Engagements with Narrative Janine Utell, 2015-10-08 Balancing key foundational topics with new developments and trends, *Engagements with Narrative* offers an accessible introduction to narratology. As new narrative forms and media emerge, the study of narrative and the ways people communicate through imagination, empathy, and storytelling is especially relevant for students of literature today. Janine Utell presents the foundational texts, key concepts, and big ideas that form narrative theory and practical criticism, engaging readers in the study of stories by telling the story of a field and its development. Distinct features designed to initiate dialogue and debate include: Coverage of philosophical and historical contexts surrounding the study of narrative An introduction to essential thinkers along with the tools to both use and interrogate their work A survey of the most up-to-date currents, including mind theory and postmodern ethics, to stimulate conversations about how we read fiction, life writing, film, and digital media from a variety of perspectives. A selection of narrative texts, chosen to demonstrate critical practice and spark further reading and research Engagement sections to encourage students to engage with narrative theory and practice through interviews with scholars This guide teaches the key concepts of narrative—time, space, character, perspective, setting—while facilitating conversations among different approaches and media, and opening paths to new inquiry. *Engagements with Narrative* is ideal for readers needing an introduction to the field, as well as for those seeking insight into both its historical developments and new directions.

Tin Angel Kat Martin, L. J. Martin, 2014-01-04 In this rollicking western romance, written by New York Times bestselling author Kat Martin, with husband L. J. Martin, Jessica Taggart, fresh out of a Boston finishing school, comes West...to discover the restaurant she's inherited from her late father is actually a saloon and bawdy house! And to add to the insult, it's run by a handsome rogue, Jake Weston, who owns 49% of Taggart Enterprises. When Jessica discovers her father has been murdered, her suspicion of everyone and everything begins to deepen. She's not one to run from a problem, but half the city wants what she has...including Weston...and many will resort to anything to get it. And she's a young woman alone on San Francisco's infamous, lawless and wicked Barbary Coast!

Automatic Disambiguation of Author Names in Bibliographic Repositories Anderson A. Ferreira, Marcos André Gonçalves, Alberto H. F. Laender, 2022-06-01 This book deals with a hard problem that is inherent to human language: ambiguity. In particular, we focus on author name ambiguity, a type of ambiguity that exists in digital bibliographic repositories, which occurs when an author publishes works under distinct names or distinct authors publish works under similar names. This problem may be caused by a number of reasons, including the lack of standards and common practices, and the decentralized generation of bibliographic content. As a consequence, the quality of the main services of digital bibliographic repositories such as search, browsing, and recommendation may be severely affected by author name ambiguity. The focal point of the book is on automatic methods, since manual solutions do not scale to the size of the current repositories or the speed in which they are updated. Accordingly, we provide an ample view on the problem of automatic disambiguation of author names, summarizing the results of more than a decade of research on this topic conducted by our group, which were reported in more than a dozen publications that received over 900 citations so far, according to Google Scholar. We start by discussing its motivational issues (Chapter 1). Next, we formally define the author name disambiguation task (Chapter 2) and use this formalization to provide a brief, taxonomically organized, overview of the literature on the topic (Chapter 3). We then organize, summarize and integrate the efforts of our own group on developing solutions for the problem that have historically produced state-of-the-art (by the time of their proposals) results in terms of the quality of the disambiguation results. Thus, Chapter 4 covers HHC - Heuristic-based Clustering, an author name disambiguation method that is based on two specific real-world assumptions regarding scientific authorship. Then, Chapter 5 describes SAND - Self-training Author Name Disambiguator and Chapter 6 presents two incremental author name disambiguation methods, namely INDi - Incremental

Unsupervised Name Disambiguation and INC- Incremental Nearest Cluster. Finally, Chapter 7 provides an overview of recent author name disambiguation methods that address new specific approaches such as graph-based representations, alternative predefined similarity functions, visualization facilities and approaches based on artificial neural networks. The chapters are followed by three appendices that cover, respectively: (i) a pattern matching function for comparing proper names and used by some of the methods addressed in this book; (ii) a tool for generating synthetic collections of citation records for distinct experimental tasks; and (iii) a number of datasets commonly used to evaluate author name disambiguation methods. In summary, the book organizes a large body of knowledge and work in the area of author name disambiguation in the last decade, hoping to consolidate a solid basis for future developments in the field.

Tiger Burning Bright Marion Zimmer Bradley, Mercedes Lackey, Andre Norton, 2013-08 The city-state of Merina has no means to stop an invading army, so Dowager Queen Adele, Queen Lydana, and Princess Shelyra disappear from the palace. Hiding in places no one would suspect, they lead a counter-attack against the Emperor and his forces.

