Sustainable Practices in Higher Education Thomas Walker,Khaled Tarabieh,Sherif Goubran,Gabrielle Machnik-Kekesi,2023-06-14 This edited collection presents, reviews, and critically analyzes sustainable practices and long-term-oriented decision-making in Higher Education Institutions (HEIs). Campus closures and the quick transition to hybrid or e-learning as a result of the COVID-19 pandemic caused HEI stakeholders, including students, faculty, and staff, to swiftly adopt new ways of learning, teaching, and administering that were unfathomable only months before. This radical and challenging shift left many in academia with a sense that there is tremendous potential for HEIs to take the lead – both from an educational and practical standpoint – in fostering on- and off-campus sustainability and combatting climate change. In this book, the editors and their contributors systematically highlight current challenges that are slowing or derailing HEIs’ finance-related initiatives and practices geared toward sustainability. The case studies collected in this book provide a holistic overview of the ways in which financial and other long-term decisions can lead to more sustainable practices in higher education.

Shades of Life Kruti Desai,2020-05-11 What is your Story? • It’s a hard way when I strive to impress all. • But then I thought once: Passion led me here, let me do it! • These voices will not leave us alone. • Truly said: “We are captives of what we love, what we desire and what we are.” –Mahmoud Darwish • Ask yourself, who are you... Death? “Sometimes. Not Today.” • If you agree with me, join me on my next adventure.

Eventide Kruti Desai, Divya Padhiyar,2020-09-08 The book is a reflection of the need of the day to expose the contemporary picture of society which nowadays inclined toward technology, practice to remain much intellectual, follow narrow thought practice and stay aloof from nature. As an expecting outcome to lead technocrat robots to get rid to be pseudo-beings toward their journey enforcing to remain a genuine one. The book will left the readers with a certain question to rethink on such matters in many ways. This collection of poetry will be suitable for every age group as the content is designed by the authors in such a way.

ADVERTISING N PROMOTION SHAH,2012 The book is rooted in sound theoretical concepts with a strong emphasis on the practical component. It introduces students to the concept of integrated marketing communication, and its major tools, techniques and media, with a special focus on advertising. It serves the needs of both – those who are inclined towards the managerial aspects of communication, as well as those who are interested in mastering the creative aspects

Death Across Cultures Helaine Selin,Robert M. Rakoff,2019-07-01 Death Across Cultures: Death and Dying in Non-Western Cultures, explores death practices and beliefs, before and after death, around the non-Western world. It includes chapters on countries in Africa, Asia, South America, as well as indigenous people in Australia and North America. These chapters address changes in death rituals and beliefs, medicalization and the industry of death, and the different ways cultures mediate the impacts of modernity. Comparative studies with the west and among countries are included. This book brings together global research conducted by anthropologists, social scientists and scholars who work closely with individuals from the cultures they are writing about.

The Black Male in White America Jacob U. Gordon,2004 This book explores twelve related research topics, each constituting a chapter. These chapters reflect the magnitude of the problems facing the African-American male. The book also documents the success stories of African American men and how they have lived beyond stereotypes and other odds. These issues are not likely to go away in the 21st century. They require government action and individual initiative toward a civil society in which America's promise can be a reality for all Americans, thus making sure that no single American will be left behind. Contents: Preface; African-American Males in Kindergarten; African-American Males in Higher Education; African-American Fatherhood; Theatre and the Re-Creation of the Black Experience; Contributions of African-American Males to the Sciences and Medicine; The African-American Male in American Journalism; African-American Males and the Economics of Poverty; The Black Male in the Clinton Administration; Transitioning African-American Men From the Prison Back to the Community; African-American MSM & HIV: Unfulfilled But Urgent Needs; The Black Male and Recent U.S. Policy Toward Africa; Foreign-Born Black Males: The Invisible Voices; Towa

