Camelot's End Jon Ward, 2019-01-22 From a strange, dark chapter in American political history comes the captivating story of Ted Kennedy's 1980 campaign for president against the incumbent Jimmy Carter, told in full for the first time. The Carter presidency was on life support. The Democrats, desperate to keep power and yearning to resurrect former glory, turned to Kennedy. And so, 1980 became a civil war. It was the last time an American president received a serious reelection challenge from inside his own party, the last contested convention, and the last all-out floor fight, where political combatants fought in real time to decide who would be the nominee. It was the last gasp of an outdated system, an insider's game that old Kennedy hands thought they had mastered, and the year that marked the unraveling of the

Democratic Party as America had known it. *Camelot's End* details the incredible drama of Kennedy's challenge -- what led to it, how it unfolded, and its lasting effects -- with cinematic sweep. It is a story about what happened to the Democratic Party when the country's long string of successes, luck, and global dominance following World War II ran its course, and how, on a quest to recapture the magic of JFK, Democrats plunged themselves into an intra-party civil war. And, at its heart, *Camelot's End* is the tale of two extraordinary and deeply flawed men: Teddy Kennedy, one of the nation's greatest lawmakers, a man of flaws and of great character; and Jimmy Carter, a politically tenacious but frequently underestimated trailblazer. Comprehensive and nuanced, featuring new interviews with major party leaders and behind-the-scenes revelations from the time, *Camelot's End* presents both Kennedy and Carter in a new light, and takes readers deep inside a dark chapter in American political history.

Nicholas Ray Patrick McGilligan, 2011-07-12 Award-winning film historian Patrick McGilligan follows his acclaimed biographies of Alfred Hitchcock and Oscar Micheaux with a revelatory look at the life of Nicholas Ray, the troubled director of *In a Lonely Place*, *We Can't Go Home Again*, and *Rebel Without a Cause*.

McGilligan charts the cerebral struggles, astonishing adventures, and artistic triumphs that defined Ray's life, including his Hollywood collaborations with Humphrey Bogart, Robert Mitchum, James Cagney, and James Dean; his love affairs with Marilyn Monroe, Jayne Mansfield, Zsa Zsa Gabor, and Gloria Grahame; his partnerships with activist Abbie Hoffman, pornography starlet Marilyn Chambers, photographer Wim Wenders; and more. Celebrating, contextualizing, and examining Ray's life and work, McGilligan delivers a milestone of film history and offers a captivating look at one of classic cinema's most colorful figures.

The Coming Collapse of China Gordon G. Chang, 2001-09-15

China is hot. The world sees a glorious future for this sleeping giant, three times larger than the United States, predicting it will blossom into the world's biggest economy by 2010. According to Chang, however, a Chinese-American lawyer and China specialist, the People's Republic is a paper dragon. Peer beneath the veneer of modernization since Mao's death, and the symptoms of decay are everywhere: Deflation grips the economy, state-owned enterprises are failing, banks are hopelessly insolvent, foreign investment continues to decline, and Communist party corruption eats away at the fabric of society. Beijing's cautious reforms have

left the country stuck midway between communism and capitalism, Chang writes. With its impending World Trade Organization membership, for the first time China will be forced to open itself to foreign competition, which will shake the country to its foundations. Economic failure will be followed by government collapse. Covering subjects from party politics to the Falun Gong to the government's insupportable position on Taiwan, Chang presents a thorough and very chilling overview of China's present and not-so-distant future.

Lilah Tov Good Night Ben Gundersheimer (Mister G), 2020-02-18 A soothing Hebrew lullaby takes on added meaning for a refugee family in this visually stunning debut. As the moon rises, a family steps into the night on a journey toward a new beginning. Along the way, their little girl delights in the wonders of nature, saying good night--lilah tov--to the creatures and landscapes they pass. Wherever she looks--on land, in the sky above and even, eventually, in the water below her boat--there are marvels to behold. Lilah tov to the birds in the trees, lilah tov to the fish in the sea. Then, when their travels are finally over, her parents tuck her in tight, safe and ready for dreams in their new home. This lyrical lullaby celebrates the beauty of our world and the spirit of resilience in a refugee family.