Aoife's Chariot Katherine Pathak, 2013-08-14 *Newly Edited Version (Sept 2014)* Two women are dead, forty years apart and in identical circumstances. Can Imogen and Hugh Croft discover the link? Following the sudden death of her mother, Imogen Croft returns to her childhood home on the Scottish Island of Garansay. Her brothers have given her the task of deciding what to do with their parents' farm, which is slowly falling into disrepair. Imogen will not be rushed into passing judgement on the place and when she starts to carry out some research into the history of Kilduggan Farm, she inadvertently sets off a chain of events that ends in tragedy. Suddenly, Imogen and her psychologist husband, Hugh, find themselves faced with a seemingly insoluble puzzle. How can it be possible that an unexplained death in the present day can match, in every detail, an unsolved case from 40 years ago? As the past begins to catch up with Imogen, she realises that she must strive to discover the truth about her family, even if it means that nothing will ever be the same again... This is an intricately plotted novel, cleverly interwoven with subtle clues and the occasional red-herring. It will keep you guessing and the pages turning, right up until its final, shocking conclusion. *Aoife's Chariot* is the first novel in the Imogen and Hugh Croft Mysteries Series

A Million Reasons Why Jessica Strawser, 2021-03-23 Heartbreaking yet hopeful, this astute exploration of the bonds and limitations of family is a perfect book club pick." – New York Times bestselling author Joshilyn Jackson A Most Anticipated by Goodreads * SheReads * E! News * Frolic Jessica Strawser's *A Million Reasons Why* is a fascinating foray into the questions we are most afraid to ask (Jodi Picoult, #1 New York Times bestselling author)--the story of two women who discover a bond between them that will change both their lives forever. When two strangers are linked by a mail-in DNA test, it's an answered prayer—that is, for one half sister. For the other, it will dismantle everything she knows to be true. But as they step into the unfamiliar realm of sisterhood, the roles will reverse in ways no one could have foreseen. Caroline lives a full, happy life—thriving career, three feisty children, enviable marriage, and a close-knit extended family. She couldn't have scripted it better. Except for one thing: She's about to discover her fundamental beliefs about them all are wrong. Sela lives a life in shades of gray, suffering from irreversible kidney failure. Her marriage crumbled in the wake of her illness. Her beloved mother, always her closest friend, unexpectedly passed away. She refuses to be defined by her grief, but still, she worries what will happen to her two-year-old son if she doesn't find a donor match in time. She's the only one who knows Caroline is her half sister and may also be her best hope for a future. But Sela's world isn't as clear-cut as it appears—and one misstep could destroy it all. A thrilling story of what happens when a long-held family secret comes to light...[Strawser] shows that no one is ever truly a villain or a hero, but instead, we are all a beautiful and messy mix of both. - Associated Press review

Sammy's Broken Leg (Oh, No!) and the Amazing Cast That Fixed It Judith Wolf Mandell,2017-03-15 One minute your child is fine. The next minute, a broken bone. Hours later, in a clunky cast. For weeks or months, sidelined from favorite activities. If your child is like Sammy, (s)he gets glum and grumpy as days slog by. Help is pages away in *Sammy's Broken Leg (Oh, No!) and the Amazing Cast That Fixed It*, a whimsical book to entertain a child in a cast for healing a broken bone, or in a spica cast for hip correction (hip dysplasia). Children in a cast will delight in a troupe of Kisses who cheer for Sammy and coach her to be patient. The Kisses are Sammy's secret: only she can hear them. How and when they whooshed into her life will amaze and amuse. It all goes to prove: One Kiss for a Boo-Boo. A Bazillion Kisses for a Cast! Lavished with colorful, quirky illustrations, *Sammy's Broken Leg (Oh, No!) and the Amazing Cast That Fixed It* is entertaining, educational and encouraging. The book: Gives children and families realistic expectations about weeks or months of healing time. Eases children's fears, calms parents' anxieties. Hands parents a tool to boost their child's (and their own) patience.

Genes, Cells and Brains Hilary Rose,Steven Rose,2013-01-16 Our fates lie in our genes and not in the stars, said James Watson, co-discoverer of the structure of DNA. But Watson could not have predicted the scale of the industry now dedicated to this new frontier. Since the launch of the multibillion-dollar Human Genome Project, the biosciences have promised miracle cures and radical new ways of understanding who we are. But where is the new world we were promised? In *Genes, Cells, and Brains*, feminist sociologist Hilary Rose and neuroscientist Steven Rose take on the bioscience industry and its claims. Examining the rivalries between public and private sequencers, the establishment of biobanks, and the rise of stem cell research, they ask why the promised cornucopia of health benefits has failed to emerge. Has bioethics simply become an enterprise? As bodies become increasingly commodified, perhaps the failure to deliver on these promises lies in genomics itself.

