Contested Objects Nicholas J. Saunders, Paul Cornish, 2014-09-04 *Contested Objects* breaks new ground in the interdisciplinary study of material culture. Its focus is on the rich and varied legacy of objects from the First World War as the global conflict that defined the twentieth century. From the iconic German steel helmet to practice trenches on Salisbury Plain, and from the 'Dazzle Ship' phenomenon through medal-wearing, diary-writing, trophy collecting, the market in war souvenirs and the evocative reworking of European objects by African soldiers, this book presents a dazzling array of hitherto unseen worlds of the Great War. The innovative and multidisciplinary approach adopted here follows the lead established by Nicholas J. Saunders' *Matters of Conflict* (Routledge 2004), and extends its geographical coverage to embrace a truly international perspective. Australia, Africa, Italy, Germany, France, Belgium and Britain are all represented by a cross-disciplinary group of scholars working in archaeology, anthropology, cultural history, art history, museology, and cultural heritage. The result is a volume that resonates with richly documented and theoretically informed case studies that illustrate how the experiences of war can be embodied in and represented by an endless

variety of artefacts, whose 'social lives' have endured for almost a century and that continue to shape our perceptions of an increasingly dangerous world.

African Mexicans and the Discourse on Modern Nation Marco Polo Hernández Cuevas, 2004 In *African Mexicans and the Discourse on Modern Nation*, author Marco Polo Hernández Cuevas explores how the Africanity of Mexican mestizaje was erased from the national memory and identity and how national African ethnic contributions were plagiarized by the criollo elite in modern Mexico. The book cites the concept of a Caucasian standard of beauty prevalent in narrative, film, and popular culture in the period between 1920 and 1968, which the author dubs as the cultural phase of the Mexican Revolution. The author also delves into how criollo elite disenfranchised non-white Mexicans as a whole by institutionalizing a Eurocentric myth whereby Mexicans learned to negate part of their ethnic makeup. During this time period, wherever African Mexicans, visibly black or not, are mentioned, they appear as mestizo, many of them oblivious of their African heritage, and others part of a willing movement toward becoming white. This analysis adopts as a critical foundation Richard Jackson's ideas about black phobia and the white aesthetic, as well as James Snead's coding of blacks.

American Junkie Tom Hansen, 2017-03-14 A non-stop trip into one man's land of desperate addicts, failed punk bands, and brushes with sad fame, as he sells drugs during the Seattle grunge years. In *American Junkie*, Tom Hansen maps his heroin addiction, from the promise of a young life to the prison of a mattress, from budding musician to broken down junkie, drowning in syringes and cigarette butts, shooting heroin into wounds the size of softballs, and ultimately, a ride to a hospital for a six-month stay and a painful self-discovery that cuts down to the bone. Through it all he never really loses his step, never lets go of his smarts, and always projects quintessential American reason, humor, and hope to make a story not only about drugs, but a compelling study of vulnerability and toughness.

The Empires of Atlantis Marco M. Vigato, 2021-12-21 • Traces the course of Atlantean civilization through its three empires, as well as the colonies and outposts formed by its survivors in Egypt, Göbekli Tepe, India, Mesopotamia, the Mediterranean, and North and South America • Shows how pyramids and other megalithic monuments testify to the survival of a "Sacred Science" of Atlantean origin and how this Sacred Science provided the foundation for esoteric traditions and secret societies throughout the ages • Draws on more than 500 ancient and modern sources and the

author's own personal exploration of hundreds of archaeological sites Exploring more than 100,000 years of Earth's history, Marco Vigato combines recent discoveries in the the fields of archaeology, geology, anthropology, and genetics with the mystery teachings of antiquity to investigate the true origins of civilization. Establishing the historical and geological reality of Atlantis stretching all the way back to 432,000 BCE, he traces the course of Atlantean civilization through its three empires, revealing how civilization rose and fell several times over this lengthy span of time. The author shows that Atlantis did not vanish "in one terrible day and night" but survived in a variety of different forms well into the historical era. He reveals how the the first Atlantean civilization lasted from 432,000 to 35,335 BCE, the second one from 21,142 to 10,961 BCE, and the third Atlantis civilization--the one celebrated by Plato--collapsed in 9600 BCE, after the Younger Dryas cataclysm. The author examines the role of Atlantean survivors in restarting civilization in different parts of the world, from Göbekli Tepe and Egypt to India, Mesopotamia, and the Americas. He personally documents their colonies and outposts around the globe, offering unique views of the colossal network of pyramids, earthen mounds, and other megalithic monuments they le behind. He shows how these monuments testify to the survival of a sacred science of Atlantean origin, and he documents the survival of the primeval Atlantean tradition through various secret societies into the modern era. Drawing on more than 500 ancient and modern sources and sharing never-before-seen photographs from his own personal exploration of hundreds of archaeological sites around the world, Vigato shows not only that Atlantis was real but that the whole world is now being called to become a New Atlantis and awaken into a new golden age.

I'm Staying Here Marco Balzano, 2020-12-01 A mother recounts her life story to her long-lost daughter in this sweeping historical novel about a community torn between Italian fascism and German Nazism. In the small village of Curon in South Tyrol, seventeen-year-old Trina longs for a different life. She dedicates herself to becoming a teacher, but the year that she qualifies—1923—Mussolini's regime abolishes the use of German as a teaching language in the annexed Austrian territory. Defying their ruthless program of forced Italianization, Trina works for a clandestine network

of schools in the valley, always with the risk of capture. In spite of this new climate of fear and uncertainty, she finds love and some measure of stability with Erich, an orphaned young man and her father's helper. Now married and a mother, Trina's life is again thrown into uncertainty when Hitler's Germany announces the "Great Option" in 1939, and communities in South Tyrol are invited to join the Reich and leave Italy. The town splits, and ever-increasing rifts form among its people. Those who choose to stay, like Trina and her family, are seen as traitors and spies; they can no longer leave the house without suffering abuse. Then one day Trina comes home and finds that her daughter is missing... Inspired by the striking image of the belltower rising from Lake Resia, all that remains today of the village of Curon, Marco Balzano has written a poignant novel that beautifully interweaves great moments in history with the lives of everyday people.
