Quest for Certainty in Early Modern Europe Barbara Fuchs,Mercedes Garcja-Arenal,2020 Reflecting on humanity's shared desire for certainty, this book explores the discrepancies between religious adherence and inner belief specific to the early modern period, a time marred by forced conversions and inquisition.

Weaving Identities Carol Hendrickson,2010-01-01 Traje, the brightly colored traditional dress of the highland Maya, is the principal visual expression of indigenous identity in Guatemala today. Whether worn in beauty pageants, made for religious celebrations, or sold in tourist markets, traje is more than mere cloth—it plays an active role in the construction and expression of ethnicity, gender, education, politics, wealth, and nationality for Maya and non-Maya alike. Carol Hendrickson presents an ethnography of clothing focused on the traje—particularly women's traje—of Tecpán, Guatemala, a bi-ethnic community in the central highlands. She covers the period from 1980, when the recent round of violence began, to the early 1990s, when Maya revitalization efforts emerged. Using a symbolic analysis informed by political concerns, Hendrickson seeks to increase the value accorded to a subject like weaving, which is sometimes disparaged as craft or women's work. She examines traje in three dimensions—as part of the enduring images of the Indian, as an indicator of change in the human life cycle and cloth production, and as a medium for innovation and creative expression. From this study emerges a picture of highland life in which traje and the people who wear it are bound to tradition and place, yet are also actively changing and reflecting the wider world. The book will be important reading for all those interested in the contemporary Maya, the cultural analysis of material culture, and the role of women in culture preservation and change.

Equestrian Rebels Roberto Cantú,2016-05-11 Mariano Azuela (Mexico, 1873–1952) was a medical doctor by profession, recipient of Mexico's Premio Nacional de Literatura (1949), a distinguished member of El Colegio Nacional and, by mid-century, one of Mexico's leading novelists and literary critics. The author of novels, novellas, plays, biographies, and literary criticism, Azuela served as field doctor under Francisco Villa during the Mexican Revolution and, after Villa's military defeats in 1915, published *Los de abajo* (The Underdogs, 1915) while in exile in El Paso, Texas. This book of essays commemorates the first centenary of *Los de abajo*, and traces its impact on twentieth-century autobiographies, memoirs and, more specifically, on the

Novel of the Mexican Revolution. *Equestrian Rebels: Critical Perspectives on Mariano Azuela and the Novel of the Mexican Revolution* includes a full-length introduction and nineteen essays by leading international scholars who study Azuela and other novelists of the Mexican Revolution – such as Martín Luis Guzmán, Nellie Campobello and, among others, José Rubén Romero – from current, yet contrasting and innovative theoretical perspectives. Especially written for this volume, these critical essays are grouped into five sections that separately probe and analyze Azuela's realism and contemporary affinities with photography; Azuela's literary criticism; centennial studies on *Los de abajo*; critical approaches to other novels by Azuela; three independent analyses of Nellie Campobello's *Cartucho* (1931); and a concluding section on literary representations of Mexican colonialism and revolution in the narratives of Juan Rulfo (*El llano en llamas*), Carlos Fuentes (*Gringo viejo*), and David Toscana (*El último lector*). This book will be of importance to scholars, teachers, students, and the general reader interested in topics related to the literary, cultural, and political forces and conflicts that led to the transformation of Mexico into a modern nation.