African Americans in the U.S. Economy Cecilia Conrad,2005 The forty-three chapters in African Americans in the U.S. Economy focus on various aspects of the economic status of African Americans, past and present. Taken together, these essays present two related themes: first, when it comes to economics, race matters; second, racial economic discrimination and inequality persist despite the optimistic predictions of standard economic analysis that racial discrimination cannot thrive in a free-market economy. The African American Urban Experience J. Trotter,E. Lewis,T. Hunter,2004-03-17 From the early years of the African slave trade to America, blacks have lived and laboured in urban environments. Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon - only during World War One did African Americans move into cities in large numbers, and only during World War Two did

more blacks reside in cities than in the countryside. By the early 1970s, blacks had not only made the transition from rural to urban settings, but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other. In their quest for full citizenship rights, economic democracy, and release from an oppressive rural past, black southerners turned to urban migration and employment in the nation's industrial sector as a new 'Promised Land' or 'Flight from Egypt'. In order to illuminate these transformations in African American urban life, this book brings together urban history; contemporary social, cultural, and policy research; and comparative perspectives on race, ethnicity, and nationality within and across national boundaries.

Leading Organizations Scott Keller,Mary Meaney,2017-04-24 The guide for all leaders and senior managers, offering the answers to critical questions on organizational design and management. Every year, over 10,000 business books are published-and that's before you add in the hundreds of thousands of articles, blogs, and video lectures that are produced. Leaders can't possibly hope to digest it all, and writers increasingly sensationalize and spin their ideas in order to be noticed. The result? Put quite simply, the field of management thinking is in danger of losing the plot. In this new book, Scott Keller and Mary Meaney-Senior Partners at McKinsey & Company, the world's preeminent management consultancy-cut to the chase by answering the 10 most important and timeless questions that every leader needs to answer in order to maximize the performance and health of their organization. What's more, the authors recognize that great leaders may not have time for long-winded business books. In Leading Organizations, answers are kept to the essentials-hard facts, counter-intuitive insights, and practical steps-all presented in an accessible and highly visual format. If there's one essential business book you should read-ever-it's this one.

The New Leader's 100-Day Action Plan George B. Bradt,Jayme A. Check,Jorge E. Pedraza,2009-03-16 The New Leader's 100-Day Action Plan, and the included downloadable forms, has proven itself to be a valuable resource for new leaders in any organization. This revision includes 40% new material and updates -- including new and updated downloadable forms -- with new chapters on: * A new chapter on POSITIONING yourself for a leadership role * A new chapter on what to do AFTER THE FIRST 100 DAYS * A new chapter on getting PROMOTED FROM WITHIN and what to do then

Big Data Analytics in Cybersecurity Onur Savas,Julia Deng,2017-09-18 Big data is presenting challenges to cybersecurity. For an example, the Internet of Things (IoT) will reportedly soon generate a staggering 400 zettabytes (ZB) of data a year. Self-driving cars are predicted to churn out 4000 GB of data per hour of driving. Big data analytics, as an emerging analytical technology, offers the capability to collect, store, process, and visualize these vast amounts of data. Big Data Analytics in Cybersecurity examines security challenges surrounding big data and provides actionable insights that can be used to improve the current practices of network operators and administrators. Applying big data analytics in cybersecurity is critical. By exploiting data from the networks and computers, analysts can discover useful network information from data. Decision makers can make more informative decisions by using this analysis, including what actions need to be performed, and improvement recommendations to policies, guidelines, procedures, tools, and other aspects of the network processes. Bringing together experts from academia, government laboratories, and industry, the book provides insight to both new and more experienced security professionals, as well as data analytics professionals who have varying levels of cybersecurity expertise. It covers a wide range of topics in cybersecurity, which include: Network forensics Threat analysis Vulnerability assessment Visualization Cyber training. In addition, emerging security domains such as the IoT, cloud computing, fog computing, mobile computing, and cyber-social networks are examined. The book first focuses on how big data analytics can be used in different aspects of cybersecurity including network forensics, root-cause analysis, and security training. Next it discusses big data challenges and solutions in such emerging cybersecurity domains as fog computing, IoT, and mobile app security. The book concludes by presenting the tools and datasets for future cybersecurity research.