Palæontological Bulletin ,1913

When No Doesn't Cut It Lisa Oliver,2014-05-12 Scott Peterson, beta wolf in the Cloverleah Pack, had a good life. He loved his cars, riding his Harley, and going out with pack members and friends. But when an attack on his pack by a bear shifter, brings his mate into his world, from Texas of all places, Scott realizes he could lose everything he ever held dear. Damien, Alpha wolf of the San Antonio Pack, didn't want to go to Cloverleah and definitely didn't want to be chasing a rogue bear shifter that was threatening the Alpha of the Cloverleah Pack. But he was in for a pleasant surprise when he finds his mate. Now, if he could just find the time to enjoy him. Between murderous bears, deceptive wolves, two packs and a BDSM club, the road to HEA is anything but smooth for Scott and Damien. And then there's a fire, and an Alpha Challenge, and let's not forget Diablo and Griff's wedding. About the only thing Scott and Damien haven't got is time to be together, and it is that lack of time that could pull them apart.

Lawful Death Katherine Pathak,2014-02-28 *LAWFUL DEATH* Danny Carlow is dead. But is it murder? When a young man is shot dead during a burglary at Langley Farm, it divides the local community. Having just published his latest book on Post Traumatic Stress Disorder, Professor Hugh Croft agrees to assist Thomas Langley's beleaguered defence team as an expert witness. As Hugh begins to interview Langley, he discovers the old man is not quite what he expected. The Professor finds it difficult to see this tough ex-soldier as the elderly, fragile victim the national press have made him out to be. Hugh soon realises the Langley Farm case is far more complicated than it had at first appeared. Whilst Hugh, and his wife Imogen, are struggling to deal with problems within their own family, they find themselves drawn into a multi-layered web of lies and retribution, resulting in a race against time to protect the very people they love the most. 'Lawful Death' is a fast-paced and absorbing mystery thriller. It deals with the impact of war and bereavement; delving into the intricacies of the human psyche. This novel takes the reader on a gripping, nail-biting journey towards its shocking and unexpected conclusion.

Lives of the Twins Joyce Carol Oates,2017-02-14 Molly is consumed by curiosity and decides to contact her lover's twin brother. The two men force Molly to choose between fantasy and survival.

Content Management Bible Bob Boiko,2005-11-28 Written by one of the leading experts in content managementsystems (CMS), this newly revised bestseller guides readers throughthe confusing-and often intimidating-task of building,implementing, running, and managing a CMS Updated to cover recent developments in online deliverysystems, as well as XML and related technologies Reflects valuable input from CMS users who attended theauthor's workshops, conferences, and courses An essential reference showing anyone involved in informationdelivery systems how to plan and implement a system that can handlelarge amounts of information and help achieve an organization'soverall goals

This Can't Be Happening at Macdonald Hall! Gordon Korman,2014-11-25 In the #1 New York Times–bestselling author’s first book, the troublemaking team of Bruno and Boots wages war—and school will never be the same. The basis for the movie now streaming on TubiTV Bruno and Boots are always in trouble. So the Headmaster, aka “The Fish” decides it would be best to separate them. Bruno must now room with ghoulish Elmer Dimsdale, plus his plants, goldfish, and ants. And Boots is stuck with nerdy, preppy, paranoid George Wexford-Smyth III. Of course, this means war. Because Bruno and Boots are determined to get their old room back, no matter what it takes. Praise for the Bruno & Boots series “Korman has a unique talent for creating genuinely funny, roll-on-the-floor, laugh-out-loud books. All of his many books are bestsellers, a testament to his popularity with kids.” —Quill & Quire “A hilarious series.” —Booklist “Korman’s vibrant dialogue and breakneck action are the highlights of this merry romp . . . Laughs are as plentiful as [Bruno and Boots’s] misadventures.” —Publishers Weekly

Effective Databases for Text & Document Management Shirley A. Becker,2003-01-01 Focused on the latest research on text and document management, this guide addresses the information management needs of organizations by providing the most recent findings. How the need for effective databases to house information is impacting organizations worldwide and how some organizations that possess a vast amount of data are not able to use the data in an economic and efficient manner is demonstrated. A taxonomy for object-oriented databases, metrics for controlling database complexity, and a guide to accommodating hierarchies in relational databases are provided. Also covered is how to apply Java-triggers for X-Link management and how to build signatures.

Geological Magazine Henry Woodward,1900

Revelation ,1999-01-01 The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the Beast will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.
