**Communications** James Carberry,2017-05-15 Improving communication is one of the most important – and challenging – issues that management accountants face. In a global survey of CFOs, Ernst & Young said: Despite two thirds of respondents saying that increasingly they act as the public face of the organization, most point to communication and influencing as the most important area for improvement. In this publication you will learn: How do management accountants know if they are effectively communicating? What are the most effective techniques for improving their communication skills? This book is specifically designed to meet the needs and interests of management accountants. It draws on interviews with finance professionals at every level of corporate accounting, as well as with communication consultants, executive recruiters and educators. It looks at how management accountants communicate inside and outside their organizations, identifies best practices, and gives hands-on strategies that accountants can use right away. Readers will discover how to: Move their current communication skills to a higher level. Recognize the importance of communication within the context of their financial manager function. Understand the right way to deliver bad news and resolve conflicts. Manage the impact of new technologies on traditional communication channels. Develop the skills to use active listening as the foundation for positive communication tactics.

**Metabolical** Robert H. Lustig,2021-05-04 The New York Times bestselling author of *Fat Chance* explains the eight pathologies that underlie all chronic disease, documents how processed food has impacted them to ruin our health, economy, and environment over the past 50 years, and proposes an urgent manifesto and strategy to cure both us and the planet. Dr. Robert Lustig, a pediatric neuroendocrinologist who has long been on the cutting edge of medicine and science, challenges our current healthcare paradigm which has gone off the rails under the influence of Big Food, Big Pharma, and Big Government. You can't solve a problem if you don't know what the problem is. One of Lustig's singular gifts as a communicator is his ability to "connect the dots" for the general reader, in order to unpack the scientific data and concepts behind his arguments, as he tells the "real story of food" and "the story of real food." *Metabolical* weaves the interconnected strands of nutrition, health/disease, medicine, environment, and society into a completely new fabric by proving on a scientific basis a series of iconoclastic revelations, among them: Medicine for chronic disease treats symptoms, not the disease itself You can diagnose your own biochemical profile Chronic diseases are not druggable, but they are foodable Processed food isn't just toxic, it's addictive The war between vegan and keto is a false war—the combatants are on the same side Big Food, Big Pharma, and Big Government are on the other side Making the case that food is the only lever we have to effect biochemical change to improve our health, Lustig explains what to eat based on two novel criteria: protect the liver, and feed the gut. He insists that if we do not fix our food and change the way we eat, we will continue to court chronic disease, bankrupt healthcare, and threaten the planet. But there is hope: this book explains what's needed to fix all three.

*Delicate Edible Birds* Lauren Groff,2009-01-27 From Lauren Groff, author of the critically acclaimed and bestselling novel *Fates and Furies*, comes

*Delicate Edible Birds*, one of the most striking short fiction debuts in years. Here are nine stories of astonishing insight and variety, each revealing a resonant drama within the life of a twentieth-century American woman. In *Sir Fleeting*, a Midwestern farm girl on her honeymoon in Argentina falls into lifelong lust for a French playboy. In *Blythe*, an attorney who has become a stay-at-home mother takes a night class in poetry and meets another full-time mother, one whose charismatic brilliance changes everything. In *The Wife of the Dictator*, that eponymous wife (brought back . . . from [the dictator's] last visit to America) grows more desperately, menacingly isolated every day. In *Delicate Edible Birds*, a group of war correspondents—a lone, high-spirited woman among them—falls sudden prey to a brutal farmer while fleeing Nazis in the French countryside. In *Lucky Chow Fun*, Groff returns us to Templeton, the setting of her first book, for revelations about the darkness within even that idyllic small town. In some of these stories, enormous changes happen in an instant. In others, transformations occur across a lifetime—or several lifetimes. Throughout the collection, Groff displays particular and vivid preoccupations. Crime is a motif—sex crimes, a possible murder, crimes of the heart. Love troubles recur; they're in every story—love in alcoholism, in adultery, in a flood, even in the great flu epidemic of 1918. Some of the love has depths, which are understood too late; some of the love is shallow, and also understood too late. And mastery is a theme—Groff's women swim and baton twirl, become poets, or try and try again to achieve the inner strength to exercise personal freedom. Overall, these stories announce a notable new literary master. Dazzlingly original and confident, *Delicate Edible Birds* further solidifies Groff's reputation as one of the foremost talents of her generation.