Lives on the Line Miriam Davidson, 2000-09-01 Straddling an international border, the twin cities of Nogales, Arizona, and Nogales, Sonora, are in many ways one community. For years the border was less distinct, with Mexicans crossing one way to visit family and friends and tourists crossing the other to roam the curio shops. But as times change, so do places like Nogales. The maquiladora industry has brought jobs, population growth, and environmental degradation to the Mexican side. A crackdown against undocumented immigrants has brought hundreds of Border Patrol agents and a 14-foot-tall steel wall to the U.S. side. Drug smuggling has brought violence to both sides. Neither Nogales will ever be the same. In *Lives on the Line*, Miriam Davidson tells five true stories from these border cities to show the real-life effects that the maquiladora boom and the law enforcement crackdown have had on the people of Ambos (Both) Nogales. Readers will meet Yolanda Sánchez, a single mother who came to work in the factories; Jimmy Teyechea, a cancer victim who became an outspoken environmental activist; Dario Miranda Valenzuela, an undocumented immigrant who was shot and killed by a U.S. Border Patrol agent; Cristina, a tunnel kid who aspired to flee the gang lifestyle; and Hope Torres and Tom Higgins, maquiladora managers who have made unique contributions to the community. In sharing these stories of people transformed by love and faith, by pain and loss, Davidson relates their experiences to larger issues and shows that, although life on the border is tough, it is not without hope. *Lives on the Line* is an impassioned look at the changes that have swept the U.S.-Mexico border: the rising tension concerning free trade and militarization, the growing disparity between the affluent and the impoverished. At the same time, the book highlights the positive aspects of change, revealing challenges and opportunities not only for the people who live on the border but for all Americans.

A History of the Spanish Novel J. A. Garrido Ardila, 2015-04-30 The origins of the Spanish novel date back to the early picaresque novels and *Don Quixote*, in the sixteenth and seventeenth centuries, and the history of the genre in Spain presents the reader with such iconic works as Galdós's *Fortunata and Jacinta*, Clarín's *La Regenta*, or Unamuno's *Mist*. *A History of the Spanish Novel* traces the developments of Spanish prose fiction in order to offer a comprehensive and detailed account of this important literary tradition. It opens with an introductory chapter that examines the evolution of the novel in Spain, with particular attention to the rise and emergence of the novel as a genre, during the sixteenth and seventeenth centuries, and the bearing of Golden-Age fiction in later novelists of all periods. The introduction contextualises the Spanish novel in the circumstances and milestones of Spain's history, and in the wider setting of European literature. The volume is comprised of chapters presented diachronically, from the sixteenth to the twenty-first century and others concerned with specific traditions (the chivalric romance, the picaresque, the modernist novel, the avant-gardist novel) and with some of the most salient authors (Cervantes, Zayas, Galdós, and Baroja). *A History of the Spanish Novel* takes the reader across the centuries to reveal the captivating life of the Spanish novel tradition, in all its splendour, and its phenomenal contribution to Western literature.

Fungi from Different Environments J K Misra, 2019-07-28 Mycologists now look at the genes of fungi to decipher many features that they have been studying in the past beyond just looking at the morphology and other such traits of these organisms. Fungi are also attracting the attention of scientists in various other disciplines. These include the search for useful fungi in various extreme environments th

Knowing Fictions Barbara Fuchs, 2021-02-05 European exploration and conquest expanded exponentially in the late fifteenth and sixteenth

centuries, and as the horizons of imperial experience grew more distant, strategies designed to convey the act of witnessing came to be a key source of textual authority. From the relación to the captivity narrative, the Hispanic imperial project relied heavily on the first-person authority of genres whose authenticity undergirded the ideological armature of national consolidation, expansion, and conquest. At the same time, increasing pressures for religious conformity in Spain, as across Europe, required subjects to bare themselves before external authorities in intimate confessions of their faith. Emerging from this charged context, the unreliable voice of the pícaro poses a rhetorical challenge to the authority of the witness, destabilizing the possibility of trustworthy representation precisely because of his or her intimate involvement in the narrative. In *Knowing Fictions*, Barbara Fuchs seeks at once to rethink the category of the picaresque while firmly centering it once more in the early modern Hispanic world from which it emerged. Venturing beyond the traditional picaresque canon, Fuchs traces Mediterranean itineraries of diaspora, captivity, and imperial rivalry in a corpus of texts that employ picaresque conventions to contest narrative authority. By engaging the picaresque not just as a genre with more or less strictly defined boundaries, but as a set of literary strategies that interrogate the mechanisms of truth-telling itself, Fuchs shows how self-consciously fictional picaresque texts effectively encouraged readers to adopt a critical stance toward the truth claims implicit in the forms of authoritative discourse proliferating in Imperial Spain.
