Keys for Living Single Myles Munroe, 2007-12-11 In *Keys for Living Single*, Dr. Munroe describes how singleness—as we define it—is a myth. He explains the true nature of singleness and how it enables us to become everything God designed us to be: “If a state of singleness means ‘to be unique and whole,’ then to be totally single should be every Christian’s number one goal.” Develop a wholeness and completeness that will define and guide you for the rest of your life as you fulfill your singular purpose in the world—single or married.

Keys to Success Bertie Charles Forbes, 1918

Keys for Prayer Myles Munroe, 2007-12-11 In *Keys for Prayer*, Dr. Munroe reveals God’s purposes for prayer while providing powerful principles for putting it into practice. When you understand the principles of prayer, you can communicate with God with effectiveness, grace, and confidence. You can know that He hears and answers your requests. Start applying these keys for prayer today and live in your calling as God’s fellow worker in fulfilling His purposes on earth.

The Fiesta Data Model Peter Menke, 2016-03-11 Diese Dissertation stellt ein Datenmodell zur Repräsentation experimentbasierter Datensätze aus dem Forschungsgebiet der multimodalen Kommunikation vor. Es werden Belege für die Existenz verschiedener Probleme und Unzulänglichkeiten in der Arbeit mit multimodalen Datensammlungen aufgezeigt. Diese resultieren aus (a) einer Analyse bestehender multimodaler Korpora und (b) einer Umfrage, an der Wissenschaftlerinnen teilgenommen haben, die zu konkreten Problemen in der Arbeit mit ihren multimodalen Datensammlungen befragt wurden. Auf dieser Grundlage wird herausgearbeitet, dass trotz der Existenz einer Vielzahl von Datenmodellen und Formalismen zur Darstellung klassischer Textkorpora sich diese nicht eignen, um die multimodalen Korpora

eigenen Besonderheiten abbilden zu können. Aus diesem Grund wird ein Datenmodell entwickelt, das all jene spezifischen Eigenschaften multimodaler Korpora zu berücksichtigen sucht. Dieses Datenmodell bietet Lösungen speziell für die Arbeit mit einer oder mehreren Zeitachsen und Raumkoordinaten, für die Darstellung komplexer Annotationswerte, und für die Transformation zwischen verschiedenen (bisher inkompatiblen) Dateiformaten verbreiteter Annotationswerkzeuge.

The Killing Fields Sereena Nightshade, 2013-10-09 *The Killing Fields* is a rated R adult color book of poetry and photos describing the reality of being a stalking victim as this writer was from October 1999 to summer 2004. Stalker's frequently tamper with, harm, abuse and/or murder animals (pets and livestock). During the years of stalking terrorism this writer like other victims had a life outside of that which the accused predator/stalker created when the active stalking began and then continued for years. Within this other life outside of just being a stalking victim this writer care very deeply for a man who despite his proclamations of caring and even at one point love left this writer to die in the killing fields. During the time frame from 2000 to mid 2003 the man who claimed to care for this writer, the non-stalker from Afar, appeared to wonder and in fact fret over whether or not this writer matched his minimal standard for physical attractiveness. This writer never met him face to face because as the stalking horrors unfolded this writer could not abandon the animal victims to suffer more and die more just to prove to the One from Afar that this writer was acceptable and the One from Afar claimed he was too afraid of the accused stalker to come to the State of residency where this writer resided. The end result was being brutally stalked while trying to cope with a life outside of being stalked while trying to deal with the Black Market feel that transcended from expectations, questions, pressures, hang-ups from the One from Afar. Additional explanation is offered in the Books

The Visage, House of Sorrows and especially in Sweetie-Baby and Black Market. In publishing *The Killing Fields* this writer further will hopefully feel granted permission to throw the remaining photos of these horrors away as once published the victims' images are less easily forgotten or made into something that never existed, swept under the proverbial rug, despite the reality of how this all did exist for so many years in the undocumented war-zone and drafted by force status that defines a good portion of what it is to be stalked.

Analyzing Language and Humor in Online Communication Taiwo, Rotimi, Odebunmi, Akinola, Adetunji, Akin, 2016-06-16 Misunderstandings in technology-mediated communication can be due to a lack of tone and facial expression on the part of the speaker, which provide additional context clues into the meaning of the message beyond textual representation. As technology becomes more of a ubiquitous element in our interactions with one another, further study into the ways in which language and humor are conveyed online and impact human communication is essential. *Analyzing Language and Humor in Online Communication* presents a compendium of research into virtual communities, online communication, social networks, and the ways that language, and humor in particular, are being conveyed and understood in these digital environments. Emphasizing examples from popular culture and contemporary media, this innovative publication fills the current void in the literature by focusing specifically on humor creation and perception in the digital age. Students, researchers, linguists, psychologists, media professionals, and sociologists will find this publication to be a unique reference source.

The FRBR Family of Conceptual Models Richard P. Smiraglia, Pat Riva, Maja Žumer, 2014-10-29 Since 1998 when FRBR (Functional Requirements for Bibliographic Records) was first published by IFLA, the effort to develop and apply FRBR has been extended in many innovative and experimental directions. Papers in this volume explain and expand upon the extended family of FRBR models including Functional Requirements for Authority Data (FRAD), Functional Requirements for Subject Authority Data (FRSAD), and the object-oriented version of FRBR known as FRBROO. Readers will learn about dialogues between the FRBR Family and other modeling technologies, specific implementations and extensions of FRBR in retrieval systems, catalog codes employing FRBR, a wide variety of research that uses the FRBR model, and approaches to using FRBR for the Semantic Web. Librarians of all stripes as well as library and information science students and researchers can use this volume to bring their knowledge of the FRBR model and its implementation up to date. This book was published as a special issue of Cataloging & Classification Quarterly.

This Woman Howard Sounes, 2023-05-09 The true account of the scandalous affair between one of Britain's most notorious murderers, Myra Hindley, and a prison

guard—and their jailbreak plot to run away together. Myra Hindley was convicted in 1966, with her boyfriend Ian Brady, of what became known as the Moors Murders. Between July 1963 and October 1965 the couple sexually assaulted and killed five children and teenagers. Four bodies were buried on the moors near Manchester, and a tape recording was played in court of one child begging Hindley for their life. Hindley became an icon of evil, but in 1973, in London's Holloway prison, one woman fell in love with her. Hindley was a highly intelligent woman capable of charming anyone. Desperate to regain her freedom, she convinced an infatuated prison guard named Patricia Cairns, a former Carmelite nun, that she was a reformed woman who wanted to return to the Catholic church. Believing Hindley was sincere, yet had no chance of parole, Cairns plotted to break Hindley out of prison. This riveting story is told in vivid detail based on prison records and new interviews with former prison staff, inmates, and even the women's accomplice. Interspersed with powerful accounts of the Moors Murders, *This Woman* reveals Hindley's complex character and fiendish powers of manipulation—skills she used to lure children to their deaths in the 1960s, and used again to try to escape from prison.