Integrated Advertising, Promotion, and Marketing Communications Kenneth E. Clow,Donald E. Baack,Professor Donald Baack,2012 ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Examine advertising and promotions through the lens of integrated marketing communications. The carefully integrated approach of this text blends advertising, promotions, and marketing communications together, providing readers with the information they need to understand the process and benefits of successful IMC campaigns. The fifth edition brings the material to life by incorporating professional perspectives and real-world campaign stories throughout the text.

Advertising, Sales and Promotion Management S. A. Chunawalla, 2008 Between the covers, the book discusses the entire marketing communication package consisting of advertising, publicity, public relations, direct marketing and sales promotion. Apart from mass communication, person-to-person communication in the form of personal selling is also covered in sufficient details. The role of media and media planning has been elaborated. The working of advertising agencies too has been covered. Advertising copywriting both for print media and electronic media has been discussed. In short, this book is a very useful companion for those interested in advertising, commu.

Integrated Marketing Communications Shimp, Terence A. Shimp, J. Craig Andrews, 2013-12-19 Advertising, Promotion, and Other Aspects of Integrated Marketing Communications, South African Edition provides a contemporary view of the role and importance of marketing communications. Emerging topics such as the enormous popularity of social media outlets, online and digital practices, viral communications, and personal selling – along with all of their effects on traditional marketing – are also discussed in this edition.

Making Marketing Music Chintamani Rao, 2019-11-18 Advertising is the most visible aspect of marketing communications, but it is often just an introductory greeting, the first handshake. What your target customer sees, hears and experiences of the product and the brand-in use, at retail, in social media and at other points of interaction-must be in keeping with the expectations its advertising sets up. Putting them all together and making them work consistently and with synergy is what is called integrated marketing communications. Running an integrated marketing communications programme is like making music, says author Chintamani Rao. The music we hear is a composite whole made up of the sounds of different instruments. They don't all make the same sound at the same time but played together they move us. And that is how marketing communications must work. To produce that effect an orchestra performs to a musical score, under the direction of a conductor. So must marketing communications. When we have a plan, assemble our communications instruments and conduct them effectively to make one big sound, we can move millions to think, feel and act. Drawing upon his own long and diverse experience as well as his observations as a lifelong student of marketing, the author tells us how integrated marketing communications works, why it doesn't, and how to make marketing music.

Topgrading (revised PHP edition) Bradford D. Smart Ph.D., 2005-04-07 Great companies don't just depend on strategies—they depend on people. The more great people on your team, the more successful your organization will be. But that's easier said than done. Statistically, half of all employment decisions result in a mishire: The wrong person winds up in the wrong job. But companies that have followed Bradford Smart's advice in Topgrading have boosted their successful hiring rate to 90 percent or better, giving them an unbeatable competitive advantage. Now Smart has fully revised his 1999 management classic to reintroduce the topgrading concept, which works for companies large and small in any industry. The author spells out his practical approach to finding and managing A-level talent—as well as coaching B players to turn them into A players. He provides intriguing case studies drawn from more than four thousand in-depth interviews. As Smart writes in his introduction, “All organizations, all businesses live or die mostly on their talent, and any manager who fails to topgrade is nuts, or a C player. . . . Those who, way deep down, would sooner see an organization die than nudge an incompetent person out of a job should not read this book... Topgrading is for A players and all those aspiring to be A players.” On the web: <http://www.topgrading.com/>

Death and Bereavement Across Cultures Pittu Laungani, William Young, 2003-09-02 All societies have their own customs and beliefs surrounding death. In the West, traditional ways of mourning are disappearing, and though science has had a major impact on views of death, it has taught us little about the way to die or to grieve. Many who come into contact with the dying and the bereaved from other cultures are at a loss to know how to offer appropriate and sensitive support. *Death and Bereavement Across Cultures*, provides a handbook with which to meet the needs of doctors, nurses, social workers, counsellors and others involved in the care of the dying and bereaved. Written by international authorities in the field, this important text: * describes the rituals and beliefs of major world religions * explains their psychological and historical context * shows how customs change on contact with the West * considers the implications for the future This book explores the richness of mourning traditions around the world with the aim of increasing the understanding which we all bring to the issue of death.