Mister Pip Lloyd Jones, 2011-04-04 Lloyd Jones' new novel is set mainly in a small village on Bougainville, a country torn apart by civil war. Matilda attends the school set up by Mr Watts, the only white man on the island. By his own admission he's not much of a teacher and proceeds to educate the children by reading them *Great Expectations*. Matilda falls in love with the novel, strongly identifying with Pip. The promise of the next chapter is what keeps her going; Pip's story protects her from the horror of what is happening around her - helicopters menacing the skies above the village and rebel raids on the ground. When the rebels visit the village searching for any remaining men to join their cause, they discover the name Pip written in the sand and instigate a search for him. When Pip can't be found the soldiers destroy the book. Mr Watts then encourages the children to retell the story from their memories. Then when the rebels invade the village, the teacher

tells them a story which lasts seven nights, about a boy named Pip, and a convict . . .

Parallels V.S.Sury,2020-06-04 The phenomena and events which occur (incessantly) in Nature are countless. But on careful observation, we can notice that some forms of common threads run across different platforms or fields. These fascinating parallels can be found amidst the world of human affairs also, apart from the natural, scientific laws and theories. Look at how a very large unit (or organization, or organism, or machine) is very conveniently and smartly assembled out of many smaller units. The beauty is that the smaller constituent units work independently and at the same time are also a part of the whole. Take human individuals, and as a parallel (the theme of this book) the physical house in which they dwell. Individuals come together and make families. Families live together and make groups or organizations or societies. They, in turn, combine and grow into states; states join up and become a nation. All nations, of course, make up the world—whether they like

it or not! Physical, purely material entities like houses and possessions run in a parallel stream with those of human ideologies. The same method is employed by Nature in building its vast empire. Fundamental particles join and exist together to make up atoms. Atoms join and make up molecules. Out of the molecules, all of planet Earth is made. Planets and a star join and make a solar system. Millions of them combine and make a galaxy. Billions and trillions of them make a universe – like ours. There are innumerable such examples in the world we live in. Go ahead and begin to turn the pages.

In Search of the Blues Marybeth Hamilton,2009-07-28 Lead

belly, Robert Johnson, Charley Patton - we are all familiar with these legends of the Delta blues. Fierce, raw voices; tormented drifters; deals with the devil at the crossroads at midnight. In this extraordinary reconstruction of the origins of the Delta blues, historian Marybeth Hamilton demonstrates that the story as we know it is largely a myth. The idea of something called Delta blues only emerged in the mid-twentieth century, the culmination of a longstanding white fascination with the exotic mysteries of black music. The prehistory begins around 1900, when a group of obsessive white men and women set out to track down those voices. For the would-be race scientist Howard Odum, this meant combing remote Mississippi's back roads with a cylinder phonograph to capture the obscene melodies of vagrants and field hands. For the plantation-bred folklorist Dorothy Scarborough, it meant finding elderly white Civil War veterans to recreate the croonings of mammies and nursemaids. For the Texas banker turned song hunter John Lomax and his teenage son Alan, it meant prowling Southern penitentiaries and unearthing a double murderer, Lead belly, whose rough, ragged, melancholy vocals evoked the anguish of the chain gang. Many of these early recordings turned up in a single room of a Brooklyn YMCA, in the

hands of a reclusive collector named James McKune. McKune had heard something pure and primal in the voices of Charley Patton and Robert Johnson, the prized items in the collection of scratched, battered 78s that he stored in a cardboard box under his bed. When this secret stash of recordings came to light in the 1960s, collectors used them to invent the idea of the Delta blues - the "authentic" voice of black America, so unlike the impure popular black music of the time which emanated from corporate record labels. Hamilton shows that the Delta blues was created not by blacks but by white pilgrims, seekers, and propagandists who headed deep into Americas south in search of an authentic black voice of rage and redemption. In excavating the history of an immensely popular musical form, Hamilton reveals the extent to which American culture has been shaped by white fantasies of racial difference.
