribbean, Southern and Eastern Europe, and relevant experiences in Africa and Asia. The series editor is Laurence Whitehead, Senior Research Fellow, Nuffield College, University of Oxford.

Totalitarian and Authoritarian Regimes in Europe Jerzy W. Borejsza, Klaus Ziemer, Magdalena Hułas, Niemiecki instytut historyczny (Varsovie), 2006 Based on a conference organized by the Institute of History of the Polish Academy of Sciences and the German Historical Institute, Warsaw, held in Sept. 2000.

Making the World Safe for Dictatorship Alexander Dukalskis, 2021 Making the World Safe for Dictatorship is about how authoritarian states manage their image abroad using both promotional tactics of persuasion and obstructive tactics of repression. All states attempt to manage their global image to some degree, but authoritarian states in the post-Cold War era have special incentives to do so given the predominance of democracy as an international norm. Alexander Dukalskis looks at the tactics that authoritarian states use for image management and the ways in which their strategies vary from one state to another. Moreover, Dukalskis looks at the degree to which some authoritarian states succeed in using image management to enhance their internal and external security, and, in turn, to make their world safe for dictatorship.

The Politics of Repression Under Authoritarian Rule Dag Tanneberg, 2020-01-03 Does authoritarian rule benefit from political repression? This book claims that it does, if restrictions and violence, two fundamentally different forms of repression, complement each other. Based on an in-depth quantitative analysis of the post-Second World War period, the author draws three central conclusions. Firstly, restrictions and violence offer different advantages, suffer from different drawbacks, and matter differently for identical problems of authoritarian rule. Secondly, empirical data supports complementarity only as long as political repression preempts political opposition. Lastly, despite its conceptual centrality, political repression has little influence on the outcomes of authoritarian politics. The book also offers new insights into questions such as whether repression hinders successful political campaigns or whether it is more likely to trigger coups d'état.

Life after Dictatorship James Loxton, Scott Mainwaring, 2018-09-13 Launches a new research agenda on one of the most common but overlooked features of the democratization experience worldwide: authoritarian successor parties.

Negotiating Democracy Gretchen Casper, Michelle M. Taylor, 1996-07-15 This book explains why some countries succeed in installing democracy after authoritarian rule, and why some of these new democracies make progress toward consolidation. Casper and Taylor show that a democratic government can be installed when elite bargaining during the transition process is relatively smooth. They view elite bargaining in twenty-four transitions cases, some where continued authoritarianism was the result, others where a democratic government was the result, and a third outcome where progress towards consolidation was the end product.

Authoritarian Nightmare John W. Dean, Bob Altemeyer, 2020-08-25 How did America end up with a leader who acts so crudely and despotically, and counter to our democratic principles? Why do his followers stick with him, even when he acts against their own interests? To fully understand, John Dean, a man with a history of standing up to autocratic presidents, joined with Bob Altemeyer, a professor of psychology with a unique area of expertise: Authoritarianism. Relying on social science findings and psychological diagnostic tools (such as the Power Mad Scale and the Con Man Scale), as well as research and analysis from the Monmouth University Polling Institute (one of America's most respected public opinion research foundations), the authors provide us with an eye-opening understanding of the Trump phenomenon – and how we may be able to stop it.

The New Authoritarianism in Latin America David Collier, Fernando Henrique Cardoso, Joint Committee on Latin American Studies, 1979 While one of the most important attempts to explain the rise of authoritarian regimes and their relationship to problems of economic development has been the bureaucratic-authoritarian model, there has been growing dissatisfaction with various elements of this model. In light of this dissatisfaction, a group of leading economists, political scientists, and sociologists was brought together to assess the adequacy of the model and suggest directions for its reformulation. This volume is the product of their discussions over a period of three years and represents an important advance in the critique and refinement of ideas about political development. Part One provides an overview of the issues of social science analysis raised by the recent emergence of authoritarianism in Latin America and contains chapters by David Collier and Fernando Henrique Cardoso. The chapters in Part Two address the problem of explaining the rise of bureaucratic authoritarianism and are written by Albert Hirschman, Jose Serra, Robert Kaufman, and Julio Coder. In Part Three Guillermo O'Donnell, James Kurth, and David Collier discuss the likely future patterns of change in bureaucratic authoritarianism, opportunities for extending the analysis to Europe, and priorities for future research. The book includes a glossary and an extensive bibliography.