*The Raging 2020s* Alec Ross, 2021-09-14 In the face of unprecedented global change, New York Times bestselling author Alec Ross proposes a new social contract to restore the balance of power between government, citizens, and business in *The Raging 2020s*. For 150 years, there has been a contract. Companies hold the power to shape our daily lives. The state holds the power to make them fall in line. And the people hold the power to choose their leaders. But now, this balance has shaken loose. As the market consolidates, the lines between big business and the halls of Congress have become razor-thin. Private companies have become as powerful as countries. As Walter Isaacson said about Alec Ross's first book, *The Industries of the Future*, "The future is already hitting us, and Ross shows how it can be exciting rather than frightening." Through interviews with the world's most influential thinkers and stories of corporate activism and malfeasance, government failure and renewal, and innovative economic and political models, Ross proposes a new social contract—one that resets the equilibrium between corporations, the governing, and the governed.

**The Deoliwallahs** Joy Ma, Dilip D'Souza, 2020-01-23 Humanly compelling, beautifully told ... brings to light a forgotten chapter of Indian history, one we need to remember in these troubled times' PRATAP BHANU MEHTA '[Joy Ma and Dilip D'Souza] have seamlessly woven together historical facts with personal stories about how the Chinese- Indians lost the country of their birth' YIN MARSH The untold account of the internment of 3,000 Chinese-Indians after the 1962 Sino-Indian War. Just after the Sino-Indian War of 1962, about 3,000 Chinese-Indians were sent to languish in a disused World War II POW camp in Deoli, Rajasthan, marking the beginning of a painful five-year-long internment without resolution. At a time of war with China, these 'Chinese-looking' people had fallen prey to government suspicion and paranoia which soon seeped into the public consciousness. This is a page of Indian history that comes wrapped in prejudice and fear, and is today largely forgotten. But over five decades on, survivors of the internment are finally starting to tell their stories. As several Indian communities are once again faced with discrimination, *The Deoliwallahs* records these untold stories through extensive interviews with seven survivors of the Deoli internment. Through these accounts, the book recovers a crucial chapter in our history, also documenting for the first time how the Chinese came to be in India, how they made this country their home and became a significant community, until the war of 1962 brought on a terrible incarceration, displacement and tragedy.

**The Last Seat in the House** John Kane, 2020-01-27 Known as the Father of Festival Sound, Bill Hanley (b. 1937) made his indelible mark as a sound engineer at the 1969 Woodstock Music and Arts Fair. Hanley is credited with creating the sound of Woodstock, which literally made the massive

festival possible. Stories of his on-the-fly solutions resonate as legend among festivalgoers, music lovers, and sound engineers. Since the 1950s his passion for audio has changed the way audiences listen to and technicians approach quality live concert sound. John Kane examines Hanley's echoing impact on the entire field of sound engineering, that crucial but often-overlooked carrier wave of contemporary music. Hanley's innovations founded the sound reinforcement industry and launched a new area of technology, rich with clarity and intelligibility. By the early seventies the post-Woodstock festival mass gathering movement collapsed. The music industry shifted, and new sound companies surfaced. After huge financial losses and facing stiff competition, Hanley lost his hold on a business he helped create. By studying both his history during the festivals and his independent business ventures, Kane seeks to present an honest portrayal of Hanley and his acumen and contributions. Since 2011, Kane conducted extensive research, including over one hundred interviews with music legends from the production and performance side of the industry. These carefully selected respondents witnessed Hanley's expertise at various events and venues like Lyndon B. Johnson's second inauguration, the Newport Folk/Jazz Festivals, the Beatles' final tour of 1966, the Fillmore East, Madison Square Garden, and more. *The Last Seat in the House* will intrigue and inform anyone who cares about the modern music industry.

The authors rely on an innovative 'building block' approach and provide a detailed description of the most important knowledge processes in organizations. We are experiencing a paradigm shift from an industrial age to a service/knowledge age. Heinz Fischer, Vice-President (Personnel), Deutsche Bank Knowledge of customer needs, markets, patents, products and processes is a key strategic resource in today's business world. The use of this resource, particularly in larger companies, is becoming a matter of survival in highly competitive and innovation-driven markets. **The Last Stargazers** Emily Levesque, 2020-08-04 The story of the people who see beyond the stars—an astronomy book for adults still spellbound by the night sky. Humans from the earliest civilizations through today have craned their necks each night, using the stars to orient themselves in the large, strange world around them. Stargazing is a pursuit that continues to fascinate us: from Copernicus to Carl Sagan, astronomers throughout history have spent their lives trying to answer the biggest questions in the universe. Now, award-winning astronomer Emily Levesque shares the stories of modern-day stargazers in this new nonfiction release, the people willing to adventure across high mountaintops and to some of the most remote corners of the planet, all in the name of science. From the lonely quiet of midnight stargazing to tall tales of wild bears loose in the observatory, *The Last Stargazers* is a love letter to astronomy and an affirmation of the crucial role that humans can and must play in the future of scientific discovery. In this sweeping work of narrative science, Levesque shows how astronomers in this scrappy and evolving field are going beyond the machines to infuse creativity and passion into the stars and space and inspires us all to peer skyward in pursuit of the universe's secrets.
