Royal Philosophical Society of Glasgow

Injury and Injustice Anne Bloom,David M. Engel,Michael McCann,2018-03-31 This book addresses some of the most difficult and important debates over injury and law now taking place in societies around the world. The essays tackle the inescapable experience of injury and its implications for social inequality in different cultural settings. Topics include the tension between physical and reputational injuries, the construction of human injuries versus injuries to non-human life, virtual injuries, the normalization and infliction of injuries on vulnerable victims, the question of reparations for slavery, and the paradoxical degradation of victims through legal actions meant to compensate them for their disabilities. Authors include social theorists, social scientists and legal scholars, and the subject matter extends to the Middle East and Asia, as well as North America.

An account of the apparatuses for the treatment of rheumatism and diseases of the skin, which have been constructed at the Dublin Skin Infirmary William WALLACE (Surgeon to the Jervis Street Infirmary, Dublin.),1825

On the cure of Cataract, with a practical summary of the best modes of operating (continental and British.). Hugh Neill (Surgeon),1848

Instruction in Chemical Analysis. (Quantitative). Edited by J. L. Bullock C. Remigius Fresenius,1854

The Monthly Review Ralph Griffiths,George Edward Griffiths,1799

A Treatise on the diseases of the nervous system. v. 2 James Ross,1883

The History of the Cholera in Exeter in 1832 Thomas Shapter,1849 Shapter's history of Exeter's 1832 cholera epidemic -- part of the worldwide cholera pandemic of 1829-51 -- includes his 'Map of Exeter in 1832 shewing the localities where the deaths caused by pestilential cholera occurred in the years 1832, 1833 & 1834', one of the first examples of an epidemic 'spot map.' 'Shapter's text and map presented a 'topography of disease' in which the incidence of cholera over three years was considered within the city of Exeter. Shapter recorded both mortality and morbidity across the outbreak in a chart of epidemic occurrence. He then used official mortality reports that included decedents' street addresses to locate cholera mortality in a map of the city. A mortality ratio based on parish population was recorded in the map legend. This amounted to a spatial description of mortality data . . . mapped clusters of cholera appearing to occur more frequently in parishes along the low-lying riverbanks of the city . . . than at higher altitude away from the river where air was purer' (Koch, Disease Maps: Epidemics on the Ground, p. 156). Shapter's map, which did not mark wells or pump locations, appeared to confirm his theory that cholera was a miasmatic disease caused by 'bad air.' John Snow, whose On the Pathology and Mode of Communication of the Cholera appeared the same year as Shapter's work, interpreted Shapter's data differently, using it to help demonstrate the link between disease outbreaks and contaminated water sources.--Antiquarian bookseller's description, 2017.

Adopting the Track of Appearance: An Psychological Symphony within **Authormedico**

In a global used by monitors and the ceaseless chatter of instantaneous interaction, the melodic splendor and mental symphony created by the written term frequently diminish into the background, eclipsed by the persistent noise and disruptions that permeate our lives. Nevertheless, nestled within the pages of **Authormedico** an enchanting literary prize filled with fresh feelings, lies an immersive symphony waiting to be embraced. Constructed by a wonderful composer of language, that captivating masterpiece conducts visitors on a mental journey, well unraveling the concealed melodies and profound influence resonating within each cautiously constructed phrase. Within the depths of this touching analysis, we can explore the book is central harmonies, analyze their enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