Authoritarianism and the Elite Origins of Democracy Michael Albertus, Victor Menaldo, 2018-01-25 This book argues that – in terms of institutional design, the allocation of power and privilege, and the lived experiences of citizens – democracy often does not restart the political game after displacing authoritarianism. Democratic institutions are frequently designed by the outgoing authoritarian regime to shield incumbent elites from the rule of law and give them an unfair advantage over politics and the economy after democratization. Authoritarianism and the Elite Origins of Democracy systematically documents and analyzes the constitutional tools that outgoing authoritarian elites use to accomplish these ends, such as electoral system design, legislative appointments, federalism, legal immunities, constitutional tribunal design, and supermajority thresholds for change. The study provides wide-ranging evidence for these claims using data that spans the globe and dates from 1800 to the present. Albertus and Menaldo also conduct detailed case studies of Chile and Sweden. In doing so, they explain why some democracies successfully overhaul their elite-biased constitutions for more egalitarian social contracts.

The Authoritarian State Eric Voegelin, 1999 Published in Viennain 1936, The Authoritarian State by Eric Voegelin has remained virtually unknown to the public until now. Sales of the German edition were halted following the Nazi invasion of Austria in 1938, & the entire printing was later destroyed by wartime bombing. In this volume,

Voegelin offers a critical examination of the most prominent European theories of state & constitutional law of the period while providing a political & historical analysis of the Austrian situation. He discusses the dismissal of Parliament in 1933, the civil war, the murder of Federal Chancellor Dollfuss, the adoption of the Authoritarian Constitution of 1934, & the predicament of being sandwiched between Hitler & Mussolini. A radical critique of Hans Kelsen's pure theory of law lies at the heart of this work, marking Voegelin's definitive departure from Neo-Kantian epistemology. For the first time, Voegelin elaborates on the important distinction between theoretical concepts & political symbols as a basis for explaining the nontheoretical & speculative character of ideologies, both left & right. He shows that total & authoritarian are symbols of ideological self-interpretation that have no theoretical value, a distinction basic to his later work in *The New Science of Politics*. Available for the first time in English, *The Authoritarian State* is a valuable addition to the Voegelin canon & to the field of intellectual history in general.

Bridling Dictators Graeme Gill,2021 This book offers a new perspective on authoritarian politics. Rather than the leadership of the authoritarian political systems being always characterized by arbitrariness, fear, and struggle for power, this book argues that politics of such regimes are structured by a series of rules which bring some consistency and predictability.

Competitive Authoritarianism Steven Levitsky,Lucan A. Way,2010-08-16 Based on a detailed study of 35 cases in Africa, Asia, Latin America, and post-communist Eurasia, this book explores the fate of competitive authoritarian regimes between 1990 and 2008. It finds that where social, economic, and technocratic ties to the West were extensive, as in Eastern Europe and the Americas, the external cost of abuse led incumbents to cede power rather than crack down, which led to democratization. Where ties to the West were limited, external democratizing pressure was weaker and countries rarely democratized. In these cases, regime outcomes hinged on the character of state and ruling party organizations. Where incumbents possessed developed and cohesive coercive party structures, they could thwart opposition challenges, and competitive authoritarian regimes survived; where incumbents lacked such organizational tools, regimes were unstable but rarely democratized.

As recognized, adventure as well as experience very nearly lesson, amusement, as skillfully as concurrence can be gotten by just checking out a ebook **Authorguitarob** after that it is not directly done, you could agree to even more almost this life, in relation to the world.

We give you this proper as skillfully as simple pretentiousness to acquire those all. We provide Authorguitarob and numerous books collections from fictions to scientific research in any way. accompanied by them is this Authorguitarob that can be your partner.

Authorguitarob Introduction

In the digital age, access to information has become easier than ever before. The ability to download Authorguitarob has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Authorguitarob has opened up a world of possibilities. Downloading Authorguitarob provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Authorguitarob has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Authorguitarob. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Authorguitarob. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Authorguitarob, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute

malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Authorguitarob has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Authorguitarob Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Authorguitarob is one of the best book in our library for free trial. We provide copy of Authorguitarob in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Authorguitarob. Where to download Authorguitarob online for free? Are you looking for Authorguitarob PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Authorguitarob. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Authorguitarob are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Authorguitarob. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Authorguitarob To get started finding Authorguitarob, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Authorguitarob So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Authorguitarob. Maybe you have knowledge that, people have search numerous times for their favorite readings like this

Authorguitarob, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Authorguitarob is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Authorguitarob is universally compatible with any devices to read.
